AND DISARMAMENT  
ANNUAL REPORT  
2023

# Sipri Yearbook 2004

**Richard A. Bitzinger**

## **Sipri Yearbook 2004:**

*SIPRI Yearbook 2004* Stockholm International Peace Research Institute, 2004 The 35th edition of the SIPRI Yearbook analyses developments in 2003 in o Security and conflicts o Military spending and armaments o Non proliferation arms control and disarmament The SIPRI Yearbook contains extensive annexes on the implementation of arms control and disarmament agreements and a chronology of events during the year in the area of security and arms control Studies in this volume o Iraq the legacy o Euro Atlantic organizations and relationships o The Iraq war enduring controversies and challenges o Major armed conflicts and multilateral peace missions o Post conflict justice developments in international courts o China s new security multilateralism and implications for the Asia Pacific region o National defence reform and the African Union o Security sector reform in the Western Balkans o Sciences and technology based military innovation the United States and Europe o World military expenditure and arms production o Military expenditure in the Middle East and the Iraq war o Arms industries in Belarus Russia and Ukraine o International arms transfers and the suppliers of ballistic missile technology o Biological weapons and potential indicators of offensive biological weapon activities o Major trends in arms control and non proliferation o Nuclear arms control and non proliferation world nuclear forces and ballistic missile defence o Chemical and biological warfare developments and arms control o The SARS epidemic and biochemical weapon threats o Conventional arms control o Transfer controls and arms destruction programmes o Withdrawal from arms control treaties The annual accounts and analyses are extensively footnoted providing a comprehensive bibliography in each subject area Conceptual and Contextual Perspectives on the Modern Law of Treaties Michael J. Bowman, Dino

Kritsiotis, 2018-10-31 In recent years there has been a flourishing body of work on the Law of Treaties crucial for all fields within international law However scholarship on modern treaty law falls into two distinct strands which have not previously been effectively synthesized One concerns the investigation of concepts which are fundamental to or inherent in the law of treaties generally such as consent object and purpose breach of obligation and provisional application while the other focuses upon the application of treaties and of treaty law in particular substantive e g human rights international humanitarian law investment protection environmental regulation or institutional contexts including the Security Council the World Health Organization the International Labour Organization and the World Trade Organization This volume represents the culmination of a series of collaborative explorations by leading experts into the operation development and effectiveness of the modern law of treaties as viewed through these contrasting perspectives **Peter Wallensteen: A Pioneer in Making**

**Peace Researchable** Peter Wallensteen, 2021-05-28 This book provides a broad overview of what peace research is all about by an author who has been involved in the field for more than half a century Among other things it gives a unique review of how peace research emerged in Sweden as the author was a key actor in the most crucial events during this formative period The book also portrays how the discipline has grown from an initial focus on alternatives to war to the comprehensive study

of the many dimensions of a lasting and positive peace The author's own work covers causes of war sanctions conflict resolution conflict data mediation and quality peace They demonstrate the range of topics that have to be understood for a peace with quality This is exemplified by some of the author's writings specifically selected for this volume plus a few ones original to it Some accounts of the author's involvements in actual peace processes in the 1990s are also included This publication offers a substantial contribution to understanding the evolution of peace research as a field and is an important reading for scholars policy makers journalists students and any aspiring peace researcher as well as for the public at large Peter Wallensteen is a global pioneer of peace research due to his involvement in the creation of the Department of Peace and Conflict Research at Uppsala University a major center in the field He served as Head of Department from 1972 to 1999 Peter Wallensteen set up and directed the well known Uppsala Conflict Data Program UCDP the global resource for the study of armed conflicts and peace negotiations 1978 2015 Peter Wallensteen was the first holder of the Dag Hammarskjöld Chair in Peace and Conflict Research at Uppsala University 1985 2012 He was also the first holder of the position as the Richard G Starmann Sr Research Professor of Peace Studies at the Kroc Institute for International Peace Studies University of Notre Dame USA 2006 2018

