Socialist Cultures East And West A Post Cold War Reassessment:

Socialist Cultures East and West Dubravka Juraga, M. Keith Booker, 2002-06-30 Decades of Western Cold War propaganda were designed to depict socialism as inimical to genuine aesthetic achievement. Now in the wake of the Cold War it is becoming possible to reassess the past and present cultural productions of artists with socialist inclinations. The essays in this volume begin such a reassessment, finding that socialist cultural production in the 20th century both as the official culture of the socialist East and as an oppositional culture in the capitalist West has been rich and varied. The volume focuses on socialist culture in the industrialized world, primarily Eastern Europe and the West. An introductory essay overviews socialist cultural productions of the 20th century, while the chapters that follow address a wide range of topics. These include Soviet socialist realist fiction and film, musicals, the socialist drama of Bertolt Brecht, and British and American leftist fiction. The volume demonstrates that propagandistic Cold War depictions of socialism as a threat to artistic expression were inaccurate and misleading.

The Palgrave Handbook of Cold War Literature Andrew Hammond, 2020-09-04 This book offers a comprehensive guide to global literary engagement with the Cold War. Eschewing the common focus on national cultures, the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders. Drawing on specialists from across the world, the volume analyses the period's fiction, poetry, drama, and autobiographical writings in three sections: dominant concerns (socialism, decolonisation, nuclearism, propaganda, censorship, espionage, common genres, postmodernism, socialism, realism, dystopianism, migrant poetry, science fiction, testimonial writing) and regional cultures (Asia, Africa, Oceania, Europe, and the Americas). In doing so, the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945-1989 period, including specialists in comparative literature, postcolonial literature, contemporary literature, and regional literature.

Cold War Literature Andrew Hammond, 2006-11-22 This collection of essays analyzes the literary response to the coups, insurgencies, and invasions that took place around the globe during the Cold War and explores the thematic and stylistic trends in world writing prompted by Cold War hostilities.

The East-West Discourse Alexander Maxwell, 2011 This volume examines East-West rhetoric in several different historical contexts, seeking to problematise its implicit assumptions and analyse its consequences.

Worlds Apart? A Postcolonial Reading of post-1945 East-Central European Culture Cristina Sandru, 2013-01-16 This study explores the relation of the Eastern European problematic to postcolonial critical practice, interrogating the extent to which postcolonialism can help illuminate instances of imperial domination in non-Third World contexts. It argues that colonisation is to be understood principally as a condition of ideological domination that has engendered similar forms of literary and cultural resistance; consequently, it offers a comparative framework which enables a reading in differential contexts of texts that ostensibly have little in common but which on close examination reveal a shared imaginative space, rhetoric, and narrative agency. The book

consists of two interrelated parts Part one is a critical discussion of the ideologies cultural imaginaries and representational practices articulated in a diverse range of representative postcolonial and post 1945 East Central European texts these are shown to share despite dissimilar conditions of production uncannily related narrative modes and thematic emphases Part two is a comparative literature case study which discusses two authors whose work is both highly representative of the cultural formations discussed in the first part Milan Kundera and Salman Rushdie and at the same time highly controversial The chapters dedicated to Kundera s and Rushdie s work examine the cultural geography of their novels particularly in the writers use of memory and story telling to reconfigure history and personal identity in conditions of literal and metaphorical displacement While their novels thrive on ironic subversion and ambiguity they simultaneously gesture towards a redemptive space of the imagination transcending the constraints of both locality and history

Global Cold War Literature Andrew Hammond, 2011-12-21 In countries worldwide the Cold War dominated politics society and culture during the second half of the twentieth century Global Cold War Literatures offers a unique look at the multiple ways in which writers from Asia Africa Europe and North and South America addressed the military conflicts revolutions propaganda wars and ideological debates of the era While including essays on western European and North American literature the volume views First World writing not as central to the period but as part of an international discussion of Cold War realities in which the most interesting contributions often came from marginal or subordinate cultures To this end there is an emphasis on the literatures of the Second and Third Worlds including essays on Latin American poetry Soviet travel writing Chinese autobiography African theatre North Korean literature Cuban and eastern European fiction and Middle Eastern fiction and poetry With the post Cold War era still in a condition of emergence it is essential that we look back to the 1945-89 period to understand the political and cultural forces that shaped the modern world The volume s analysis of those forces and its focus on many of the hot spots Afghanistan Iran North Korea that define the contemporary war on terror make this an essential resource for those working in Postcolonial American and English Literatures as well as in History Comparative Literature European Studies and Cultural Studies Global Cold War Literatures is a suitable companion volume to Hammond s Cold War Literature Writing the Global Conflict also available from Routledge

