particular subject Other books in the series include Drawing Animals Drawing Caricatures Drawing Figures Drawing Manga Drawing Portraits Drawing Still Life Drawing Techniques **Sketch Landscape** Francesca Comotti, Ian Ayers, Catherine Collin, 2009 Focusing on the design process Sketch Landscape explores the sources the influences and the reasoning behind the projects of today's most recognised landscape architects With its 500 fully illustrated pages this book brings together the drawings sketches renderings and photographs of more than thirty prestigious international architects *Epic Landscapes* Julia Sienkewicz, 2019-11-13 Epic Landscapes is the first study devoted to architect Benjamin Henry Latrobe's substantial artistic oeuvre from 1795 when he set sail from Britain to Virginia to late 1798 when he relocated to Pennsylvania Thus this book offers the only extended consideration of Latrobe's Virginian watercolors including a series of complex trompe l'oeil studies and three significant illustrated manuscripts Though Latrobe's architecture is well known his watercolors have received little critical attention Epic Landscapes rediscovers Latrobe's watercolors as an ambitious body of work and reconsiders the close relationship between the visual and spatial sensibility of these images and his architectural designs It also offers a fresh analysis of Latrobe within the context of creative practice in the Atlantic world at the end of the eighteenth century as he explored contemporary ideas concerning the form of art for Republican society and the social impacts of revolution Published by University of Delaware Press Distributed worldwide by Rutgers University Press **Master Drawings from the Smith College Museum of Art** Smith College. The Graphic Arts Philip Gilbert Hamerton, 1902 *The Emergence of the Professional Watercolourist* Greg Smith, 2018-01-12 This title was first published in 2002 Drawing on extensive primary research Greg Smith describes the shifting cultural identities of the English watercolour and the English watercolourist at the end of the eighteenth and the beginning of the nineteenth century His convincing narrative of the conflicts and alliances that marked the history of the medium and its practitioners during this period includes careful detail about the broader artistic context within which watercolours were produced acquired and discussed Smith calls into question many of the received assumptions about the history of watercolour painting His account exposes the unsatisfactory nature of the traditional narrative of watercolour painting's development into a high art form which has tended to offer a celebratory focus on the innovations and genius of individual practitioners such as Turner and Girtin rather than detailing the anxieties and aspirations that characterized the ambivalent status of the watercolourist The Emergence of the Professional Watercolourist is published with the assistance of the Paul Mellon Foundation **The Art Collector** Alfred Trumble, 1893 Chora, Volume Six Alberto Pérez Gómez, Stephen Parcell, 2011 An interdisciplinary collection of essays in the history and philosophy of architecture
