Social Amnesia A Critique Of Conformist Psychology From Adler To Laing:

Social Amnesia Russell Jacoby, 1975 Rhyming text and illustrations follow a mischievous old black fly through the alphabet as he has a very busy bad day landing where he should not be The Self And Personality Structure Paul Brinich, Christopher Shelley, 2002-07-16 What is the self and its relationship to personality theories How do the central schools of psychotherapy conceptualize the self The self is a notoriously difficult and at times obscure concept that underpins and guides much psychotherapy theory and practice The corollary concept of personality is fundamentally linked to the concept of the self and has provided theorists and researchers in psychology with a more coherent set of principles with which to explicate the personal and attributional aspects of the self The authors come from two quite separate schools of depth psychology psychoanalytic and Adlerian and provide an overview of the self and how it is conceptualized across the psychotherapies within various theories of personality In addition to outlining some of the philosophical and historical issues surrounding the notion of selfhood the authors examine classical and developmental models of psychoanalytic thought that implicitly point to the idea of self The authors also outline Kohut's psychoanalytic self psychology in addition to Adlerian and other post Freudian Jungian and post Jungian cognitive humanistic and existential contributions to the self and personality structure Beyond Sexuality Tim Dean, 2000-09 Beyond Sexuality points contemporary sexual politics in a radically new direction Combining a psychoanalytic emphasis on the unconscious with a deep respect for the historical variability of sexual identities this original work of queer theory makes the case for viewing erotic desire as fundamentally impersonal Tim Dean develops a reading of Jacques Lacan that rather than straightening out this notoriously difficult French psychoanalyst brings out the queer tensions and productive incoherencies in his account of desire Dean shows how the Lacanian unconscious deheterosexualizes desire and along the way he reveals how psychoanalytic thinkers as well as queer theorists have failed to exploit the full potential of this conception of desire The book elaborates this by investigating social fantasies about homosexuality and AIDS including gay men's own fantasies about sex and promiscuity in an attempt to illuminate the challenges facing safe sex education Taking on many shibboleths in contemporary psychoanalysis and queer theory and taking no prisoners Beyond Sexuality offers an antidote to hagiographical strains in recent work on psychoanalysis Foucault and sexuality **North American Critical Theory After Postmodernism** P. Nickel, 2012-08-21 In a series of interviews this book explores the formative experiences of a generation of critical theorists whose work originated in the midst of what has been called the postmodern turn including discussions of their views on the evolution of critical theory over the past 30 years and their assessment of contemporary politics **The Active Society Revisited** Wilson C. McWilliams, 2006 The Active Society published in 1968 is the most ambitious book in Amitai Etzioni's remarkable career In this new collection of essays Wilson Carey McWilliams brings together scholars in a range of disciplines to analyze the significance and shortcomings of this important work **The Frankfurt School** J. M. Bernstein, 1994 The Frankfurt School refers to the

members associated with the Institut für Sozialforschung Institute for Social Research which was founded in Frankfurt in 1923 The work of this group is generally agreed to have been a landmark in twentieth century social science It is of seminal importance in our understanding of culture progress politics production consumption and method This set of six volumes provides a full picture of the School by examining the important developments that have occurred since the deaths of the original core of Frankfurt scholars All the major figures Adorno Horkheimer Marcuse Benjamin are represented In particular the important post war work of Jürgen Habermas is fully assessed The collection also covers the work of many of the minor figures associated with the School who have been unfairly neglected in the past resulting in the most complete survey and guide to the oeuvre of the Frankfurt School

Critical Theorists and International Relations Jenny Edkins, Nick Vaughan-Williams, 2009-02-10 Covering a broad range of approaches within critical theory including Marxism and post Marxism hermeneutics feminism queer theory deconstruction and psychoanalysis this book provides students with an introduction to 32 key critical theorists whose work has been influential in the field of international relations

Psychoanalytic Criticism Elizabeth Wright, 2013-08-21 First published in 2002 Modes and categories inherited from the past no longer seem to fit the reality experienced by a new generation New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study The purpose of this book is to give a critical overview of what has become a very wide field the relationship of psychoanalytic theory to the theories of literature and the arts and the way that developments in both domains have brought about changes in critical practice

Born This Way Joanna Wuest, 2023-09-15 Across protests and courtrooms LGBTQ activists argue that true sex or sexuality is encoded deep down that it circulates in blood and is an expression of brain shapes and genetic codes Their opponents incite panic over luring child groomers and a contagious gender ideology which corrupts the brains and then bodies of susceptible teenagers In Born This Way Science Citizenship and Inequality in the American LGBTQ Movement Joanna Wuest tells the history of the LGBTQ rights movement the modern scientific study of gender and sexuality and the identity politics that formed at the nexus She too reveals how conservative leaders have undermined science's ability to assist equal rights campaigns reproductive rights and climate change policies alike Born This Way is at once a celebratory and cautionary tale one which delineates a minority rights movement's impressive victories its powerful and persuasive allies and the ongoing assault on equality and science alike

Marxism and Totality Martin Jay, 1984 Totality has been an abiding concern from the first generation of Western Marxists most notably Lukács, Korsch, Gramsci and Bloch through the second exemplified by the Frankfurt School, Lefebvre, Goldmann, Sartre, Merleau-Ponty and Della Volpe up to the most recent typified by Althusser, Colletti and Habermas Yet no consensus has been reached concerning the term's multiple meanings expressive, decentered, longitudinal, latitudinal, normative or its implications for other theoretical and practical matters By closely

following the adventures of this troublesome but central concept Marxism Totality offers an unconventional account of the history of Western Marxism
