The Brightest Jewel E. Charles Nelson, Eileen M. McCracken, Eileen McCracken, 1987 *The British Arboretum* Paul A Elliott, 2015-10-06 This study explores the science and culture of nineteenth century British arboreta. These were fostered by a variety of factors: global trade and exploration, popularity of collecting, significance to the British economy and society, developments in science, changes in landscape gardening, aesthetics and agricultural and horticultural improvement.

Directory of Rare Book and Special Collections in the UK and Republic of Ireland Karen Attar, 2016-05-31 This directory is a handy on volume discovery tool that will allow readers to locate rare book and special collections in the British Isles. Fully updated since the second edition was published in 1997, this comprehensive and up to date guide encompasses collections held in libraries, archives, museums and private hands. The Directory provides a national overview of rare book and special collections for those interested in seeing quickly and easily what a library holds. It directs researchers to the libraries most relevant for their research, assists libraries considering acquiring new special collections to assess the value of such collections beyond the institution, showing how they fit into a unique and distinctive model. Each entry in the Directory provides background information on the library and its purpose, full contact details, the quantity of early printed books, information about particular subject and language strengths, information about unique works and important acquisitions, descriptions of named special collections and deposited collections. Readership: Researchers, academic liaison librarians and library managers.

The Doctor's Garden Clare Hickman, 2021-10-26 A richly illustrated exploration of how late Georgian gardens associated with medical practitioners advanced science, education and agricultural experimentation. As Britain grew into an ever expanding empire during the late eighteenth and early nineteenth centuries, new and exotic botanical specimens began to arrive within the nation's public and private spaces. Gardens became sites not just of leisure, sport and aesthetic enjoyment but also of scientific inquiry and knowledge dissemination. Medical practitioners used their botanical training to capitalize on the growing fashion for botanical collecting and agricultural experimentation in institutional, semipublic and private gardens across Britain. This book highlights the role of these medical practitioners in the changing use of gardens in the late Georgian period, marked by a fluidity among the ideas of farm, laboratory, museum and garden. Placing these activities within a wider framework of fashionable scientific and economic interests of the time, historian Clare Hickman argues that gardens shifted from predominately static places of enjoyment to key gathering places for improvement, knowledge sharing and scientific exploration.

The Irish Garden Peter Dale, 2018-10-30 Don't leave yet. Let there be one more piece of magic to remember the place by. Is there something especially Irish about Irish gardens? The climate, soils, availability of plants and skills of green-fingered people generate an unusually benign environment. It's true, but not one that is unique to Ireland. Irish gardens tend to avoid magnificence in favour of a quiet and domesticated beauty, but that is not peculiar to Ireland either. Strains of Irishness run through these gardens like seams of ore. Seen not just as zones of horticultural bravura but also as

reflections of historical cultural political and religious events and values the gardens accrue an unusual richness of surface and depth of meaning Atmospherically illustrated by Brian Lalor *The Irish Garden* wanders into individual gardens rather than presenting a sweeping chronology This book is a rhapsody on themes of Irishness as if the spirit and soul of Ireland itself were sometimes more visible in these places than in the more conventionally visited locations of battlefields breweries and bars *Glasnevin House* Vivienne Keely,2014-06-02 The story of Glasnevin House and Demesne now Holy Faith

Convent is intertwined with the development of the area from the time of the early monks through the medieval period when it was a farm of Christ Church to the Georgian building of Mitchell and its nineteenth century occupancy by the Lindsay family and the Sacred Heart sisters The story continues with the arrival of the Holy Faith sisters in 1865 and their ongoing stewardship and development of the land As this book opens with the contemplation of its surroundings so it closes with the description of the new centre which draws on natural beauty and the traditional spiritual influences that help us better engage with the modern world *Dictionary Of British And Irish Botanists And Horticulturalists Including plant collectors, flower painters and garden designers* Ray Desmond,2020-12-23

Over the past four centuries botanists and gardeners in the British Isles have gathered maintained and propagated many varying species of plants Their work has been documented in innumerable books and articles which are often difficult to trace The Dictionary of British and Irish Botanists and Horticulturalists represents a time saving reference source for those who wish to discover more about the lives and achievements of the horticulturalists listed The dictionary s utility comes not only from indicating the major publications of the named authors but also the location of their herbaria and manuscripts The previous 1977 edition of the Dictionary has for many years been a much used source of information for botanists botanic artists and archivists In this revised edition the scope has been expanded to include among its 13 000 entries flower painters in addition to botanical artists over 1400 entries and for the first time garden designers Finally the Dictionary should have international appeal since so many botanists and gardeners worked on collective plants overseas in particular in North America and the British Commonwealth Each entry gives wherever possible details of dates and places of birth and death educational qualifications professional posts honours and awards publications location of plant collections manuscripts drawings and portraits Its main function however is to provide further biographical references to books and periodicals Comprehensive classified indices facilitate access by professions and activities countries and plant interests *The Glorious Madness - Tales of the Irish and the Great War* Turtle Bunbury,2014-10-17