**The Treaty on Conventional Armed Forces in Europe** Mark Wilcox, 2024-03-04 This work examines the CFE Treaty as a factor in Russia's foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security

**Proceedings of the 12th European Conference on Information Warfare and Security** Rauno Kuusisto, Erkki Kurkinen, 2013-11-07

Defense and Security Karl DeRouen Jr., Uk Heo, 2005-09-27 An authoritative up to date examination of the national security and defense policies of 50 influential nations and regions across the globe Defense and Security A Compendium of National Armed Forces and Security Policies presents highly readable authoritative essays profiling the defense and security policies of over 50 individual countries and regions with a focus on present day developments Written by leading national and international scholars and edited by eminent political science experts Karl DeRouen and Uk Heo the

essays take an in depth look at each nation s current security situation defense spending present and potential military confrontations civil military relations alliances relations to terrorism and other topics of importance Historical events and conflicts are highlighted as well with emphasis on the post Cold War era The essays are parallel in structure allowing readers to pinpoint similarities and draw comparisons among nations The two volume set also includes a detailed introduction featuring a cross national comparison

Vital Signs 2005-2006 The Worldwatch Institute,2013-09-13 VITAL SIGNS does for the environment what stock market indicators do for the City But it says more about the future of our world than the FTSE ever can BBC Wildlife Magazine VITAL SIGNS is a sharply focused snapshot of the world Ideal for dipping into it makes fascinating reading New Agriculturalist The scope of the book is vast the presentation is clean and seamless Humanitarian Affairs Review An enlightening insight into the relationship between the environment and human activity Green Futures VITAL SIGNS 20052006 provides up to the minute information on global warming population growth military spending HIV AIDS economic equity the trade in drugs and a whole range of other environmental developmental social political and economic issues By distilling 25 vital signs of our times from thousands of governmental industrial and scientific sources this book allows reader s to track key indicators that show our progress in issues that too often escape the attention of the news media world leader s and economic experts Each theme is presented in both text and two colour graphics providing a thorough well documented and very accessible over view

*The A to Z of Nuclear, Biological and Chemical Warfare* Benjamin C. Garrett,John Mason Hart,2009-09-16 Human experience with nuclear biological and chemical NBC warfare has been limited especially in comparison to conventional forms of warfare Our experience with nuclear warfare is confined to a period of less than one week during the end of World War II when the United States successfully used two nuclear weapons against targets in Japan The course of biological warfare and modern use of biological weapons are difficult to track owing to the difficulty of differentiating deliberate use from natural outbreaks However the keen potential of biological weapons in acts of terror was shown in the mass disruption caused in the fall 2001 experience in the U S with the release of anthrax through the American postal system Chemical weapons have been used in a handful of conflicts since their introduction to modern warfare during World War I most recently during the Iran Iraq War during the 1980s Despite this limited experience NBC warfare continues to exert a certain fascination among states The A to Z of Nuclear Biological and Chemical Warfare covers the development and use of NBC weapons as well as efforts to limit or control the use of these weapons through a chronology a bibliography an introductory essay and dictionary entries Over 500 cross referenced dictionary entries provide a unique selection of terms related to NBC warfare ranging from basic descriptions of substances used in NBC warfare to details on incidents and episodes where NBC weapons were used Entries are structured around historical events persons important to NBC warfare countries where such weapons have been developed or used and international treaties and treaty related organizations

Historical Dictionary of Nuclear, Biological and Chemical Warfare Benjamin C. Garrett,John Mason

