The Captain Of Industry In English Fiction 1821 1871:

The Captain of Industry in English Fiction, 1821-1871 Ivan Melada, 1970 **The Hell of the English** Barbara Weiss, 1986 This book identifies and traces bankruptcy as an archetypal experience of the Victorian age and as a major metaphor in the language imagery and structure of the Victorian novel With reference to selected works by Eliot Bronte Gaskell Dickens and Thackeray it presents the range of symbolic meanings of the bankruptcy metaphor **The Politics of Story in Victorian Social Fiction** Rosemarie Bodenheimer, 2019-01-24 The most telling expression of the politics of a novel Rosemarie Bodenheimer asserts lies not in its proclaimed social intent its continuity with nonfictional discourse or its truth to class experience but in the models of social movement and transformation traced out in the thread of its narrative The Politics of Story in Victorian Social Fiction explores the story patterns and other narrative conventions through which the industrial or social problem novel gives fictional shape to questions that were experienced as new unpredictable and troubling in the Victorian age Bodenheimer considers novels explicitly linked with the condition of England debates that preoccupied public minded Victorians narratives that confront such topics as the factory system industrial and rural poverty working class politics and the plight of women Grouping well known novels with less frequently read works according to shared narrative patterns Bodenheimer delineates lines of influence argument and development within the subgenre of social fiction Among the works she discusses are Charlotte Bronte s Shirley Elizabeth Gaskell s North and South two novels by Frances Trollope Geraldine Jewsbury s Marian Withers George Eliot s Felix Holt the Radical Charles Dickens s Oliver Twist and Benjamin Disraeli s Sybil **John Halifax, Gentleman** Dinah Mulock Craik, 2005-10-26 This 1856 novel one of the most beloved of the Victorian period follows the life from childhood to death of an orphaned boy who grows to become a wealthy and powerful leader in his community The young John Halifax is taken in by Abel Fletcher a Quaker tanner and forms a close friendship with Fletcher s son Phineas Through hard work and integrity John overcomes obstacles to find domestic happiness and material success His achievements symbolize those of England in the early nineteenth century and this novel captures the ambition and ebullient optimism of the growing Victorian middle class This Broadview edition includes a critical introduction and full annotation the idea of the gentleman in Victorian culture labour unrest in the early nineteenth century and women s roles in Victorian England are explored in the broad selection of contextual documents **The Lives of Machines** Tamara S. Ketabgian, 2011-03-22 The Lives of Machines is intelligent closely argued and persuasive and puts forth a contention that will unsettle the current consensus about Victorian attitudes toward the machine Jay Clayton Vanderbilt University Today we commonly describe ourselves as machines that let off steam or feel under pressure The Lives of Machines investigates how Victorian technoculture came to shape this language of human emotion so pervasively and irrevocably and argues that nothing is more intensely human and affecting than the nonhuman Tamara Ketabgian explores the emergence of a modern and more mechanical view of human nature in Victorian literature and culture Treating British

literature from the 1830s to the 1870s this study examines forms of feeling and community that combine the vital and the mechanical the human and the nonhuman in surprisingly hybrid and productive alliances Challenging accounts of industrial alienation that still persist the author defines mechanical character and feeling not as erasures or negations of self but as robust and nuanced entities in their own right *The Lives of Machines* thus offers an alternate cultural history that traces sympathies between humans animals and machines in novels and nonfiction about factory work as well as in other unexpected literary sites and genres whether domestic scientific musical or philosophical Ketabgian historicizes a model of affect and community that continues to inform recent theories of technology psychology and the posthuman *The Lives of Machines* will be of interest to students of British literature and history history of science and of technology novel studies psychoanalysis and postmodern cultural studies Cover image *Power Loom Factory* of Thomas Robinson from Andrew Ure *The Philosophy of Manufactures* London Charles Knight 1835 frontispiece DIGITALCULTUREBOOKS a collaborative imprint of the University of Michigan Press and the University of Michigan Library

Hidden Rivalries in Victorian Fiction Jerome Meckier, 2021-10-21 Victorian fiction has been read and analyzed from a wide range of perspectives in the past century But how did the novelists themselves read and respond to each other's creations when they first appeared Jerome Meckier answers that intriguing question in this ground breaking study of what he terms the Victorian realism wars Meckier argues that nineteenth century British fiction should be seen as a network of intersecting reactions and counteractions in which the novelists rethought and rewrote each other's novels as a way of enhancing their own credibility In an increasingly relative world thanks to the triumph of a scientific secularity the goal of the novelist was to establish his or her own credentials as a realist hence a reliable social critic by undercutting someone else's usually Charles Dickens's Trollope Mrs Gaskell and especially George Eliot attempted to make room for themselves in the 1850s and 1860s by pushing Dickens aside Wilkie Collins tried a different form of parodic revaluation he strove to outdo Dickens at the kind of novel Dickens thought he did best the kind his other rivals tried to cancel tone down or repair ostensibly for being too melodramatic but actually for expressing too negative a world view For his part Dickens determined to remain inimitable replied to all of his rivals by redoing them as spiritedly as they had reused his characters and situations to make their own statements and to discredit his Thus Meckier redefines Victorian realism as the bravura assertion by a major novelist or one soon to be that he or she was a better realist than Dickens By suggesting the ways Victorian novelist read and rewrote each other's work this innovative study alters present day perceptions of such double purpose novels as Felix Holt Bleak House Middlemarch North and South Hard Times The Woman in White and The Mystery of Edwin Drood
