The Bronze Age Cemetery At Gibeon:

The Bronze Age Cemetery at Gibeon James Bennett Pritchard, 1963 *The Cemetery at Tell Es-Sa'idiyeh, Jordan* James B. Pritchard, 1980-01-29 A portion of the Tell es Sa idiyeh mound was used for burials during the Bronze Age A summary of the pottery types is followed by a description of the contents of each of the 45 tombs University Museum Monograph 41

Burial Patterns and Cultural Diversity in Late Bronze Age Canaan Rivka Gonen, 1992 Winery, Defenses, and Soundings at Gibeon James B. Pritchard, 1964 An account of the discovery of the winery and systems of defense at Gibeon and the results of three soundings that supplied the best evidence for the history of the occupation of the site University Museum Monograph 26 *The Late Bronze Age and Early Iron Ages of Central Transjordan* Patrick E. McGovern, Robin Brown, 1986 A critical transition period in the archaeology and history of Palestine the Late Bronze Age and Early Iron Age is described in detail from the perspective of a group of sites in the Baq ah Valley A major emphasis is on how scientific techniques including magnetic location of undisturbed burial deposits and analytical reconstruction of very early industries can be effectively integrated into an archaeological project Contrary to traditional views the evidence supports a relatively peaceful development within a single cultural tradition rather than the intrusion of a new people or segment of the existing population by invasion migration or revolt University Museum Monograph 65 *The Late Bronze and Early Iron Ages of Southern Canaan* Aren M. Maeir, Itzhak Shai, Chris McKinny, 2019-07-08 The Late Bronze Age in the Levant is a period of much interest to archaeologists historians and biblical scholars This is a period with intense international relations rich in ancient sources which provide historical data for the period and is a crucial formative period for the peoples and cultures who play central roles in the Hebrew Bible Recent archaeological research in Israel and surrounding countries has provided new exciting and in some cases groundbreaking finds interpretations and understanding of this period The fourteen papers in this volume represent the proceedings of a conference held at Bar Ilan University in 2014 with the additional of several invited papers not presented at the conference which provide both overviews of Late Bronze Age finds from several important sites in Israel and surrounding countries as well as several synthetic studies on the various issues relating to the period These papers by and large represent a broad view of cutting edge research in the archaeology of the ancient Levant in general and on the Late Bronze Age specifically , **A Wayside Shrine in Northern Moab: Excavations in the**

Wadi ath-Thamad P. M. Michele Daviau, Margreet L. Steiner, 2017-08-31 Major recent excavations have shed much light on the complexity of Iron Age society and religion in southern Palestine a region where both Judeans and Edomites lived However it is not clear whether the religious practices attested at these sites were a reflection of localised customs or were common rituals for peoples of Cisjordan and we do not know their extent An isolated shrine site at Wadi ath Thamad Site WT 13 in northern Moab which contained numerous finds of Iron Age figurines and statues has been the subject of detailed excavation The rich harvest of figurines ceramic statues beads miniature ceramic vessels architectural models faunal remains

and shells and fossils constitutes the evidence for repeated cultic activities Although dating to the Iron Age at the time of the consolidation of the kingdom of Moab there is insufficient evidence at present to determine the full range of cultic practices and deities venerated by the peoples of the lands within ancient Moab and by those visitors to the shrine The links between WT 13 and the surrounding town sites is only now coming to light with excavation at Atarus and Khirbat al Mudayna as well as at the Ammonite site of Tall Damiyah in the Jordan Valley where a comparable shrine has recently been uncovered WT 13 clearly serves as a link between the Jordan Valley and the Negev adding to our knowledge of local and foreign influences in the region during the Iron Age

Stone Vessels in the Levant Rachael Thyrza Sparks, 2017-07-05 Examining stone vessels in the Levant during the 2nd millennium BC the author explores the links between material culture and society through a comprehensive study of production and distribution Extensively illustrated with 100 drawings maps and charts this volume includes a full object catalogue This study represents the first comprehensive overview of the stone vessel assemblages of the Levant in this period a time which fed by an increase of wealth and interregional trade saw a growth in the popularity and variety of such vessels Previously our understanding of the varied functions and forms of these diverse vessels has been relatively underdeveloped In this volume the author attempts to address this problem by creating a typological framework through which we can analyse variability and define essential characteristics of local stone vessel workshops Only once this has been achieved is it possible to look at stone vessel production in its wider cultural context Subsequent chapters explore broader themes beginning within the workshops themselves examining the links between craftsmen their sources of raw materials and the authorities that controlled and distributed their output Considerations of the geographical and chronological distribution of such goods are then used to provide a regional perspective for the operation of these workshops connections between them and further insights into the nature of local and international trade Finally the objects themselves can be used to assess the impact of trends such as the growing Egyptianization of the ruling classes of the Levant at this time

"I Will Speak the Riddles of Ancient Times" Amihay Mazar, 2006-01-01 Ami Mazar has gained a reputation as one of the most prolific and reliable archaeologists doing work in Israel during the last 40 years Not only has he participated in and directed excavations at many sites his professional standards are of the first order and what's more his publication record is enviable he has never begun a new major project before the final publication of the previous excavation was well underway Here more than 55 colleagues gather to honor him with a wide range of essays organized in 7 sections I Early Bronze Age Studies II Middle and Late Bronze Age Studies III Philistine Sea Peoples Studies IV Iron Age Studies V Historical Biblical and Epigraphic Studies VI Jerusalem Studies VII Post Iron Age Studies An international group of contributors includes E Braun I Finkelstein D Ussishkin P M Fischer R Gophna D Gazit R Greenberg P de Miroschedji B Sass M Sebbane E Yannai M Artzy M Bietak A Caubet M Yon T Dothan M Jasmin E H E Lass J C Margueron P Matthiae R S Merrillies R A Mullins A F Rainey E D Oren A Gilboa A Cohen Weinberger Y Goren A Maeir I Shai S Sherratt L E Stager E Stern O Borowski J M Cahill W G Dever A
