Lara Douds examines the practical functioning and internal political culture of the early Soviet government cabinet the Council of People s Commissars Sovnarkom under Lenin This study elucidates the process by which Sovnarkom s governmental decision making authority was transferred to Communist Party bodies in the early years of Soviet power and traces the day to day operation of the supreme state organ The book argues that Sovnarkom was the principal executive body of the early Soviet government until the Politburo gradually usurped this role during the Civil War Using a range of archival source material Lara Douds re interprets early Soviet political history as a period where fledgling Soviet rather than simply Communist Party power was attempted but ultimately failed when pressures of Civil War and socio economic dislocation encouraged the centralising and authoritarian rather than democratic strand of Bolshevism to predominate Inside Lenin s Government explores the basic mechanics of governance by looking at the frequency of meetings types of business discussed processes of decision making and the administrative backdrop as well as the key personalities of Sovnarkom It then considers the reasons behind the shift in executive power from state to party in this period which resulted in an abnormal situation where as Leon Trotsky commented in 1923 leadership by the party gives way to administration by its organs **History of civilizations of Central Asia** Adle, Chahryar,Baipakov, Karl M.,Habib, Irfan,UNESCO,2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology Furthermore this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade Thus 1850 marks the end of the total sway of pre modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas **The Collected Works of L.S. Vygotsky** L.S. Vygotsky,1987 Vygotsky was a Russian psychologist and one of the most influential psychologists in the world during the 20th century This volume the first of six examines Vygotsky s works involving problems of general psychology including thinking and speech The Russian Tradition in Education Nicholas Hans,2012 This volume describes the Russian tradition in education and in particular the dominant role of Russian nationality The whole history of Russian education is covered from Peter the Great to Khrushchev
