The British New Left

Caroline Hoefflerle

The British New Left:

The First New Left Michael Kenny, 1995 In the late 1950s Stuart Hall Edward Thompson and Raymond Williams among others came together as part of a promising new political formulation the New Left The six years of the group's formal existence represents one of the richest and most exciting periods in the intellectual history of the left in Britain This short period saw the beginning of many future theoretical developments in radical politics and the founder members of the New Left are now associated with ground breaking work in history culture and politics Michael Kenny documents and analyses the debates of the New Left showing how their preoccupations prefigure many contemporary concerns the broadening of the previously narrow definition of politics an engagement with popular culture the exploration of a Gramscian politics and the attempt to open a third space between a defunct Marxism Leninism and an intellectually barren labourist tradition **Gay**

men and the Left in post-war Britain Lucy Robinson, 2013-07-19 Available in paperback for the first time his book demonstrates how the personal became political in post war Britain and argues that attention to gay activism can help us to fundamentally rethink the nature of post war politics While the Left were fighting among themselves and the reformists were struggling with the limits of law reform gay men started organising for themselves first individually within existing organisations and later rejecting formal political structures altogether Culture performance and identity took over from economics and class struggle as gay men worked to change the world through the politics of sexuality Throughout the post war years the new cult of the teenager in the 1950s CND and the counter culture of the 1960s gay liberation feminism the Punk movement and the miners strike of 1984 all helped to build a politics of identity There is an assumption among many of today's politicians that young people are apathetic and disengaged This book argues that these politicians are looking in the wrong place People now feel that they can impact the world through the way in which they live shop have sex and organise their private lives Robinson shows that gay men and their politics have been central to this change in the post war world

British Student Activism in the Long Sixties Caroline Hoefflerle, 2013 Based on empirical evidence derived from university and national archives across the country and interviews with participants British Student Activism in the Long Sixties reconstructs the world of university students in the 1960s and 1970s Student accounts are placed within the context of a wide variety of primary and secondary sources from across Britain and the world making this project the first book length history of the British student movement to employ literary and theoretical frameworks which differentiate it from most other histories of student activism to date Globalization especially of mass communications made British students aware of global problems such as the threat of nuclear weapons the Vietnam War racism sexism and injustice British students applied these global ideas to their own unique circumstances using their intellectual traditions and political theories which resulted in unique outcomes British student activists effectively gained support from students staff and workers for their struggle for student's rights to unionize freely assemble and speak and participate in university decision making Their campaigns

effectively raised public awareness of these issues and contributed to significant national decisions in many considerable areas

Critique for What? Joel Pfister, 2016-01-08 Students want to know What does one do with critique Fortunately some of the most provocative self critical intellectuals from the postwar period to the postmodern present have wrestled with this Joel Pfister in *Critique for What* criss crosses the Atlantic to take stock of exciting British and US cultural studies American studies and Left studies that challenge the academic critique for critique s sake and career s sake business and ask Critique for what and for whom Historicizing for what and for whom Politicizing for what and for whom America for what and for whom Here New Left revisionary socialists members of the unpartied Left cultural studies theorists American studies scholars radical historians progressive literary critics and early proponents of transnational analysis interact in what amounts to a lively book length strategy seminar British political intellectuals including Raymond Williams E P Thompson Stuart Hall and Raphael Samuel and Americans including F O Matthiessen Robert Lynd C Wright Mills and Richard Ohmann reconsider the critical project as social transformation studies activism studies organizing studies Eager to prevent cultural studies from becoming cynicism studies *Critique for What* thinks creatively about the possibilities of using as well as developing critique in our new millennium

Cuba and Western Intellectuals since 1959 K. Artaraz, 2009-01-05 This timely book presents a history of the relationship between the Cuban Revolution and intellectuals and activists in France Britain and the United States exploring the complete cycle in this relationship and using it to examine the future of Cuba s symbolic status among intellectuals and activists in the West

The Left's Jewish Problem Dave Rich, 2016-09-06 There is a sickness at the heart of left wing British politics and though predominantly below the surface it is silently spreading becoming ever more malignant With three separate inquiries into anti Semitism in the Labour Party in the first six months of 2016 alone it seems hard to believe that until the 1980s the British left was broadly pro Israel And while the election of Jeremy Corbyn may have thrown a harsher spotlight on the crisis it is by no means a recent phenomenon The widening gulf between British Jews and the anti Israel left born out of antiapartheid campaigns and now allying itself with Islamist extremists who demand Israel s destruction did not happen overnight or by chance political activists made it happen This book reveals who they were why they chose Palestine and how they sold their cause to the left Based on new academic research into the origins of this phenomenon combined with the author s daily work observing political extremism contemporary hostility to Israel and anti Semitism this book brings new insight to the left s increasingly controversial Jewish problem

