Social Paralysis And Social Change British Working Class Education In The Nineteenth Century:

Social Paralysis and Social Change Neil J. Smelser, 1991 As one might expect from so eminent a sociologist this book is a splendid example of the application of social theory to actual historical experience Harold Perkin author of *The Origin of Modern English Society* **The Broadview Anthology of Victorian Prose, 1832-1901** Mary Elizabeth Leighton, Lisa Surridge, 2012-08-20 The Victorian era witnessed dramatic transformations in print culture and this new anthology covers the exciting intellectual and social debates of the period From first person accounts of the lives of factory workers to Oscar Wilde s aesthetic theory and from narratives of British travelers in Africa and Asia to Havelock Ellis s theories of sexual inversion the surprising diversity of nineteenth century nonfiction writing is represented Illustrations from Victorian periodicals provide a vivid sense of the original reading experience The book s thematic organization emphasizes the social and historical contexts of prose writings as well as the way in which these writings address each other In addition to a general critical introduction the anthology features new thematic introductions by experts in the field *School and Society in Victorian Britain* Richard Aldrich, 2012-05-16 Drawing on hitherto unused sources this book represents a shift in the historiography of British education At the centre of the investigation is Joseph Payne He was one of the group of pioneers who founded the College of Preceptors in 1846 and in 1873 he was appointed to the first professorship of education in Britain established by the College of Preceptors By that date Payne had acquired a considerable reputation He was a classroom practitioner of rare skill the founder of two of the most successful Victorian private schools the author of best selling text books a scholar of note despite his lack of formal education and a leading member of the College of Preceptors and such bodies as the Scholastic Registration Association the Girls Public Day School Trust the Women s Education Union and the Social Science Association The History of British Women's Writing, 1830-1880 Lucy Hartley, 2018-09-22 This volume charts the rise of professional women writers across diverse fields of intellectual enquiry and through different modes of writing in the period immediately before and during the reign of Queen Victoria It demonstrates how between 1830 and 1880 the woman writer became an agent of cultural formation and contestation appealing to and enabling the growth of female readership while issuing a challenge to the authority of male writers and critics Of especial importance were changing definitions of marriage family and nation of class and of morality as well as new conceptions of sexuality and gender and of sympathy and sensation The result is a richly textured account of a radical and complex process of feminization whereby formal innovations in the different modes of writing by women became central to the aesthetic social and political formation of British culture and society in the nineteenth century **The Rise and Fall of Class in Britain** David Cannadine, 1999 Although politicians in Britain are now calling for a classless society can one conclude as do many scholars that class does not matter anymore Cannadine uncovers the meanings of class for such disparate figures as Adam Smith Karl Marx and Margaret Thatcher and identifies the moments when opinion shifted such as the aftermath of the French Revolution and the

rise of the Labour Party in the early twentieth century

The Idea of Education in Golden Age Detective Fiction Roger Dalrymple, Andrew Green, 2024-07-05 This book presents an exploration of how Golden Age detective fiction encounters educational ideas particularly those forged by the transformative educational policymaking of the interwar period Charting the educational policy and provision of the era and referring to works by Agatha Christie Dorothy L Sayers Edmund Crispin and others this book explores the educational capacity and agency of literary detectives the learning spaces of the genre and the kinds of knowledge that are made available to inquirers both inside and outside the text It is argued that the genre explores a range of contemporaneous propositions on the balance between academic curriculum and practicum length of school life and the value of lifelong learning This book's closing chapter considers the continuing pedagogic value for contemporary classrooms of engaging with the genre as a rich discursive and imaginative space for exploring educational ideas Framing Golden Age detective fiction as a genre profoundly concerned with learning this book will be highly relevant reading for academics postgraduate students and scholars involved in the fields of English language arts twentieth century literature and the theories of learning more broadly Those interested in detective fiction and interdisciplinary literary studies will also find the volume of interest

