relationships policies and even the historical memory of generations to come More than simply a chronicle of the Great Famine however Famine Worlds offers a profound meditation on what it means to live through such collective trauma and how doing so shapes the character of a society Brand shows that there are consequences to living amid omnipresent suffering and death A crisis like the Great Famine is transformative in ways we cannot comprehend It not only reshapes the lives and social worlds of those who suffer it creates a particular rationality that touches the most fundamental parts of our being even down to the ways we view and interact with each other We often assume that if we were thrust into historic calamity that we would continue to behave compassionately Famine Worlds questions such confidence providing a lesson that could not be more timely

Government and Society in Rural Palestine, 1920-1948 Ylana Miller, 2014-07-03

In 1947 Arabs made up two thirds of the population of Palestine and they owned most of its cultivable land Why then did they lose their homes and land to a relatively small Jewish community just emerging from the shocks of World War II Did the Palestinians lose their homeland because they were backward primitive and reactionary Or was Israel the product of persistent victimization of Palestinian Arabs by an imperialist power which supported Zionist colonization Did the Palestinians sell each other out Or were they helpless sufferers in the face of a sophisticated enemy with endless resources Too often discussions of Palestine are couched in such rhetorical language based on the assumption that either Jews or Arabs are morally to blame for historical realities This study seeks to go beyond attributions of responsibility to investigate the concrete conditions which determined and limited Palestinian Arab actions between 1920 and 1948 It was during that period while Great Britain governed the area under a League of Nations mandate that Palestine both emerged and disappeared as a modern political entity Many studies of Palestinian Arab nationalism have looked to Zionism as the primary agent of change in the region Miller assumes the impact of Jewish settlement but goes beyond these earlier studies to explore the way in which policies of the Palestine government affected the daily lives of villagers the majority of the population and their understanding of the changes occurring around them In this way what emerges is a detailed analysis of the influence for good or ill that government policy had on village community life Based largely on archival sources never before used this work allows the reader to gain a deeper appreciation of the internal life of the rural community which had previously received relatively little attention Understanding the experiences of Palestinians before 1948 helps us to comprehend immeasurably better the continuity of movements for Palestinian statehood as well as the continuing tensions and problems on the West Bank today

Sharon D. Lang, 2013-10-18 This book examines the Arabic conflict resolution method known as sulha In this process notable male elders mediate conflicts between and within Arab communities A lengthy process of political jockeying culminates in a ceremony that peaks when enemies shake hands and publicly forgive the crimes of the other The reality of actual sulha deviates considerably from the ideal but both the official framework and the actual events point to a deep seated valorization of peace and reconciliation in Israeli Palestinian society The Seed and the Soil Carol Delaney, 1991-11-14 How do the metaphors we use to describe procreation affect our view of the relative worth of each gender Carol Delaney discloses the powerful meanings condensed in the seemingly innocent images of seed and soil Drawing on her work in a small Turkish village of Sunni Muslims she shows us that the images are categorically different hierarchically ordered and unequally valued The ways in which the creation of a child is understood in Turkey furnish a key to understanding a whole range of Turkish attitudes toward sexuality and gender honor and shame authority and submission time and space inside and outside open and closed Moreover the symbols and meanings by which they represent procreation provide the means for understanding relationships between such seemingly disparate elements as the body family house village nation this world and other world Delaney points out that these symbols do not embellish reality they provide the key to a particular conception of it a conception that gives coherence to social life The patterns revealed are not distinctly Turkish they also comment on some of our own deeply held assumptions and values about procreation
