an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry s beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field s taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work s production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches The Oxford Handbook of Chinese Cinemas provides a vital addition to a burgeoning field still in its formative stages
