The Bridge That Went Nowhere:

The I-35W Bridge Collapse Kimberly J. Brown, 2018-07-01 A bridge shouldn't just fall down Senator Amy Klobuchar said after the August 1 2007 collapse of the Minneapolis I 35W eight lane steel truss bridge which killed 13 motorists injured 145 and left a collective wound on the city's psyche and infrastructure On her way to a soccer game with a fellow teammate Kimberly J Brown experienced the collapse firsthand falling 114 feet in her teammate's car to the Mississippi River Although terrified injured and in shock she survived In this sobering memoir and expos Brown recounts her harrowing experience In the aftermath of the disaster Brown became both an advocate for survivors and an unofficial whistle blower about decaying infrastructure She details her investigation and correspondence with Thornton Tomasetti engineers including the false official account of the collapse and the eventual revelation of its real causes In addition she chronicles the ongoing decay of America's bridges and the continuing challenges faced by leaders to address infrastructure problems across the country After nearly a decade of research into the collapse and her active and ongoing recovery from psychic and physical injuries Brown shares her experience and answers the questions we should all be asking Why did this bridge collapse And what could have been done to prevent this tragedy
