Richard Blanchard,Lois Farrell,2023-07-28 The Horse in Human History Pita Kelekna,2009-04-20 This book assesses the impact of the horse on human society from 4000 BC to 2000 AD by first describing initial horse domestication on the Pontic Caspian steppes and the early development of driving and riding technologies It traces the radiation of newly mobile equestrian cultures across Europe Asia and North Africa It then documents the transmission of steppe chariotry and cavalry to sedentary states the high economic importance of the horse and the socio political evolution of equestrian empires which from antiquity into the modern era expanded across continents *The Complete Idiot's Guide to Horses* Sarah Montague,Phyllisjo Dempsey,2003 Presents a history of the horse through the ages describes different horse breeds and provides information on horse care fitness common ailments and grooming basics Bison and People on the North American Great Plains Geoff Cunfer,Bill Waiser,2016-10-04 The near disappearance of the American bison in the nineteenth century is commonly understood to be the result of over hunting capitalist greed and all but genocidal military policy This interpretation remains seductive because

of its simplicity there are villains and victims in this familiar cautionary tale of the American frontier But as this volume of groundbreaking scholarship shows the story of the bison s demise is actually quite nuanced *Bison and People on the North American Great Plains* brings together voices from several disciplines to offer new insights on the relationship between humans and animals that approached extinction The essays here transcend the border between the United States and Canada to provide a continental context Contributors include historians archaeologists anthropologists paleontologists and Native American perspectives This book explores the deep past and examines the latest knowledge on bison anatomy and physiology how bison responded to climate change especially drought and early bison hunters and pre contact trade It also focuses on the era of European contact in particular the arrival of the horse and some of the first known instances of over hunting By the nineteenth century bison reached a tipping point as a result of new tanning practices an early attempt at protective legislation and ventures to introducing cattle as a replacement stock The book concludes with a Lakota perspective featuring new ethnohistorical research *Bison and People on the North American Great Plains* is a major contribution to environmental history western history and the growing field of transnational history
