**Site-Specific Art** Nick Kaye, 2013-04-15 Site Specific Art charts the development of an experimental art form in an experimental way Nick Kaye traces the fascinating historical antecedents of today's installation and performance art while also assembling a unique documentation of contemporary practice around the world The book is divided into individual analyses of the themes of space materials site and frames These are interspersed by specially commissioned documentary artwork from some of the world's foremost practitioners and artists working today This interweaving of critique and creativity has never been achieved on this scale before Site Specific Art investigates the relationship of architectural theory to an understanding of contemporary site related art and performance and rigorously questions how such works can be documented The artistic processes involved are demonstrated through entirely new primary articles from Meredith Monk Station House Opera Brith Gof Forced Entertainment This volume is an astonishing contribution to debates around experimental cross arts practice

**One Place after Another** Miwon Kwon, 2004-02-27 A critical history of site specific art since the late 1960s Site specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality Throughout the 1970s and 1980s as site specific art intersected with land art process art performance art conceptual art installation art institutional critique community based art and public art its creators insisted on the inseparability of the work and its context In recent years however the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum to remove the work is to destroy the work is being challenged by new models of site specificity and changes in institutional and market forces One Place after Another offers a critical history of site specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations Informed by urban theory postmodernist criticism in art and architecture and debates concerning identity politics and the public sphere the book addresses the siting of art as more than an artistic problem It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism The book addresses the work of among others John Ahearn Mark Dion Andrea Fraser Donald Judd Renee Green Suzanne Lacy Inigo Manglano Ovalle Richard Serra Mierle Laderman Ukeles and Fred Wilson

Exploring Site-specific Art Judith Rugg, 2010-02-28 Over recent years a greater diversity of spaces has opened up worldwide for the making and display of art beyond the gallery A new space consciousness has developed with an emphasis on the significance of the spatial Judith Rugg takes up a range of site specific artworks internationally located in countries ranging from China to France Italy and the UK Argentina and Canada to Australia Poland and the Netherlands to explore the relationships between site specific art and space set within its globalising contexts Through close inspection of works such as artists as Doris Salcedo Langlands and Bell Phyllida Barlow and Vong Phaophanit Rugg considers how an interdisciplinary spatial theory can inform many elements of contemporary art In clear illustrated chapters she engages with

very contemporary spatial issues including those of the environment cultural identity and belonging as well as experiences of displacement migration and marginalisation and the effects of urbanization and tourism For students and practitioners of fine arts art theory and history as well as those who are fascinated by site specific art this is an original and challenging exploration The Perpetuation of Site-Specific Installation Artworks in Museums Tatja Scholte,2021 Site specific installations are created for specific locations and are usually intended as temporary artworks The Perpetuation of Site Specific Installation Artworks in Museums Staging Contemporary Art shows that these artworks consist of more than a singular manifestation and that their lifespan is often extended In this book Tatja Scholte offers an in depth account of the artistic production of the last forty years With a wealth of case studies the author illuminates the diversity of site specific art in both form and content as well as in the conservation strategies applied A conceptual framework is provided for scholars and museum professionals to better understand how site specific installations gain new meanings during successive stages of their biographies and may become agents for change in professional routines Space, Site, Intervention Erika Suderburg,2000 From Ferdinand Cheval s Palais Ideal 1879 1905 and Simon Rodia s Watts Towers 1921 1954 to Ant Farm s Cadillac Ranch 1974 and Richard Serra s Tilted Arc 1981 installation art has continually crossed boundaries encompassing sculpture architecture performance and visual art Although unique in its power to transform both the site in which a work is constructed and the viewer s experience of being in a place installation art has not received the critical attention accorded other art forms In Space Site Intervention some of today s most prominent art critics curators and artists view installation art as a diverse multifaceted and international art form that challenges institutional assumptions and narrow conceptual frameworks The contributors discuss installation in relation to the genealogy of modern art community and corporate space multimedia cyberspace public and private ritual the gallery and the museum public and private patronage and political action This ambitious volume focuses on issues of class sexuality cultural identity race and gender and highlights a wide range of artists whose work is often marginalized by mainstream art history and criticism Together the essays in Space Site Intervention investigate how installation resonates within modern culture and society as well as its ongoing influence on contemporary visual culture **New Media as Performance in Site-specific Art** Shih-yun Lu,2013-01-30 This practical based research explores space sites and interventions in particular site specific installation of art works involving the physical virtual space and interactive theatre space within new media art The State of Art - Installation & Site-Specific #2 Andy Laffan,Chris Hodson,Robin Laffan,2015-09-15 Installation art can be broadly defined as work which is three dimensional and is produced in order to transform the perception of a space In the past this term was primarily meant to describe the hanging of pictures and other objects within an exhibition in more recent times the term has come to signify work which deals directly with the space the artist often creating mixed media assemblages designed for a temporary period of time Site specific work is closely related to Installation art in the sense that it is usually composed of objects installed at a

location Where the two may differ is that in a site specific work the artist is often dealing with the history folklore geography or social issues of a particular place and in that sense the work can only exist at that location In addition because the work relies on being placed so specifically many site specific works are located outside of the gallery in often unconventional public spaces

production would help mend social political and cultural divisions Checa Gismero argues that in reflecting this optimism biennials facilitated the conversion of subaltern aesthetic genealogies into forms that were legible to a nascent cosmopolitan global elite all under the pretense of cultural exchange By outlining how early biennials set the basis for what is now recognized as global contemporary art Checa Gismero intervenes in previous accounts of the contemporary art world in order to better understand how it became the exclusionary rarified institution of today
