Social Construction Of Europe:

The Social Construction of Europe Thomas Christiansen, Knud Erik Jørgensen, Antje Wiener, 2001-06-01 This book is the first to systematically introduce and apply a social constructivist perspective to the study of European integration Social constructivism is carefully located in terms of its philosophical and methodological origins The wider debates and contribution of constructivist approaches to international relations are reviewed and the insights that might then be afforded to European studies fully explored Highlights include new theoretical contributions to the debate by Ernst B Haas Andrew Moravcsik and Steve Smith research on key aspects of European integration and EU governance applying a variety of constructivist approaches The Social Construction of Europe provides new and important in The Social Construction of Europe Jeremy John Richardson, 1999 The Social Construction of Corruption in Europe Dirk Tänzler, Konstadinos Maras, 2016-02-24 The volume demonstrates the suitability of the theory of social constructivism in portraying and analyzing the diversity of the phenomenon of corruption The approach of social constructivism taken in this volume is able to reconstruct the construction of corruption both from a societal perspective by assessing it as generally accepted or tolerated behaviour in more or less standardized rule governed social situations and from the perspective of actors who perceive corrupt behaviour as problem solving in everyday life The volume proves the usefulness of a social construction perspective for empirical research It contains case studies of social definitions of corruption in eleven European countries that contribute in different ways to establishing a grounded theory of the phenomenon of corruption *Rethinking Europe* Gerard Delanty, Chris Rumford, 2005 The book examines major social transformations in Europe from the perspective of social theory It offers an intriguing alternative to studies of the EU which emphasise the replacement of the nation state by a supra national authority Constitutionalising Europe Michael Longo, 2017-03-02 The European Union is in a state of transformation with its constitutional future the subject of much heated debate This book provides a durable authoritative and comprehensive account of constitutional development examining the pivotal roles of law and judicial politics in establishing the EU constitutional edifice Michael Longo demonstrates and substantiates the arguments for and against constitutionalization through the development of a theoretical framework drawing on theories and empirical research in both law and political science to understand this new process of European integration **The social construction of Swedish neutrality** Christine Agius, 2013-07-19 The end of the Cold War and the War on Terror has signalled a shift in the security policies of all states It has also led to the reconsideration of the policy of neutrality and what being neutral means in the present age This book examines the conceptualisation of neutrality from the Peloponnesian War to today uncovering how neutrality has been a neglected and misunderstood subject in International Relations IR theory and politics By rethinking neutrality through constructivism this book argues that neutrality is intrinsically linked to identity Using Sweden as a case study it links identity sovereignty internationalism and solidarity to the debates about Swedish neutrality today and how

neutrality has been central to Swedish identity and its worldview It also examines the challenges to Swedish neutrality and neutrality broadly in terms of European integration globalisation the decline of the state and sovereignty and new threats to security such as international terrorism arguing that the norms and values of neutrality can be reworked to contribute to a more cosmopolitan international order EU enlargement, the clash of capitalisms and the European social dimension Paul Copeland,2015-11-01 At the heart of the European integration process is the political economy debate over whether the EU should be a market making project or if it should combine this with integration in employment and social policy What has been the impact of the 2004 and 2007 rounds of enlargement upon the political economy of European integration EU enlargement the clash of capitalisms and the European social dimension analyses the impact of the 2004 and 2007 enlargements upon the politics of European integration within EU employment and social policy This book analyses the main policy negotiations in the field and analyses the political positions and contributions of the Central and Eastern European Member States Through analyses of the negotiations of the Services Directive the revision of the Working Time Directive and the Europe 2020 poverty target the book argues that the addition of the Central and Eastern European states has strengthened liberal forces at the EU level and undermined integration with EU employment and social policy

Supranational Citizenship and the Challenge of Diversity Francesca Strumia,2013-09-05 In Supranational Citizenship and the Challenge of Diversity Francesca Strumia explores the potential of European citizenship as a legal construct and as a marker of group boundaries for filtering internal and external diversities in the European Union Adopting comparative federalism methodology and drawing on insights from the international relations literature on the diffusion of norms the author questions the impact of European citizenship on insider outsider divides in the EU as experienced by immigrants set by member states and perceived by native citizens The book proposes a novel argument about supranational citizenship as mutual recognition of belonging This argument has important implications for the constitution of insider outsider divides and for the reconciliation of multiple levels of diversity in the EU *The Social Construction of Man, the State and War* Franke

Wilmer,2004-04-16 Combining detailed analysis with a close reading of historical narratives documentary evidence and first hand interviews this is the first book on conflict to look seriously at the issue of ethnic identity and what it means for future peace *Integrating UK and European Social Policy* Robert Geyer,Andrew Mackintosh,Kai Lehmann,2005 Does the European Union really matter to British policy For some it is a leading light for others an irrelevancy Given the uneven and evolving nature of EU policy how can we evaluate its overall impact This book is the first to combine a clear and detailed introduction to the new science of complexity and its application to social policy Europeanisation globalisation and the EU UK relationship It includes a detailed review of four key policy areas employment labour gender and monetary relations *Integrating UK and European Social Policy* provides groundbreaking reading for undergraduate and postgraduate students of politics history international relations economics social policy and applied social science It is also useful for academics with

an interest in European social policy and policy makers and shapers including government and non government organisations
