Andrew Lambert

Sir Robert Peel The Life Of Sir Robert Peel After 1830:

Sir Robert Peel Norman Gash, 2011-06-16 Norman Gash's magnificent two volume life of Sir Robert Peel Mr Secretary Peel 1961 and Sir Robert Peel 1972 is the standard work on the great statesman and is widely considered one of the great biographies of nineteenth century prime ministers Faber Finds is delighted to return both to print In this second volume Gash focuses on the years between 1830 and 1850 the height of Peel's political career which included his two terms as prime minister the controversial repeal of the Corn Laws and his reform of the Conservative Party In his masterly biography covering Peel's career from the Reform Crisis to his untimely death in 1850 Professor Gash shows himself not merely an admirer but an emulator brilliant intellect master of detail man of conservative but humane conscience Harold Perkin Guardian Norman Gash's Sir Robert Peel shows how high and austere academic writing about a major figure is compatible with an outstanding general biography Roy Jenkins Observer In Mr Secretary Peel the first volume of this biography he provided a rich and perceptive portrait of a statesman in the making Now at last he has completed one of the great biographies of our time Philip Ziegler Daily Telegraph Sir Robert Peel by Norman Gash ranks with the great political biographies of the past a classic work in both scholarship and presentation A J P Taylor New Statesman **Sir Robert Peel** Richard A. Gaunt, 2010-07-02 Sir Robert Peel paragon or pariah Peel was the greatest statesman and political leader of mid Victorian Britain a titan of Conservative politics whose legacy has inspired generations in his party and in British political life In a career spanning forty years he held the greatest offices of state including Chief Secretary to Ireland Home Secretary Chancellor of the Exchequer and was twice Prime Minister He was the first acknowledged leader of the Conservative Party and the Founder of Modern Conservatism Yet Peel's seemingly peerless reputation has never been secure The Repeal of the Corn Laws split his party his Peelite supporters joined the Liberals and the Conservatives remained in opposition for thirty years Richard Gaunt drawing on a huge archive of state papers contemporary writings including Peel's own Memoirs and the latest historiography paints a convincing picture of Peel as an exponent of effective government in the modern industrial state and a calculating practitioner supremely self confident who dominated both his Party and the House of Commons Gaunt's revisionist life of Peel will be essential reading and the standard work for students and general readers interested in Conservative and mid Victorian political history and historical biography Sir Robert Peel Richard Gaunt, 2022-07-07 Sir Robert Peel 1788 1850 was one of the most significant political figures in nineteenth century Britain He was also one of the most controversial In this new three volume edition Dr Richard Gaunt an authority on Peel's life and work brings together a range of contemporary perspectives considering Peel's life and achievements From the first observation of Peel's precocious talent as an Oxford undergraduate to his burgeoning reputation as a cabinet minister the volumes draw together sources on Peel's forty year political career The edition pays particular attention to the most controversial aspects of his political life the granting of Catholic Emancipation in 1829 his founding of the Conservative Party during the 1830s and the achievements of

his landmark government of 1841-6 culminating in the repeal of the corn laws in 1846 It also considers Peel's post 1846 career and the unusual position he occupied in British politics before his untimely death in 1850 Combining perspectives from different parts of the political spectrum the collection will be of use to a wide range of researchers with interests in history politics religion economics and political biography Mr Secretary Peel Norman Gash, 2011-04-21 Norman Gash's magnificent two volume life of Sir Robert Peel *Mr Secretary Peel* 1961 and *Sir Robert Peel* 1972 is the standard work on the great statesman and is widely considered one of the great biographies of 19th century prime ministers Faber Finds is delighted to return both to print beginning with *Mr Secretary Peel* As Gash puts it memorably Peel born in 1788 in the world of Gibbon and Joshua Reynolds of stage coaches highwaymen and the judicial burning of women died in 1850 in the age of Faraday and Darwin of Punch railway excursions trade unions and income tax Over the course of Peel's life Britain was remodeled and it may be argued that Peel himself did more than any other political figure in reconciling the new forces in society with its older institutions But as a politician Peel could be a controversial figure his pragmatism pressing him into unpopular decisions The son of an industrial millionaire his instincts were for the cause of good government over narrow party interest Norman Gash interpreted Peel as the intellectual founder of the modern Conservative Party an aristocratic administrator and natural consensus politician who believed in courting the urban middle class as well as landowners and farmers *Mr Secretary Peel* carries its subject's story from birth through his entry into politics in Ireland his early positions in Tory governments his tenure as Home Secretary from 1822 which included his establishing of the Metropolitan Police Force and up to the struggles over the issue of Catholic Emancipation A rich and perceptive portrait of a statesman in the making Philip Ziegler *Telegraph* *Sir Robert Peel* Terry Jenkins, 1998-10-30 Sir Robert Peel 1788-1850 is always remembered for three things his creation of the Metropolitan Police his principal role in the repeal of the Corn Laws and his status as founder of the modern Conservative Party This is quite sufficient to make him the key statesman of the early Victorian period but there were many other aspects of his personality and politics which make the study of his career uniquely useful for students of the period In many ways he can be seen as the archetypal link figure between the pre Reform and post Reform political worlds embodying a strange mixture of reactionary Toryism and vigorous progressivism A History of Ireland, 1800-1922 Hilary Larkin, 2014-02-01 The years of Ireland's union with Great Britain are most often regarded as a period of great turbulence and conflict And so they were But there are other stories too and these need to be integrated in any account of the period Ireland's progressive primary education system is examined here alongside the Famine the growth of a happily middle class Victorian suburbia is taken into account as well as the appalling Dublin slum statistics In each case neither story stands without the other This study synthesises some of the main scholarly developments in Irish and British historiography and seeks to provide an updated and fuller understanding of the debates surrounding nineteenth and early twentieth century history Britain in the Hanoverian Age, 1714-1837 Gerald Newman, Leslie Ellen Brown, 1997 In 1714 king George I

