The history of religious life in the Catholic Church has been filled with change periods of membership growth and decline shifts in the types of ministries and changes in the ethnic and socioeconomic backgrounds of the men and women who join Today as the numbers of new members diminish some say that the very future of religious life is in jeopardy What is the state of religious life in the United States today Which institutes are increasing in membership and which are decreasing or ceasing to exist From what ethnic and socioeconomic populations are they drawing their members What new religious institutes and ecclesial movements are being founded and how successful are they What influences a young man or woman to consider religious life today How are religious from other countries shaping religious life here as they come to the US to minister Many of these questions can be addressed by data from studies of religious life in the US which the Center for Applied Research in the Apostolate CARA has conducted over the last ten years The impact of the individual's family dynamics and educational experience before their entrance into religious life is examined here as well as the influence of an increasing number of Catholic volunteer programs The emergence of lay associates in religious institutes and the birth of new religious institutes since Vatican Council II in the United States are investigated as new ways of living religious life The increase in the number of sisters and priests studying and ministering in the United States from other countries is examined for its impact on religious life The authors findings yield valuable recommendations for religious institutes and vocation directors who wish to attract new members Who Shall Take Care of Our Sick? Bernadette McCauley, 2020-03-03 This rich history chronicles the prominent role of Catholic women religious in establishing the hospitals at the core of New York City's extensive Catholic medical network Beginning with the opening of St Vincent's Hospital in 1849 Bernadette McCauley relates how determined and pragmatic women of faith worked over the next eighty years to place the Catholic Church in the mainstream of American medicine Exploring the differences and similarities between Catholic hospitals and other hospitals McCauley describes the particular cultural sensibility and management style that informed Catholic health care and gauges the ultimate success of Catholic efforts Visionary sisters established managed and staffed the hospitals and they sat on

hospital boards and served as administrators at a time when women rarely occupied positions of leadership in business. McCauley illustrates how they at once embraced the world of God and the world of man playing an unheralded role in the development of the modern hospital while serving the daily needs of New York's immigrant poor. Encompassing such issues as immigration, the education of nurses and doctors, hospital care and organization, and the role of women in the Catholic church, this extensive study is a valuable resource for scholars and students in the history of medicine, history of nursing, American religion, and women's history. *Common Threads* Sally Dwyer-McNulty, 2014. *Common Threads: A Cultural History of Clothing in American Catholicism*. **Convent Life in Colonial Mexico** Stephanie Kirk, 2018-10-18. Ordering Women's Lives Julie Ann Smith,2016-12-05 This book takes an innovative approach to the study of the penitentials and nunnery rules and the ways in which these texts impinged upon the lives of female audiences The study emphasises the importance of the texts for the promotion of Christian values and of the expectations of churchmen in the construction of appropriate Christian behaviour for women in the early medieval West These texts constitute the only written works which would have had direct influence upon the lives of lay and religious women The work focuses upon the elements of the penitentials which provided female specific expectations and these fall largely into two categories of sexuality and pre Christian practices The nunnery rules seldom provided comprehensive sets of behavioural expectations Rather rules emphasised expectations relating to issues of enclosure work and abstinence which came to be perceived as the defining characteristics of religious women **Women Medievalists and the Academy, Two Volumes** Jane Chance,2018-05-22 Long overlooked in standard reference works pioneering women medievalists finally receive their due in *Women Medievalists and the Academy* This comprehensive edited volume brings to life a diverse collection of inspiring figures through memoirs biographical essays and interviews Covering many different nationalities and academic disciplines including literature philology history archaeology art history theology or religious studies and philosophy each essay delves into one woman's life intellectual contributions and efforts to succeed in a male dominated field Together these extraordinary personal histories constitute a new standard reference that speaks to a growing interest in women's roles in the development of scholarship

Monastic Women and Religious Orders in Late Medieval Bologna Sherri Franks Johnson, 2014-04-10 Sherri Franks Johnson explores the roles of religious women in the changing ecclesiastical and civic structure of late medieval Bologna demonstrating how convents negotiated a place in their urban context and in the church at large During this period Bologna was the most important city in the Papal States after Rome Using archival records from nunneries in the city Johnson argues that communities of religious women varied in the extent to which they sought official recognition from the male authorities of religious orders While some nunneries felt that it was important to their religious life to gain recognition from monks and friars others were content to remain local and autonomous In a period often described as an era of decline and the marginalization of religious women Johnson shows instead that they saw themselves as active participants in their religious orders in the wider church and in their local communities