Hart,2007-07-19 Human experience with nuclear biological and chemical NBC warfare has been limited especially in comparison to conventional forms of warfare Our experience with nuclear warfare is confined to a period of less than one week during the end of World War II when the United States successfully used two nuclear weapons against targets in Japan The course of biological warfare and modern use of biological weapons are difficult to track owing to the difficulty of differentiating deliberate use from natural outbreaks However the keen potential of biological weapons in acts of terror was shown in the mass disruption caused in the fall 2001 experience in the U S with the release of anthrax through the American postal system Chemical weapons have been used in a handful of conflicts since their introduction to modern warfare during World War I most recently during the Iran Iraq War during the 1980s Despite this limited experience NBC warfare continues to exert a certain fascination among states The Historical Dictionary of Nuclear Biological and Chemical Warfare covers the development and use of NBC weapons as well as efforts to limit or control the use of these weapons through a chronology a bibliography an introductory essay and dictionary entries Over 500 cross referenced dictionary entries provide a unique selection of terms related to NBC warfare ranging from basic descriptions of substances used in NBC warfare to details on incidents and episodes where NBC weapons were used Entries are structured around historical events persons important to NBC warfare countries where such weapons have been developed or used and international treaties and treaty related organizations

**Reporting Dangerously** Simon Cottle,Richard Sambrook,Nick Mosdell,2016-05-16 More journalists are being killed attacked and intimidated than at any time in history Reporting Dangerously Journalist Killings Intimidation and Security examines the statistics and looks at the trends in journalist killings and intimidation around the world It identifies what factors have led to this rise and positions these in historical and global contexts This important study also provides case studies and first hand accounts from journalists working in some of the most dangerous places in the world today and seeks to understand the different pressures they must confront It also examines industry and political responses to these trends and pressures as well as the latest international initiatives aimed at challenging cultures of impunity and keeping journalists safe Throughout the authors argue that journalism contributes a vital if often neglected role in the formation and conduct of civil societies This is why reporting from uncivil places matters and this is why journalists are often positioned in harm s way The responsibility to report in a globalizing world of crises and human insecurity and the responsibility to try and keep journalists safe while they do so it is argued belongs to us all America: The New Imperialism Victor G.

Kiernan,2020-05-05 The invasion and occupation of Iraq have sparked considerable discussion about the nature of American imperialism but most of it is focused on the short term The classical historical approach of this book provides a convincing and compelling analysis of the different phases of American imperialism which have now led to America becoming a global hegemon without any serious rivals Victor Kiernan one of the world s most respected historians has used his nuanced knowledge of history literature and politics to trace the evolution of the American Empire he includes accounts of relations

between Indians and white settlers readings of the work of Melville and Whitman and an analysis of the way that money and politics became so closely intertwined Eric Hobsbawm's preface provides an insight into his own thoughts on American imperialism and a valuable introduction to Victor Kiernan's work Together they shed useful light on today's urgent debates about the uses and misuses of seemingly unlimited military power a lack of respect for international agreements and the right to pre-emptive defense

**Developing a Normative Framework for the Protection of Internally Displaced Persons** Simon Bagshaw, 2021-10-01 The author presents a systematic review of the role of treaties in international law and seeks to demonstrate that their importance is today somewhat overstated given the extent to which States and other organizations tend to resort to more flexible means of standard setting in order to promote respect for human rights As this text demonstrates the collaboration of various governmental intergovernmental and non-governmental representatives can result in an instrument which may be broader in scope and more progressive in content If reinforced by suitable implementation measures it can be even more effective than a treaty in regulating States activities Published under the Transnational Publishers imprint

The Modern Defense Industry Richard A. Bitzinger, 2009-10-15 Whether it's guns and ammunition or multidimensional anti-terrorism systems the defense industry is dynamic complex and ubiquitous It is also mysterious powerful and controversial involving thousands of players worldwide from suppliers and producers to government and military procurers to shadowy figures that trade in the black market This comprehensive two volume reference will explore on a global scale the various issues concepts problems and controversies surrounding the rise of the modern defense industry Unparalleled in its scope and insight The Modern Defense Industry will prove invaluable to the industry's critics and champions alike The phenomenon of a more or less permanent defense industry especially one so wide in scale breadth air sea land and space technology and geography is still relatively new Until now its implications for politics economics and technology have not been adequately discussed in an authoritative accessible format for scholars and researchers business people journalists policymakers and interested laymen The Modern Defense Industry addresses the period from 1945 to the present covering the United States Europe Russia China Israel and other important arms producing and arms procuring countries Including essays by experts from around the world a glossary data on firms and governments laws and policies primary documents case studies and a host of other elements this set will be a unique resource for anyone interested in the arms industry It will also offer penetrating insights into topics like international relations and diplomacy arms proliferation and contemporary politics Volume I comprises chapters by experts in the field on topics like the relationship between the industry military and government how new modes of warfare are changing the industry the implications of globalization on the industry the black and gray areas of the arms trade and much more Volume II features an extensive A-Z glossary of terms lists of defense firms and government agencies annotated primary documents lists of leading defense contractors and key weapons systems an analysis of key legislation and professional organizations The Modern Defense Industry sets the

