Years 1954 1959 examines the momentous five year period when one of the world s greatest architects and one of the world  
s greatest cities coexisted Authors Jane Hession and Debra Prickel bring each of these unequalled characters to life exploring  
the fascinating contradiction between Wright s often voiced disdain of New York and his pride and pleasure of living in one of  
the city s greatest landmarks the Plaza Hotel From his suite or Taliesin the Third as it became known Wright supervised  
construction of the Guggenheim sparred with the New York press and received many famous visitors such as Marilyn

Moser,1952      **Wright on Exhibit** Kathryn Smith,2022-07-12 The first history of Frank Lloyd Wright s exhibitions of his  
own work a practice central to his career More than one hundred exhibitions of Frank Lloyd Wright s work were mounted  
between 1894 and his death in 1959 Wright organized the majority of these exhibitions himself and viewed them as crucial to  
his self presentation as his extensive writings He used them to promote his designs appeal to new viewers and persuade his  
detractors Wright on Exhibit presents the first history of this neglected aspect of the architect s influential career Drawing  
extensively from Wright s unpublished correspondence Kathryn Smith challenges the preconceived notion of Wright as a self  
promoter who displayed his work in search of money clients and fame She shows how he was an artist architect projecting an  
avant garde program an innovator who expanded the palette of installation design as technology evolved and a social activist  
driven to revolutionize society through design While Wright s earliest exhibitions were largely for other architects by the  
1930s he was creating public installations intended to inspire debate and change public perceptions about architecture The

nature of his exhibitions expanded with the times beyond models drawings and photographs to include more immersive tools such as slides film and even a full scale structure built especially for his 1953 retrospective at the Guggenheim Museum Placing Wright's exhibitions side by side with his writings Smith shows how integral these exhibitions were to his vision and sheds light on the broader discourse concerning architecture and modernism during the first half of the twentieth century Wright on Exhibit features color renderings photos and plans as well as a checklist of exhibitions and an illustrated catalog of extant and lost models made under Wright's supervision [Frank Lloyd Wright's Hollyhock House](#) Donald Hoffmann, 2011-10-14 Lavishly illustrated study recounts the turbulent history of one of Wright's most imaginative and controversial residential designs More than 120 black and white images complement this perceptive account of the building's design and construction **Tastemaker** Monica Penick, 2017-01-01 Cover Half Title Title Copyright Contents Preface Prologue 1 Beginnings 2 Good Taste and Better Living 3 The Postwar House 4 The Pace Setter House 5 Climate Control 6 A New Look 7 The American Style 8 The Threat to the Next America 9 A New Alliance 10 The Next American House 11 A New Regionalism 12 Which Way America 13 American Shibui 14 Catalyst Epilogue Abbreviations Notes Acknowledgments Index A B C D E F G H I J K L M N O P Q R S T U V W Y Z Illustration Credits *The Essential Frank Lloyd Wright* Frank Lloyd Wright, 2010-02-28 Presents a collection of significant writings of Frank Lloyd Wright [Frank Lloyd Wright's Monona Terrace](#) David V. Mollenhoff, Mary Jane Hamilton, 1999 Mollenhoff and Hamilton provide the definitive history of the building's design the tempestuous relationship of Wright to his hometown of Madison and the support for and opposition to the project Drawing from the Frank Lloyd Wright Archives thousands of newspaper accounts extensive government records and dozens of interviews the book also features more than 300 illustrations in color and black and white including many published here for the first time **Architecture's Odd Couple** Hugh Howard, 2016-05-24 In architectural terms the twentieth century can be largely summed up with two names Frank Lloyd Wright and Philip Johnson Wright 1867 1959 began it with his romantic prairie style Johnson 1906 2005 brought down the curtain with his spare postmodernist experiments Between them they built some of the most admired and discussed buildings in American history Differing radically in their views on architecture Wright and Johnson shared a restless creativity enormous charisma and an outspokenness that made each man irresistible to the media Often publicly at odds they were the twentieth century's flint and steel their repeated encounters consistently set off sparks Yet as acclaimed historian Hugh Howard shows their rivalry was also a fruitful artistic conversation one that yielded new directions for both men It was not despite but rather because of their contentious and not always admiring relationship that they were able so powerfully to influence history In *Architecture's Odd Couple* Howard deftly traces the historical threads connecting the two men and offers readers a distinct perspective on the era they so enlivened with their designs Featuring many of the structures that defined modern space from Fallingwater to the Guggenheim from the Glass House to the Seagram Building this book presents an arresting portrait of modern architecture's

odd couple and how they shaped the American landscape by shaping each other