A Crooked Line Geoff Eley, 2008-12-18 Eley brilliantly probes transformations in the historians craft over the past four decades I found *A Crooked Line* engrossing insightful and inspiring Lizabeth Cohen author of *A Consumers Republic* *A Crooked Line* brilliantly captures the most significant shifts in the landscape of historical scholarship that have occurred in the last four decades Part personal history part insightful analysis of key methodological and theoretical historiographical tendencies since the late 1960s always thoughtful and provocative Eley s book shows us why history matters to him and why it should also matter to us Robert

Moeller University of California Irvine Part genealogy part diagnosis part memoir Eley's account of the histories of social and cultural history is a tour de force Antoinette Burton Professor of History and Catherine C and Bruce A Bastian Professor of Global and Transnational Studies University of Illinois Eley's reflections on the changing landscape of academic history in the last forty years will interest and benefit all students of the discipline Both a native informant and an analyst in this account Eley combines the two roles superbly to produce one of most engaging and compelling narratives of the recent history of History Dipesh Chakrabarty author of *Provincializing Europe* Using his own intellectual biography as a narrative device Geoff Eley tracks the evolution of historical understanding in our time from social history through the so called cultural turn and back again to a broad history of society A gifted writer Eley carefully winnows unique experiences from the universal and uses the interplay of the two to draw the reader toward an organic understanding of how historical thinking particularly the work of European historians has evolved under the influence of new ideas His work situates history within History and offers students scholars and general readers alike a richly detailed readable guide to the enduring value of historical ideas Geoff Eley is Professor of History at the University of Michigan

Keeper Of The Faith Paul Strangio, 2013-06-14 Jim Cairns is a familiar sight around the markets of Melbourne seated at a table stacked with copies of his latest book It seems an unlikely occupation for a man who was once the driving force and major thinker in the Labor Party Left a man who reached the positions of Deputy Prime Minister and Treasurer in Australia's most reformist government under Gough Whitlam Cairns post 1975 trajectory bewildered many of his one time followers not least the significant section of the baby boomer generation who rallied behind him during the Moratoriums against the Vietnam War To some he is a tragic fallen hero to others a relic of an earlier age of idealism But Cairns was never a conventional politician In this mature and sophisticated biography Paul Strangio draws a compelling picture of the inner man revealing a consistent thread running through the apparent contradictions of Cairns public career He explains how a policeman turned into a counter culture guru how an opponent of capitalism became Treasurer of Australia how a devoted husband could feel a kind of love for Junie Morosi Both highly readable and carefully researched *Keeper of the Faith* reassesses the part Cairns played in shaping Australian public life In tracing his ideological and political rivalry with Whitlam it challenges the popular nostalgia that surrounds his former leader Strangio argues that Cairns contribution to public life especially as a voice of dissent against the established order has been seriously underestimated Drawing on a rich range of archival and oral sources and recounting many fascinating anecdotes this is a masterly portrait of one of those rare people who never waver in their search for truth

The Death of the Left Simon Winlow, Steve Hall, 2022-11-15 Winlow and Hall argue that the only way to resurrect leftist politics is to begin from the beginning again and outline how a new reincarnation of the left can win in the 21st century

The Solidarity Economy Tehila Sasson, 2024-05-28 Histories of the economy often characterize the post war era as one of demoralization in which the rise of monetarism and neoliberalism marked a moral decline in public life The story Tehila Sasson tells here by

contrast uncovers the humanitarian moral and popular origins of a new form of cultural capitalism one which promised that commerce could offer ethical progress after empire Unlike the more common story about the neoliberal and conservative right it focuses on the role of the British left and the nonprofit sector in particular in this transformation It follows economists MPs campaigners activists and journalists of the British left all of whom turned away from state led development towards a vision of decentralized fair trade markets For the key actors in this story it was the state not the marketplace that was morally vacant Haunted by the specter of imperial political economy they sought to bypass the state as the primary organizer of economic life Provided by publisher
