Schleiermacher scholars in Germany and in the English speaking world The Cambridge Companion to the Trinity Peter C. Phan, 2011-06-30 How do Christians reconcile their belief in one God with the concept of three divine persons This Companion provides an overview of how the Christian doctrine of the Trinity has been understood and articulated in the last two thousand years The Trinitarian theologies of key theologians from the New Testament to the twentieth century are carefully examined and the doctrine of the Trinity is brought into dialogue with non Christian religions as well as with other

Christian beliefs Authors from a range of denominational backgrounds explore the importance of Trinitarian thought locating the Trinity within the wider context of systematic theology Contemporary theology has seen a widespread revival of the doctrine of the Trinity and this book incorporates the most recent developments in the scholarship The Cambridge Companion to Karl Rahner Declan Marmion, Mary E. Hines, 2005-06-16 Karl Rahner 1904-84 was one of the most significant theological voices of the twentieth century For many his theology has come to symbolise the Catholic Church's entry into modernity Part of his enduring appeal lies in his ability to reflect on a whole variety of issues in theology and spirituality and concentrate this plurality into a few basic convictions This Cambridge Companion provides an accessible introduction to the main themes of Rahner's work Written by an international array of experts it will be of interest to both students and scholars alike Each chapter serves as a guide to its topic and recommends further reading for additional study The contributors also assess Rahner's significance for contemporary theology by bringing his thought into dialogue with many current concerns including religious pluralism spirituality postmodernism ecumenism ethics and developments in political and feminist theologies **Schleiermacher** Julia A. Lamm, 2014 This volume contains the most important spiritual writings of this seminal nineteenth century theologian including the Second Speech and the Christmas Dialogue Christological Anthropology in Historical Perspective Marc Cortez, 2016-02-02 What does it mean to be truly human In Christological Anthropology in Historical Perspective Marc Cortez looks at the ways several key theologians Gregory of Nyssa Julian of Norwich Martin Luther Friedrich Schleiermacher Karl Barth John Zizioulas and James Cone have used Christology to inform their understanding of the human person Based on this historical study he concludes with a constructive proposal for how Christology and anthropology should work together to inform our view of what it means to be human Many theologians begin their discussion of the human person by claiming that in some way Jesus Christ reveals what it means to be truly human but this often has little impact in the material presentation of their anthropology Although modern theologians often fail to reflect robustly on the relationship between Christology and anthropology this was not the case throughout church history In this book examine seven key theologians and discover their important contributions to theological anthropology **Jesus and the Rise of Nationalism** Halvor Moxnes, 2011-10-30 The great German theologian Albert Schweitzer famously drew a line under nineteenth century historical Jesus research by showing that at the bottom of the well lay not the face of Joseph's son but rather the features of all the New Testament scholars who had tried to reveal his elusive essence In his thoughtful and provocative new book Halvor Moxnes takes Schweitzer's observation much further the doomed quest for the historical Jesus was determined not only by the different personalities of the seekers who undertook it but also by the social cultural and political agendas of the countries from which their presentations emerged Thus Friedrich Schleiermacher's Jesus was a teacher corresponding with the role German teachers played in Germany's movement for democratic socialism Ernst Renan's Jesus was by contrast an attempt to represent the positive Orient as a precursor to the civilized self of his own French society

Scottish theologian G A Smith demonstrated in his manly portrayal of Jesus a distinctively British liberalism and Victorian moralism Moxnes argues that one cannot understand any life of Jesus apart from nationalism and national identity and that what is needed in modern biblical studies is an awareness of all the presuppositions that underlie presentations of Jesus whether in terms of power gender sex and class Only then he says can we start to look at Jesus in a way that does him justice

The Constructive Promise of Schleiermacher's Theology Shelli M. Poe, 2021-04-08 This volume demonstrates how Friedrich Schleiermacher's thought can be used to address contemporary doctrinal refinement and development Taking a constructive approach Shelli M Poe weaves Schleiermacher's theology together with current scholarship in feminism womanism ecotheology and queer theology While Schleiermacher is widely acclaimed as the progenitor of modern theology Poe is one of the first to use his work as a springboard to refine contemporary doctrine This book demonstrates the promise of Schleiermacher's mature work for contemporary constructive forms of theology Theology and History in the Methodology of Herman Bavinck Cameron Clausing, 2023-09-08 In the nineteenth century history was becoming a science while at the same time theology was vying for a place among the sciences and in the university In the midst of these developments theologians were grappling with how theology and history could relate This book examines one such important Dutch theologian Herman Bavinck and explores the intersection between theology and history in his methodology by considering Bavinck's intellectual and historical context and then seeing how that context influenced his understanding of revelation confession and Christian consciousness