Dorothee Birke, Stella Butter, 2013-08-01 Realism is a pervasive term in discussions of contemporary developments in the cultural sphere By drawing on different theories of realism the authors explore how the term may be used as a helpful concept in order to analyse and evaluate current trends in cultural production and in turn how cultural production changes our understanding of what counts as realism The contributions deal with realism in narrative fiction drama and audiovisual media film television news within the context of national traditions examples drawn on in the case studies range from Africa Britain Germany Iceland Russia Turkey to the United States While the authors take their cues from media specific realisms focusing especially on narrative fiction the volume also highlights continuities and intersections between notions of realism in different genres and media With its original essays this collection invigorates the transdisciplinary engagement with forms and socio political functions of realism in contemporary culture Soviet Socialist Realism and Art in the Asia-Pacific Alison Carroll, 2024-10-08 This study evaluates how the ideology of Socialist Realism developed by the Soviets in policies and the practices of art has been influential in the Asia Pacific region from 1917 until today Focusing primarily on Russia then China Vietnam Korea Singapore Indonesia the Philippines and Australia this book demonstrates how each society adopted and adapted the Soviet example to make some of the most important imagery of recent history Included is an examination of how the practice of Western art history the nature of art history in Asia and the forces of the Cold War have led to this influence being inadequately acknowledged across Asia and more widely The book will be relevant to those interested in art history Asian studies political history and cultural history **Reconsidering (Post-)Yugoslav Time** , 2021-12-06 In this collection of essays authors propose a temporal shift in post Yugoslav studies By taking into account select examples from literature art and culture the volume questions a possibility of explaining the temporal structure underlying the theoretical and analytical concepts employed in understanding post Yugoslav literature's and culture's Analyses undertaken in the essays showcase that the post Yugoslav literary artistic and cultural practices do not only attempt to portray the demise of the state and the succeeding war between its former republics Instead the authors underscore that the critical post Yugoslav studies task is to

evince and critically reflect on and engage with the processes before and after the dissolution to capture the collapse itself

Urban Phantasmagorias Iulia Stătică, 2023-11-30 *Urban Phantasmagorias* examines the legacies of socialist housing in the city of Bucharest during the period of communist rule in Romania. The book explores the manner in which the socialist state reconfigured the city through concrete acts of demolition and construction as well as indirectly through legal frameworks aimed at the regulation of women's reproductive agency in an attempt to materialize its idea of modernity. It follows the effects of this state agenda with a focus on the period between 1965 and 1989 through an investigation of the transformations, representations, meanings and uses of domestic spaces. The book draws on Walter Benjamin's concept of phantasmagoria which provides a critical framework through which it articulates the dynamic relationship between ideology, architecture and everyday practices and reassesses their impact upon individual subjectivity and agency. The woman emerges as a central subject of the book upon whom the phantasmagoric effects of the socialist state's modernizing agenda have an acute impact at the level of lived domesticity and everyday life. Through a focus on the lived experiences of women, the book illuminates the prismatic effect of the state's infrastructural and legal intentions, including the ways in which these were subverted through women's lived bodily experiences of the home. The book establishes both theoretically and through the concrete case of the city of Bucharest, the methodological significance of Benjamin's notion of phantasmagoria as an epistemological approach to a modern communist cityscape. *Urban Phantasmagorias* is an important contribution to scholarship in architectural history and theory, urban and gender studies and post-socialist and Eastern European studies.

British Fiction and the Cold War A. Hammond, 2013-09-19 This book offers a unique analysis of the wide-ranging responses of British novelists to the East-West conflict. Of Treason, God and Testicles Kathleen Starck, 2016-05-11 Gender in general and masculinity in particular might not be the first associations the mind produces when presented with the subject matter of the Cold War More likely contenders would be the arms race or the ideological dichotomy of Communism versus Capitalism However recent research has established beyond a doubt that the politics and diplomacy of the superpower conflict were not only strongly influenced by beliefs about gender but simultaneously also generated them In fact in a social climate where gender conformity was considered as crucial as ideological conformity the conflict gave rise to what might be called distinctive Cold War masculinities At the same time the socio historical context of the Cold War markedly shaped the cinemas of one of the main Cold War players the United States and of its close ally Great Britain Both film industries produced films overtly or covertly depicting the Cold War characterised by propaganda coercion and resistance to varying degrees Integrating these findings from the fields of masculinity studies and cultural Cold War studies this book analyses in what shape the interplay between widespread political and ideological Cold War convictions and Cold War notions of masculinity found its way onto British and American cinema screens of the early Cold War
