The Call Of The Wild Barnes Noble Classics:

Teaching Through the Ill Body Marla Morris, 2008-01-01 This book raises questions around pedagogy and illness Morris explores two large issues that run through the text What does the ill body teach What does the teacher do through the ill body The body has something to teach while teaching through the ill body This book is theoretically framed by connections between spirituality and aesthetics As the great spiritual traditions teach our responsibility as teachers is to help others especially those who are marginalized What is lacking in our educational discourse is a discussion of the responsibility we all have to help those who get sick and not marginalize them More specifically pedagogical and curricular questions are fleshed out through working in the area of curriculum studies depth psychology and the medical humanities These three disciplines have something in common autobiography But in the field of curriculum studies autobiographies pathographies of sickness are few and far between This book is meant to fill that gap in the educational literature This pathography is a study that explores the mysteries of suffering storytelling memory and poesis Compassion woundedness vulnerability testimony and authenticity are all issues Morris raises here Teachers scholars depth psychologists and medical educators might be particularly interested in this intensely felt narrative about what it is like for teachers to teach while suffering from chronic illness The New Yorker ,2005 **My Antonia** Willa Cather, 2003 After the death of her immigrant father Antonia works as a servant for neighbors in the farmlands of Nebraska She leaves for an unfortunate affair with an Irish railway conductor but returns home eventually marries and raises a large family in true pioneer style Journey to the Center of the Earth Jules Verne, 2005 Professor Hardwigg his nephew Harry and their guide Hans explore a volcanic crater in Iceland that leads them to the center of the Earth and to incredible and horrifying discoveries **A Reenchanted World** James William Gibson, 2009-04-14 A surprising and enlightening investigation of how modern society is making nature sacred once again For more than two centuries Western cultures as they became ever more industrialized increasingly regarded the natural world as little more than a collection of useful raw resources The folklore of powerful forest spirits and mountain demons was displaced by the practicalities of logging and strip mining the traditional rituals of hunting ceremonies gave way to the indiscriminate butchering of animals for meat markets In the famous lament of Max Weber our surroundings became disenchanted with nature's magic swept away by secularization and rationalization But now as acclaimed sociologist James William Gibson reveals in this insightful study the culture of enchantment is making an astonishing comeback From Greenpeace eco warriors to evangelical Christians preaching creation care and geneticists who speak of human animal kinship Gibson finds a remarkably broad yearning for a spiritual reconnection to nature As we grapple with increasingly dire environmental disasters he points to this cultural shift as the last utopian dream the final hope for protecting the world that all of us must live in A Wild and Sacred Call Will W. Adams, 2023-02-01 Our current ecological derangement is not only a biological crisis but more deeply a crisis of consciousness culture and relationship The core ethical responsibility of our

contemporary era therefore and the aspiration of this ecopsychological ecospiritual book is to create a mutually enhancing relationship between humankind and the rest of nature To address the urgent concerns of global warming mass extinction toxic environments and our loss of conscious contact with the natural world psychologist Will W Adams weaves together insights from Zen Buddhism Christian mysticism phenomenology psychoanalysis and the practice of psychotherapy Through a transpersonal nondual contemplative approach Adams explores the fundamental malady of supposed separation or dissociation mind over body self over others my tribe over others humans over the rest of nature Instead of merely discussing these crucial issues in abstract terms the book presents healing alternatives through storytelling poetry and theoretical inquiry Written in an engaging down to earth manner grounded in vivid descriptions of actual lived experience *A Wild and Sacred Call* speaks across disciplines to students experts and nonspecialists alike *The Legend of Sleepy Hollow and Other Writings* Washington. Irving, 2006-02 This volume showcases Irving's best work across a variety of genres including whimsical newspaper articles about New York society the theater and contemporary fashions charming travel pieces that evocatively weave together history and legend humorous stories and satirical essays from *The Sketch Book* and its sequel *Bracebridge Hall* and excerpts from *A History of New York* considered the first great American book of comic literature From publisher *The Pilgrim's Progress* John Bunyan, 2005 An allegorical account of Christian's journeys toward the Celestial City from the City of Destruction *The Secret Agent* Joseph Conrad, 2007-03 Set in early twentieth century London and inspired by an actual attempt to blow up the Greenwich Observatory *The Secret Agent* is a complex exploration of motivation and morality The title character Adolf Verloc is obviously no James Bond In fact he and his circle of misfit saboteurs are not spies but terrorists driven less by political ideals than by their unruly emotions and irrational hatreds Verloc has settled into an apparent marriage of convenience Family life gives him a respectable cover while his wife hopes to get help in handling her halfwit brother Stevie Instead Verloc involves Stevie in one of his explosive schemes an act that leads to violence murder and revenge Darkly comic the novel is also obliquely autobiographical Joseph Conrad's parents were involved in the radical politics of their time and their early deaths left him profoundly distrustful of any sort of political action Steven Marcus is Professor of English and Comparative Literature and George Delacorte Professor in the Humanities at Columbia University and a specialist in nineteenth century literature and culture He is the author of more than 200 publications *The Age of Innocence* Edith Wharton, 2004 Winner of the 1921 Pulitzer Prize *The Age of Innocence* is Edith Wharton's masterful portrait of desire and betrayal during the sumptuous Golden Age of Old New York a time when society people dreaded scandal more than disease This is Newland Archer's world as he prepares to marry the beautiful but conventional May Welland But when the mysterious Countess Ellen Olenska returns to New York after a disastrous marriage Archer falls deeply in love with her Torn between duty and passion Archer struggles to make a decision that will either courageously define his life or mercilessly destroy it
