Citizenship Education and Migrant Youth in China Miao Li, 2015-04-24 In East Asian economies such as China recent mass rural urban migration has created a new urban underclass as have their children However their inclusion in urban public schools is a surprisingly slow process and youth identities in newly industrialized countries remain largely neglected Faced with monetary and institutional barriers the majority of migrant youth attend low quality or underperforming migrant schools without access to the free compulsory education enjoyed by their urban counterparts As a result China's citizen building scheme and the sustainability of its labor intensive economy have greatly impacted global economic restructuring Using thorough ethnographic research this volume examines the consequences of urban schooling and citizenship education through which school and social processes contribute to the production of unequal class relations It explores the nexus of citizenship education and identity forming practices of poor migrant youth in an attempt to foresee the new class formation in Chinese society This volume opens up the black box of citizenship education in China and examines the effect of school and societal forces on social mobility and life trajectories

Social Stratification and Inequality Harold R. Kerbo, 2002-07 *A Book about Books* E.H. Bernstein, 2018-11-26 *A Book about Books* discusses what nonfiction books and subjects the author believes are important to know about This book is volume I of III Only the first volume is available at this time The second volume is forthcoming and will be available in 2020 E H Bernstein is a former librarian turned author The subtitle of the book describes the author's objective A handbook in 3 parts to a choice of essential books writers and subjects in order to understand the world we live in about big questions and possible answers about books and writers that may improve people's lives about neglected writers and other books and subjects *A Book about Books* attempts to share what the author has learned from nearly 50 years of nonfiction reading and to provide the reader with samples of the most important authors and subjects from that reading While the book is based on research it is intended to be a handbook or guide by trying to make that research understandable to the general reader and to students and for teachers by pointing to what the author believes is missing from today's education Note about how the volumes are related each chapter is on a separate subject So the chapters can be read individually but the full message requires reading all the volumes Volume I is important but preliminary to the more important Volumes II and III A future website bookaboutbooks.com is planned for later in 2019 and will include additional material not in the books Note also that the book is not just about books since other sources are also mentioned This book tries to point to problems in how we live and to see if books have any answers A contemporary writer once said that one of the purposes of writing is that books should be useful I hope that my book will be of use

World History Eric Vanhaute, 2013-07-24 *World History An Introduction* provides readers with the knowledge and tools necessary to understand the global historical perspective and how it can be used to shed light on both

our past and our present A concise and original guide to the concepts methods debates and contents of world history it combines a thematic approach with a clear and ambitious focus Each chapter traces connections with the past and the present to explore major questions in world history How did humans evolve from an endangered species to the most successful of them all How has nature shaped human history How did agricultural societies push human history in a new direction How has humankind organized itself in ever more complex administrative systems How have we developed new religious and cultural patterns How have the paths of The West and The Rest diverged over the last five centuries How at the same time has the world become more interconnected and globalized How is this world characterized by growing gaps in wealth poverty and inequality Sharp and accessible Eric Vanhaute s introduction to this exciting field demonstrates that world history is more of a perspective than a single all encompassing narrative an instructive new way of seeing thinking and doing It is an essential resource for students of history in a global context

The Racial Glass Ceiling Roy L.

Brooks,2017-05-30 A compelling study of a subtle and insidious form of racial inequality in American law and culture Why does racial equality continue to elude African Americans even after the election of a black president Liberals blame white racism while conservatives blame black behavior Both define the race problem in socioeconomic terms mainly citing jobs education and policing Roy Brooks a distinguished legal scholar argues that the reality is more complex He defines the race problem African Americans face today as a three headed hydra involving socioeconomic judicial and cultural conditions Focusing on law and culture Brooks defines the problem largely as racial subordination the act of impeding racial progress in pursuit of nonracist interests Racial subordination is little understood and underacknowledged yet it produces devastating and even deadly racial consequences that affect both poor and socioeconomically successful African Americans Brooks addresses a serious problem in many ways more dangerous than overt racism and offers a well reasoned solution that draws upon the strongest virtues America has exhibited to the world

Language and Social Structure in Urban France David Hornsby,2017-07-05 The coming together of linguistics and sociology in the 1960 s most notably via the work of William Labov marked a revolution in the study of language and provided a paradigm for the understanding of variation and change Labovian quantitative methods have been employed successfully in North America the UK Scandinavia and New Zealand but have had surprisingly little resonance in France a country which poses many challenges to orthodox sociolinguistic thinking Why for example does a nation with unexceptional scores on income distribution and social mobility show an exceptionally high degree of linguistic levelling that is the elimination of marked regional or local speech forms And why does French appear to abound in hyperstyle variables which show greater variation on the stylistic than on the social dimension in defiance of a well established theory than such variables should not occur This volume brings together leading variationist sociolinguists and sociologists from both sides of the Channel to ask what makes France exceptional In addressing this question variationists have been forced to reassess the accepted interdisciplinary consensus and to ask as sociolinguistics

has come of age whether concepts and definitions have been transposed in a way which meaningfully preserves their original sense and crucially takes account of recent developments in sociology Sociologists for their part have focused on the largely neglected area of language variation and its implications for social theory Their findings therefore transcend the case study of a particularly enigmatic country to raise important theoretical questions for both disciplines