standard for state of the art overviews of an industry that has for better or worse come to infuse nearly every aspect of world affairs in the early twenty first century      **Globalisation and Defence in the Asia-Pacific** Geoffrey Till, Emrys Chew, Joshua Ho, 2009      *Building Democracy in the Yugoslav Successor States* Sabrina P. Ramet, Christine Hassenstab, Ola Listhaug, 2017-05-15 A comprehensive analysis of how the Yugoslav successor states have coped with the challenges of building democracy since 1990      **The Twenty-First Century: The World Without Russia** Олег Арин/Алекс Бэттлер, In this book Alex Battler questions the assertion of Russia's status as a great power in the acuminate form The author reveals the contradictions between Russia's real modern potential and its foreign policy objectives formulated by official Moscow The author has formulated laws on the Pole the Center of Power and Force Battler introduces some new concepts of the Theory of International Relations The Foreign Policy Potential of the State and The Law on the Optimal Balance Between the Costs of Domestic and Foreign Policy On almost all problems raised by the author his views do not coincide with generally accepted interpretations and approaches The second extended edition of the book *The Twenty First Century The World Without Russia* includes updated copyright and newly added parts and paragraphs      Natural Allies?: Regional Security in Asia and Prospects for Indo-American Strategic Cooperation , 2005 Indo American relations increasingly comprise expanded strategic and economic ties India's government led by Prime Minister Mamonhan Singh has stated its intention to intensify these ties with America Clearly the Bush administration agrees For example President Bush has indicated his intention to sustain the gains achieved since 2001 as a priority Prime Minister Singh has invited the President to India President Bush has indicated his intention to go there leading Indian analysts to expect that What we are going to see is a consolidation of Indo U S ties on a range of strategic issues We may see a greater emphasis on economic ones as well The Bush administration is prepared to make a major offer of arms sales to India This deal has many repercussion across the entire range of Indo American relationships and of India's relationships with a host of important foreign governments like Russia China Pakistan and Israel Undoubtedly a reinforcement of the economic foundations of bilateral amity would be desirable for many reasons This book length monograph seeks to illuminate India's rising power and capabilities with regard to the key regions on its periphery the Persian Gulf Central Asia and South East Asia The author also considers the major issues pertaining to India's bilateral defense agenda with the United States By revealing the dimensions of India's growing capabilities and interests he provides a strategic rationale developing the U S India partnership further      **Rethinking Marxism** The Rethinking Marxism Editorial Collective, 2023-05-31 First published in 2006 This issue highlights both the often undervalued practice of translation and the significance of rereading and rethinking classic Marxian texts with a symposium on Joseph Buttigieg's new edition of Antonio Gramsci's Prison Notebooks      *The Swiss Air Power* Fiona Lombardi, 2007 Through this comprehensive inquiry the dissertation has highlighted a series of doctrinal inadequacies since the very beginning of air power in Switzerland and some deficiencies regarding current operational capabilities which must be rectified so as not to

jeopardise homeland security in the long run Publisher     New Directions in Political Science Colin Hay, 2010-03-04 Written by a team of leading scholars this new text focuses on a range of key challenges posed by developments in 21st century politics to provide a state of the art assessment of current thinking and future directions in Political Science and International Relations
