disciplinary contexts the contributors identify in their own empirical and theoretical research work examples of localised solutions to the problems of diversity for the practice of education These educational enactments illustrate the interactions of localised and global level discourses within contexts of educational policy and practice and allow an exploration of how abstract notions of education are applied through education as a practice and or subjective experience Mindful of the structural limitations imposed by the regime of globalisation the book explores the challenges and the agentive possibilities of working across cultural and material boundaries and provides multiple venues in which to transcend the limitations of addressing educational issues through a single lens Engaging with both the challenges and the complexities of intercultural conversations in relation to issues of diversity and difference the book s contributors recognise that their role as educators compels them to engage with the dilemmas as well as the productive possibilities of what it means to learn and to educate within such interesting times Cover image Kiss I Kiss at the Gate by Linda James 1991 Acrylic oil glue stick and layered canvas 1830 x 2075 Collection of the artist What Have I Done?
