Road Pricing

Georgina Santos,2004-07-31 Traffic congestion affects towns and cities everywhere and in some places it is regarded as one of the most urgent and important problems in need of a solution Road pricing is undoubtedly recognised as an effective traffic demand management tool The recent London congestion charging scheme seems to be showing that public and political opposition is not insurmountable Thus the ghost that prevented the introduction of a policy supported by transport economists for over 80 years seems to have disappeared or at least weakened The book contains twelve papers useful to different types of audience such as researchers and postgraduate students civil servants policy makers and consultants The

first part is mainly theoretical and concentrates on second best congestion pricing including pricing in urban contexts the impact on the performance of the road network optimal locations and charge levels dynamic aspects such as time variation of tolls potential impacts of road pricing on costs and service quality of public transport buses and efficiency costs and transport sector effects of different types of pricing when they guarantee a balanced budget per mode The second part contains chapters that describe the schemes in place around the world such as Singapore Norway London and the US The volume is an update of the state of the art on the subject and the first one to have been written and appear after the London scheme was implemented and to contain an assessment of its preliminary impacts

**Conference Record of Papers Presented at the ... Vehicle Navigation and Information Systems Conference (VNIS ... ). ,1992** Orbital Motorways ,1990

Increasing urbanization and the growth of private car commuting coupled with an increase in road freight have placed excessive demands on many urban road systems Orbital motorways provide an effective solution by removing through traffic and releasing road space for local journeys This book reviews the strategies adopted to address these issues by a variety of authorities in the UK France the USA and South Africa

**Road & Transport Research ,1999** **The British National Bibliography** Arthur James Wells,1996

**Road Charging in the 90s** Beryl Blair,1994 The increase in traffic congestion in the last 40 years in the UK and overseas has been phenomenal Faced with this problem governments need to find a way to restrict road use to essential traffic and to raise money to finance new road building One option adopted by many countries with varying degrees of success is the use of toll roads or more complex methods of road charging This book provides an overview of charging policies and legislation looking at all the options available and assessing the likely effects on both domestic and commercial traffic Following an overview of the subject this guide is divided into two sections the legislation and policy behind road charging with chapters focusing on the UK and Europe and on London as a special case and recent practice with chapters on road charging models and technologies and on case studies from the UK Europe Australia the Far East US and Canada Each chapter provides both a brief review of the subject and a list of key references for further reading

The guide also contains detailed indexes

**Proceedings of the Ninth International Dakhleh Oasis Project Conference** Colin A. Hope,Gillian E. Bowen,2020-01-19 This new volume in the Oasis Papers series marks the 40th anniversary of archaeological fieldwork in the Dakhleh Oasis in Egypt s Western Desert under the leadership of Anthony J Mills and presents a synthesis of the current state of our knowledge of the oasis and its interconnections with surrounding regions especially the Nile Valley

The papers are by distinguished authorities in the field and postgraduate students who specialise in different aspects of Dakhleh and presents an almost complete survey of the archaeology of Dakhleh including much unpublished original material It will be one of the few to document a specific part of modern Egypt in such detail and thus should have a broad and lasting appeal The content of some of the papers is unlikely to be published in any other form elsewhere Dakhleh is possibly the most intensively examined wider geographic region within Egypt

**Traffic Engineering & Control ,1995 A Method for Recognizing Fatigue Driving Based on Dempster-Shafer Theory and Fuzzy Neural Network** WenBo Zhu,

Huicheng Yang,Yi Jin,Bingyou Liu, This study proposes a method based on Dempster Shafer theory DST and fuzzy neural network FNN to improve the reliability of recognizing fatigue driving This method measures driving states using multifeature fusion First FNN is introduced to obtain the basic probability assignment BPA of each piece of evidence given the lack of a general solution to the definition of BPA function Second a modified algorithm that revises conflict evidence is proposed to reduce unreasonable fusion results when unreliable information exists