ushered in a remarkable 123 year period of energy that changed the face of Britain and ultimately had a profound effect on the modern era The pioneers of modern capitalism industry democracy literature and even architecture flourished during this time and their innovations and influence spread throughout the British empire including the United States Now this rich cultural period in Britain is effectively surveyed and summarized for quick reference in a first of its kind encyclopedia which contains entries by British Canadian American and Australian scholars specializing in everything from finance and the fine arts to politics and patent law More than 380 illustrations mostly rare engravings enhance the coverage which runs the whole gamut of political economic literary intellectual artistic commercial and social life and spotlights some 600 prominent individuals and families

A Death-Dealing Famine Christine Kinealy,1997-03-20 Examines the historiography of the Irish Famine and its relevance now in the context of the longer term relationship between England and Ireland [British History 1815-1914](#)

Norman McCord,Bill Purdue,A. William Purdue,2007-10-25 This fully revised and updated new edition extended to cover the period up to 1914 provides the ultimate introduction to British history between the end of the Napoleonic Wars and the outbreak of the First World War

No More Napoleons Andrew Lambert,2025-06-24 How for just over a century Britain ensured it would not face another Napoleon Bonaparte manipulating European powers while building a global maritime empire At the conclusion of the Napoleonic Wars a fragile peace emerged in Europe The continent s borders were redrawn and the French Empire once a significant threat to British security was for now cut down to size But after decades of ceaseless conflict Britain s economy was beset by a crippling debt How could this small insular seapower state secure order across the Channel Andrew Lambert argues for a dynamic new understanding of the nineteenth century showing how British policymakers shaped a stable European system that it could balance from offshore Through judicious deployment of naval power against continental forces and the defence strategy of statesmen such as the Duke of Wellington Britain ensured that no single European state could rise to pose a threat rebuilt its economy and established naval and trade dominance across the globe This is the remarkable story of how Britain kept a whole continent in check until the final collapse of this delicately balanced order at the outset of World War One

Victorian Britain Sally Mitchell,2011 First published in 1988 this encyclopedia serves as an overview and point of entry to the complex interdisciplinary field of Victorian studies The signed articles which cover persons events institutions topics groups and artefacts in Great Britain between 1837 and 1901 have been written by authorities in the field and contain bibliographies to provide guidelines for further research The work is intended for undergraduates and the general reader and also as a starting point for graduates who wish to explore new fields

[Victorian Britain \(Routledge Revivals\)](#) Sally Mitchell,2012-08-06 First published in 1988 this encyclopedia serves as an overview and point of entry to the complex interdisciplinary field of Victorian studies The signed articles which cover persons events institutions topics groups and artefacts in Great Britain between 1837 and 1901 have been written by authorities in the field and contain bibliographies to provide guidelines for further research The work is intended for undergraduates and

