The Breakdown Of The Sinovietnamese Alliance 1970-1979:

Dessins, aquarelles... tableaux... porcelaines... Sculptures... sièges, meubles principalement du XVIII s, 1938 **The Breakdown of the Sino-Vietnamese Alliance, 1970-1979** Anne Gilks, 1992 **The Breakdown of the Sino-Vietnamese Alliance, 1970-1979** Anne Gilks, 1992 **The Sino-Vietnamese Approach to Managing Boundary Disputes** Ramses Amer, 2002 *The Chinese/Vietnamese Diaspora* Yuk Wah Chan, 2012-06-12

Over three decades have passed since the first wave of Indochinese refugees left their homelands. These refugees, mainly the Vietnamese, fled from war and strife in search of a better life elsewhere. By investigating the Vietnamese diaspora in Asia, this book sheds new light on the Asian refugee era: 1975-1991 refugee settlement and different patterns of host-guest interactions that will have implications for refugee studies elsewhere. The book provides a clearer historical understanding of the group dynamics among refugees: the ethnic Chinese, Vietnamese refugees from both the North and South, as well as the northern Vietnamese refugees. An examination of different aspects of migration, including planning for migration, choices of migration route and reasons for migration, an analysis of the ethnic and refugee politics during the refugee era, the settlement and subsequent resettlement. This book will be of interest to students and scholars of globalization, migration, ethnicities, refugee histories and politics.

Reliable Partners Charles Lipson, 2013-12-03

Democracies often go to war but almost never against each other. Indeed, the democratic peace has become a catchphrase among scholars and even U.S. Presidents. But why do democracies avoid fighting each other? *Reliable Partners* offers the first systematic and definitive explanation. Examining decades of research and speculation on the subject and testing this against the history of relations between democracies over the last two centuries, Charles Lipson concludes that constitutional democracies have a contracting advantage: a unique ability to settle conflicts with each other by durable agreements. In so doing, he forcefully counters realist claims that a regime's character is irrelevant to war and peace. Lipson argues that because democracies are confident their bargains will stick, they can negotiate effective settlements with each other rather than incur the great costs of war. Why are democracies more reliable partners? Because their politics are uniquely open to outside scrutiny and facilitate long-term commitments. They cannot easily bluff, deceive or launch surprise attacks. While this transparency weakens their bargaining position, it also makes their promises more credible and more durable. For democracies are generally stable. Their leaders are constrained by constitutional rules, independent officials and the political costs of abandoning public commitments. All this allows for solid bargains between democracies. When democracies contemplate breaking their agreements, their open debate gives partners advance notice and a chance to protect themselves. Hence, agreements among democracies are less risky than those with nondemocratic states. Setting rigorous analysis in friendly, vigorous prose, *Reliable Partners* resolves longstanding questions about the democratic peace and highlights important new findings about democracies in world politics, from rivalries to alliances. Above all, it shows conclusively that democracies are uniquely adapted to seal enduring bargains with each other.

Post-Conflict Development in East Asia Brendan M. Howe, 2016-04-08 East Asia is a region deeply affected by conflict Colonial ideological and national wars have left their scars and legacies on regional international and national governance Yet East Asian post conflict development experiences have been viewed as remarkably successful The three largest economies of East Asia Japan China and South Korea have all experienced dramatic growth but immediately prior to their periods of expansion all experienced the devastating impacts of international conflicts and or civil upheaval These post conflict development success stories do not however tell the whole tale Other states in East Asia and in particular certain regions within some of these states while apparently emerging from similar conflictual backgrounds have experienced far less positive transitions This volume critically assesses measurements of success in East Asian post conflict development from a human centered perspective This involves a major re evaluation of accepted accounts of domestic governance and international relations in East Asia from both a comparative and inter disciplinary viewpoint Case study rich this volume provides policy prescriptions for East Asian donors and actors in an effort to provide Asian solutions for Asian problems
