Intellectuals - and Politics ,1967 **The British National Bibliography** Arthur James Wells,1968 Intellectuals and Politics (Routledge Revivals) Robert Brym,2010-07-02 This essay first published in 1980 analyses the relationship between intellectuals social locations and their political orientations Dr Brym provides a critical discussion of the various sociological views of intellectuals and specifies some of the social conditions which encourage intellectuals to follow various directions on the political compass He also demonstrates that intellectuals are neither socially rootless nor tied to one particular class or group within society concluding that it is only by an analysis of intellectuals mobility patterns that we can hope to arrive at an adequate understanding of their politics Clearly written and assuming only a basic grounding in sociological theory this book will thus be of special interest to students of political sociology social movements the sociology of knowledge the sociology of culture and the sociology of intellectuals **Library of Congress Catalogs** Library of Congress,1978 *Theories of Modern Capitalism (Routledge Revivals)* Tom Bottomore,2010-01-22 First published in 1985 Theories of Modern Capitalism provides a succinct study of Marxist and non Marxist theories of Capitalism its recent development and the prospects of a transition to socialism The study begins with a critical examination and comparison of four major theories of capitalism in the works of Marx Weber Schumpeter and Hayek This is followed by an analysis of the most recent phase of capitalism which has been conceptualised by Marxists thinkers in various ways as organised capitalism state monopoly or late capitalism Finally Bottomore considers the question of a transition to socialism in the diverse interpretations which have been offered by Marxists on one side and by Weber Schumpeter and Hayek on the other Theories of Modern Capitalism will be valuable in a wide range of courses in social and political theory and will also have an appeal to a broader readership concerned with issues of social and economic policy Subject Catalog Library of Congress,1976 Subject Catalog, 1976 Library of Congress,1976 Bibliographic Guide to Psychology New York Public Library. Research Libraries,1980 *Subject Catalog, 1977* Library of Congress,1977 Social Evolution and Sociological Categories (Routledge Revivals) Paul Q. Hirst,2010-01-21 First published in 1976 this book is concerned with the nature of classification in the social sciences Its thesis is that classifications are dependent upon and are derived from theoretical explanations Classification is not a theoretically neutral typification or ordering of social forms This is because objects classified societies social institutions are not given to knowledge independently of the categories which construct them and because the categories of classification are themselves the products of theories List of Titles Added to the Catalogue University of London. (RLE Social Theory) Derek Layder, 2014-08-21 A central problem in contemporary social theory is that of providing an
 account of social interaction that does justice both to the self monitoring capacities of the individuals involved and to the
 society that frames the interaction This book attempts to resolve this problem arguing for an objectivist or structuralist
 account which does not undervalue the importance of the indexical and negotiated aspects of interaction and which takes
 seriously the Marxist rationalist critique of empiricism and humanism and the associated idea that society should be treated
 as a supra individual preconstituted and constraining object of scientific analysis First Dr Layder pinpoints certain of the
 strengths and weaknesses of various schools of thought social psychology scrutinized in both its sociological and
 psychological forms sociology the Marxist rationalist approach Whilst rejecting the mechanistic or naively deterministic
 theories which are often associated with an objectivist stance he argues that the productive activities of situated actors must
 be understood as existing in an articulated relationship with and within sets of preconstituted contextual constraints This
 thesis is illustrated conceptually by the development of a framework which distinguishes two types and levels of social
 structure with different modes of production and reproduction and empirically by an analysis of aspects of interaction in the
 occupation of acting **The Cumulative Book Index** ,1977 A world list of books in the English language *American*