From tragic generals to nuns on the run the extraordinary stories of the Irish on the frontlines of the First World War that you ve never heard before Based on first hand accounts of the First World War *The Glorious Madness* is a collection of character portraits and stirring anecdotes that brings to life the hopes fears and ambitions that defined the generation of Irish men and women lost to the catastrophe of the first great modern war From the generals and field commanders through to the troopers and nurses on the front lines from the trenches of the Somme to the

beaches of Gallipoli the Irish served at every turn in the Great War Popular historian Turtle Bunbury is renowned for uncovering important forgotten stories from our past Here he reveals many never before heard tales of the Irish heroes and heroines whose lives coincided with one of the most brutal conflicts our world has ever known including nuns artists sportsmen poets aristocrats nationalists nurses clergymen and film directors From the dramatic story of the nuns of Ypres and their escape to Ireland to found Kylemore Abbey to the multiple escapist who became the one legged nemesis of Michael Collins and the five tragic rugby loving pals from the same Dublin team massacred at Gallipoli the stories that Turtle Bunbury unearths about Irish men and women offer a new and timely perspective on Irish participation in the Great War An important book by turns poignant enlightening whimsical and darkly comic this is history as it should free wheeling and finely tuned to the rhythms of the human heart Reviews In The Glorious Madness Turtle continues the wonderful listening and yarn spinning he has honed in the Vanishing Ireland series applying it to veterans of the First World War The stories he recreates are poignant whimsical and bleakly funny bringing back into the light the lives of people who found themselves on the wrong side of history after the struggle for Irish independence This is my kind of micro history John Grenham The Irish Times A wonderful book packed with great individual stories and pictures which bring the Irish participation in the Great War vividly alive Sean Farrell Irish Independent Based on first hand accounts of the conflict this collection of character portraits and stirring anecdotes brings to life the hopes fears and ambitions that defined Ireland s lost generation Peter Costello The Irish Catholic Turtle Bunbury s book about the Great War is a great read a dramatic confection of remarkable stories about remarkable events and individuals slapped together with great dexterity and professionalism This is military history as entertainment on a scale we have not seen since well the First World War This is one book that can be judged by its cover P draig Yeates Dublin Review of Books The impressively versatile Turtle Bunbury is known for his sensitively written well observed Vanishing Ireland series of books and his appearance on RTE s Genealogy Roadshow He also toured this year as one of the lecturers in the Great War Roadshow headed by Myles Dungan Now also marking the centenary of the outbreak of the First World War Bunbury marches into what once would have been a no man s land for historians There is much to enjoy here Bunbury has an eye for irony and pathos and a fluid attractive writing style It s packed with personalities and stories of courage under fire amid truly unimaginable slaughter of mind boggling military incompetence and of individuals emotionally afflicted by reports of courage in another cause at home Emmanuel Kehoe Sunday Business Post [Irish National Inventory of Historic Scientific Instruments](#) Charles Mollan,1995-11-15 Carried out over a period of ten years this is a listing of scientific instruments dating before 1920 preserved in many collections throughout the island of Ireland It gives location date and description for each of the more than 5 000 entries together where appropriate with relevant accompanying detail It demonstrates clearly that Ireland has an important resource which hitherto had not been appreciated It also preserves information about collections which have since been lost sold or otherwise dispersed [Nature Displaced, Nature Displayed](#)

Nuala C. Johnson, 2011-04-29 Botanical gardens brought together in a single space the great diversity of the earth's flora. They displaced nature from forest and foothill and rearranged it to reveal something of the scientific principles underpinning the apparent chaos of the wild. *Nature Displaced: Nature Displayed* shows how the design and display of such gardens was not determined by scientific principles alone. Through a study of three botanical gardens belonging to the University of Cambridge, the Royal Dublin Society, and the Belfast Natural History Society, the author shows how the final outcome involved a complex interplay of ideas about place, identity, empire, botanical science, and especially aesthetics, creating spaces that would educate the mind as well as please the senses. This highly engaging book offers a wealth of fresh insights into both the history and development of botanical gardens as well as connections between science and aesthetics.