the general reader and also as a starting point for graduates who wish to explore new fields The Rise of Free Trade Cheryl Schonhardt-Bailey,1997 Why was Britain the first country to opt for unilateral free trade 150 years ago On 16 May 1846 the House of Commons voted to abolish tariff protection for agriculture the famous repeal of the Corn Laws Britain then adhered to her free trade policy despite both her relative economic decline and the protectionist policies of her leading trade rivals the USA and Germany This four volume set examines and explains the contentious issues surrounding the policy shift to free trade and the subsequent persistence of that policy This set provides a comprehensive collection of articles including previously unpublished material on nineteenth century British trade policy and a new and comprehensive introduction by the editor putting the material into context *Crown, Church and Constitution* Jörg Neuheiser,2016-05-01 Much scholarship on nineteenth century English workers has been devoted to the radical reform politics that powerfully unsettled the social order in the century s first decades Comparatively neglected have been the impetuous patriotism royalism and xenophobic anti Catholicism that countless men and women demonstrated in the early Victorian period This much needed study of the era s conservatism from below explores the role of religion in everyday culture and the Tories successful mobilization across class boundaries Long before they were able to vote large swathes of the lower classes embraced Britain s monarchical religious and legal institutions in the defense of traditional English culture Protection and Politics Anna Gambles,1999 Examination of debate within the Conservative party over the principles of free trade The complex and troubled relationship between protectionism and Conservatism in nineteenth century Britain is the focus of this book It looks at how the developing free trade orthodoxy was challenged within Conservatism and offers new perspectives on the intellectual controversies which precipitated the Conservative party s split of 1846 and the intricate denouement of 1846 52 In contrast to traditional accounts it also seeks to explore the intellectual character of opposition to the evolving mid Victorian consensus framed around free trade laissez faire and sound money revealing how Conservatives debated key aspects of economic policy Through an exhaustive reading of Conservative journals pamphlets and contributions to parliamentary debates the author is able to expose an alternative set of ideas about the direction of British economic and social change and the role of government in moulding it Dr ANNA GAMBLES is lecturer in modern British history University of Kent at Canterbury

Empire as the Triumph of Theory Edward Beasley,2004-10-01 Who were the first people to invent a world historical mission for the British Empire And what were the constituencies behind the development of the imperialistic thinking in mid Victorian England These questions are vital for understanding where the New Imperialism of the late nineteenth century came from Empire as the Triumph of Theory takes as its sample the more than two hundred earliest members of the first major pro imperial pressure group the Colonial Society founded in 1868 it is now the Royal Commonwealth Society The book goes on to a careful and well written tour of the different parts of the Victorian world putting the founders of the Colonial society into their social contexts Empire as the Triumph of Theory concludes that imperialism was developed less by

investors and office holders than by people who whatever their other activities had written books or articles about the cultures of the world Victorian activities around the globe were multitudinous and varied and general ideas about England's imperial mission were in fact constructed by members of the Colonial Society in order to make sense out of information flowing in from this teeming world This is the first work to explore the social and intellectual origins of the Colonial Society It brings the mid Victorians to life and should become a standard work for specialists on imperialism

Calming the Storms Charles Read, 2023-01-01 This book exposes for the first time in modern scholarship the role that the rise of the Carry Trade played in British financial crises between 1825 and 1866 how in reaction the Bank of England improved its management of monetary policy after 1866 and how those lessons have been forgotten since the 1970s Britain is one of the few major capitalist economies in the world to have avoided policy induced systemic financial crises for more than 100 years of its history between 1866 and 1973 Beforehand it suffered a series of serious banking panics in 1825 1837 1847 1857 58 and 1866 Since the 1970s banking instability has returned again with the global financial crisis of 2007 09 hitting Britain hard Economists and policymakers have asked what can be learnt from Britain's experience of the disappearance and reappearance of crises to help efforts to prevent future ones This book answers that question with a major reassessment of Britain's financial history over the past two centuries It does so by applying the long neglected ideas of the British Banking School to explain how crises can occur because of the Carry Trade This book is essential reading for economists and historians of modern Britain practitioners and policymakers as well as anyone who is affected by financial crises and their consequences

People, places and identities Alan Kidd, Melanie Tebbutt, 2017-03-24 This book of essays on British social and cultural history since the eighteenth century draws attention to relatively neglected topics including personal and collective identities the meanings of place especially locality and the significance of cultures of association Themes range from rural England in the eighteenth century to the urbanizing society of the nineteenth century from the Home Front in the First World War to voluntary action in the welfare state from post 1945 civic culture to the advice columns of teenage magazines and the national press Various aspects of civil society connect these themes notably the different identities of place locality and association that emerged with the growth of an urban environment during the nineteenth century and the shifting landscape of twentieth century public discourse on social welfare and personal morality It is of interest that several of the essays take Manchester or Lancashire as their focus

A New History of Ireland Theodore William Moody, Francis X. Martin, Francis John Byrne, 1976 A New History of Ireland in nine volumes provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the middleages down to the present day Back cover

A New History of Ireland, Volume VI W. E. Vaughan, 2010-04-01 A New History of Ireland is the largest scholarly project in modern Irish history In 9 volumes it provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest

geological and archaeological evidence through the Middle Ages down to the present day Volume VI opens with a character study of the period followed by ten chapters of narrative history and a study of Ireland in 1914 It includes further chapters on the economy literature the Irish language music arts education administration and the public service and emigration