The New Institutionalism in Education Heinz-Dieter Meyer, Brian Rowan, 2012-02-01 The New Institutionalism in Education brings together leading academics to explore the ongoing changes in K 12 and higher education in both the United States and abroad The contributors show that current educational trends including the increased globalization of education the growing emphasis on educational markets and school choice the rise of accountability systems and the persistent influence of business groups like textbook manufacturers and test makers on educational policy can best be understood when observed through an institutional lens Because schools and universities are organizations that are stabilized by deeply institutionalized rules they are subject to the enduring problem of substantive educational reform This book gives researchers and policy analysts conceptual tools and empirical assessments to gauge the possibilities for institutional reform and innovation

The Cambridge History of the Book in Britain: Volume 6, 1830-1914 David McKitterick, 2009-03-05 The years 1830 1914 witnessed a revolution in the manufacture and use of books as great as that in the fifteenth century Using new technology in printing paper making and binding publishers worked with authors and illustrators to meet ever growing and more varied demands from a population seeking books at all price levels The essays by leading book historians in this volume show how books became cheap how publishers used the magazine and newspaper markets to extend their influence and how book ownership became universal for the first time The fullest account ever published of the nineteenth century revolution in printing publishing and bookselling this volume brings The Cambridge History of the Book in Britain up to a point when the world of books took on a recognisably modern form

From Mission to Modernity Paul Sedra,2011-03-30 In this pioneering account of Egyptian educational history Paul Sedra describes how the Egyptian state under Muhammad Ali Pasha sought to forge a new relationship with children during the nineteenth century Through the introduction of modern forms of education brought to Egypt by evangelical missions the state aimed to ensure children s loyal service to the state whether through conscription or forced labour However these schemes of educational reform most prominently Joseph Lancaster s monitorial system led to unforeseen consequences as students in Egypt s new modern schools resisted efforts to control their behaviour in creative and complex ways and these acts of resistance themselves led to new forms of political identity Tracing the development of a distinctly Egyptian

modernity From Mission to Modernity is indispensable for all those interested in Egyptian history and the history of modern education and reform The Continued Exercise of Reason Brendan Dooley, 2018-04-27 Lectures many never before published that offer insights into the early thinking of the mathematician and polymath George Boole George Boole 1815 1864 remembered by history as the developer of an eponymous form of algebraic logic can be considered a pioneer of the information age not only because of the application of Boolean logic to the design of switching circuits but also because of his contributions to the mass distribution of knowledge In the classroom and the lecture hall Boole interpreted recent discoveries and debates in a wide range of fields for a general audience This collection of lectures many never before published offers insights into the early thinking of an innovative mathematician and intellectual polymath Bertrand Russell claimed that pure mathematics was discovered by Boole but before Boole joined a university faculty as professor of mathematics in 1849 advocacy for science and education occupied much of his time He was deeply committed to the Victorian ideals of social improvement and cooperation arguing that the continued exercise of reason joined all disciplines in a common endeavor In these talks Boole discusses the genius of Isaac Newton ancient mythologies and forms of worship the possibility of other inhabited planets in the universe the virtues of free and open access to knowledge the benefits of leisure the quality of education the origin of scientific knowledge and the fellowship of intellectual culture The lectures are accompanied by a substantive introduction by Brendan Dooley the editor of the volume that supplies biographical and historical context

Putting Islam to Work Gregory Starrett, 1998-03-26 The development of mass education and the mass media have transformed the Islamic tradition in contemporary Egypt and the wider Muslim world In Putting Islam to Work Gregory Starrett focuses on the historical interplay of power and public culture showing how these new forms of communication and a growing state interest in religious instruction have changed the way the Islamic tradition is reproduced During the twentieth century new styles of religious education based not on the recitation of sacred texts but on moral indoctrination have been harnessed for use in economic political and social development programs More recently they have become part of the Egyptian government's strategy for combating Islamist political opposition But in the course of this struggle the western style educational techniques that were adopted to generate political stability have instead resulted in a rapid Islamization of public space the undermining of traditional religious authority structures and a crisis of political legitimacy Using historical textual and ethnographic evidence Gregory Starrett demonstrates that today's Islamic resurgence is rooted in new ways of thinking about Islam that are based in the market the media and the school
