Social Consequences Of Internet Use Access Involvement And Interaction:

Social Consequences of Internet Use James E. Katz, Ronald E. Rice, 2002-08-30 A study of the impact of Internet use on American society based on a series of nationally representative surveys conducted from 1995 to 2000 Drawing on nationally representative telephone surveys conducted from 1995 to 2000 James Katz and Ronald Rice offer a rich and nuanced picture of Internet use in America Using quantitative data as well as case studies of Web sites they explore the impact of the Internet on society from three perspectives access to Internet technology the digital divide involvement with groups and communities through the Internet social capital and use of the Internet for social interaction and expression identity To provide a more comprehensive account of Internet use the authors draw comparisons across media and include Internet nonusers and former users in their research The authors call their research the Syntopia Project to convey the Internet's role as one among a host of communication technologies as well as the synergy between people's online activities and their real world lives Their major finding is that Americans use the Internet as an extension and enhancement of their daily routines Contrary to media sensationalism the Internet is neither a utopia liberating people to form a global egalitarian community nor a dystopia producing armies of disembodied lonely individuals Like any form of communication it is as helpful or harmful as those who use it

Online Social Networking on Campus Ana M. Martínez-Alemán, Katherine Lynk Wartman, 2008-02 In the era of such online spaces as Facebook Instant Messenger Live Journal Blogger Web Shots and campus blogs college students are using these resources and other online sites as a social medium Inevitably this medium presents students with ethical decisions about social propriety self disclosure and acceptable behaviour Because online social networking sites have proven problematic for college students and for college administrators this book aims to offer professional guidance to Higher Education administrators and policy makers Online Social Networking on Campus Understanding what matters in student culture is a professional guide for Higher Education faculty and Student Affairs administrators which rigorously examines college students use of online social networking sites and how they use these to develop relationships both on and off campus Most importantly Online Social Networking on Campus investigates how college students use online sites to explore and makes sense of their identities Providing information taken from interviews surveys and focus group data the book presents an ethnographic view of social networking that will help Student Affairs administrators Information Technology administrators and faculty better understand and provide guidance to the neomillennials on their campuses

Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for

the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy

Digital Inclusion, Teens, and Your Library Lesley S. J. Farmer, 2005-03-30 The digital divide is a disturbing reality and teens in our society increasingly fall into distinct categories of technology haves and have nots whether or not computers are available to them in the schools This trend undermines the futures of our youth and jeopardizes the vitality of our society Today s librarians are in a unique position to help bridge the gap This guide helps librarians to identify tech nots technologically disadvantaged teens in a community or school and to reach out and build information literacy in underserved teen populations Farmer goes beyond recommending computers for every teen and demonstrates how to overcome teen misperceptions and disinterest in computers After examining the problem and the populations most affected the author discusses how to build awareness and motivation train staff create space and time build the collection develop partnerships with other agencies and organizations offer services and overcome barriers with specific populations Citing benchmark programs and services from around the country Farmer offers a wealth of exciting new ways for libraries to connect with at risk teens today Grades 6 12

The Couple and Family Technology Framework Katherine M. Hertlein, Markie L. C. Blumer, 2013-07-18 Couples and families worldwide have a constant electronic connection to others a fact that is influencing the concerns and issues they bring to therapy The authors of this resource help mental health practitioners to better deal with concerns such as online infidelity online dating internet addictions cyber bullying and many more by introducing the Couple and Family Technology CFT framework a multi theoretical approach that doesn t require clinicians to change their preferred clinical approach The CFT framework acknowledges the ways in which couples navigate their relationship with technology and a partner simultaneously and it attends to and in some cases incorporates the role of technology in therapeutic ways Included in the authors discussion of how different technologies affect relationships is a survey of what individuals motivations of usage are an examination of the specific issues that emerge in treatment a study of the risks particularly relevant to intimate relationships and an introduction of the first ever technology based genogram They also examine technological usage across different developmental points in a couple s lifespan with attention given throughout to people from various cultural backgrounds

Along with the CFT framework the authors also introduce a new discipline of family research Couple and Family Technology This discipline integrates three broad perspectives in family science and helps therapists maintain a systemic focus in assessing and treating couples where issues of the Internet and new media are problematic Online resources can be accessed by purchasers of the book and include videos additional case studies glossary and forms Digital Media and Political Engagement Worldwide Eva Anduiza Perea, Michael James Jensen, Laia Jorba, 2012-06-29 This book explores how digital media use affects political attitudes and behavior and how this relationship is shaped by political environments across countries While research in this area has concentrated on the United States and United Kingdom such results are set in comparative relief through the analysis of cases across Europe Latin America the Middle East and Asia The book concludes that digital media have an effect on users and depicts some of the characteristics of different political systems that play a significant role for online political engagement Connected in Isolation Eszter Hargittai, 2022-11-08 What life during lockdown reveals about digital inequality The vast majority of people in wealthy highly connected or digitally privileged societies may have crossed the digital divide but being online does not mean that everyone is equally connected and digital inequality reflects experience both online and off In Connected in Isolation Eszter Hargittai looks at how this digital disparity played out during the unprecedented isolation imposed in the early days of the coronavirus pandemic During initial COVID 19 lockdowns the Internet for many became a lifeline as everything from family get togethers to doctor s visits moved online Using survey data collected in April and May of 2020 in the United States Italy and Switzerland Hargittai explores how people from varied backgrounds and differing skill levels were able to take advantage of digital media to find the crucial information they needed to help loved ones procure necessities understand rules and risks Her study reveals the extent to which long standing social and digital inequalities played a critical role in this move toward computer mediated communication and were often exacerbated in the process However Hargittai notes context matters her findings reveal that some populations traditionally disadvantaged with technology such as older people actually did better than others in part because of the continuing importance of traditional media television in particular The pandemic has permanently shifted how reliant we are upon online information and the implications of Hargittai s groundbreaking comparative research go far beyond the pandemic Connected in Isolation informs and expands our understanding of digital media including how they might mitigate or worsen existing social disparities whom they empower or disenfranchise and how we can identify and expand the skills people bring to them *Handbook of Digital Inequality* Hargittai, Eszter, 2021-11-19 This cutting edge Handbook offers fresh perspectives on the key topics related to the unequal use of digital technologies Considering the ways in which technologies are employed variations in conditions under which people use digital media and differences in their digital skills it unpacks the implications of digital inequality on life outcomes **Brave New Neighborhoods** Margaret Kohn, 2004-07-19 Fighting for First Amendment rights is as popular a pastime as ever but just because you can get on your

soapbox doesn't mean anyone will be there to listen Town squares have emptied out as shoppers decamp for the megamalls gated communities keep pesky signature gathering activists away even most internet chatrooms are run by the major media companies Brave New Neighborhoods considers what can be done to protect and revitalize our public spaces
