J. Crampton, 2005-11-24

Bulgaria became a member of the European Union in 2007 yet its history is amongst the least well known in the rest of the continent R J Crampton provides here a general introduction to this country at the cross roads of Christendom and Islam The text and illustrations trace the rich and dramatic story from pre history through the days when Bulgaria was the centre of a powerful medieval empire and the five centuries of Ottoman rule to the cultural renaissance of the nineteenth century and the political upheavals of the twentieth upheavals which led Bulgaria into three wars This updated edition includes the years from 1995 to 2004 a vital period in which Bulgaria endured financial meltdown set itself seriously on the road to reform elected its former King as prime minister and finally secured membership of NATO and admission to the European Union

Eastern Europe Kelly Mass, This book consists of 4 titles which are the following History of Bulgaria The history of Bulgaria is rich and complex tracing its roots from the earliest settlements in the region to its emergence as a modern nation state The story of the Bulgarian people is intertwined with their origins showcasing a diverse tapestry of cultures languages and traditions that have evolved over millennia History of Hungary The history of ancient Hungary begins well before the arrival of the Hungarians themselves tracing back to the Iron Age and the early cultural developments in the Carpathian Basin Around 800 BC the Iron Age began to shape this region with the emergence of Thraco Cimmerian artifact types that suggested a significant overlap between the pre Scythian cultures Novocherkassk culture and the pre Celtic Hallstatt culture This cultural intermingling marked the beginning of a complex interplay between indigenous peoples and incoming groups History of Romania The earliest evidence of human habitation in what is now Romania dates back to prehistoric times but one of the first recorded mentions comes from the writings of the ancient Greek historian Herodotus In his work Histories Book IV written around 440 BC Herodotus described the Getae a Thracian tribe residing in the region that would later

become Romania According to Herodotus the Getae were defeated by Persian Emperor Darius the Great during his military campaign against the Scythians History of Ukraine The early history of the territory now known as Ukraine is marked by a series of ancient cultures and civilizations that shaped the region s development before and during the Dark Ages The area was initially inhabited by the Dacians a group known for their connections to the wider Thracian culture alongside various nomadic tribes such as the Cimmerians Scythians and Sarmatians *Bulgaria* Vesselin Dimitrov,2013-01-11 The communist regime in Bulgaria was perhaps the most stable in Eastern Europe and its demise was brought about only by the general collapse of the Soviet bloc In the light of this what is surprising about the country s transitions to democracy and a market economy is not that it has been uneven but that it has proceeded without fundamental disruptions and is now showing some signs of consolidation The two party system that emerged from the round table negotiations in 1990 has survived remarkably intact although the parties within it have undergone considerable transformations The institutions of democracy have often been misused but have shown their ability to survive in crisis situations After a dismal record of macroeconomic mismanagement the establishment of a currency board has brought stability to the country s economy and the long delayed structural reform is finally off the ground Having survived the trials of transition Bulgaria is now faced with the more difficult task of adapting its political and economic institutions to the requirements of future EU membership The Bulgarian Question and the Balkan States Bulgaria. Ministerstvo na vŭnshnite raboti,Bulgaria. Mīnisterstvo na vŭshnītie diela ī na īzpoviedaniīata,1919 **Historical Dictionary of Bulgaria** Raymond Detrez,2014-12-18 Bulgaria is a country of extraordinary beauty with high wild mountains and gentle valleys and with picturesque cities and idyllic villages It s bordered by Romania Serbia Macedonia Greece Turkey and the Black Sea After many years of communist rule Bulgaria adopted a democratic constitution and began the process of moving toward political democracy and a market economy while combating inflation unemployment corruption and crime The country joined NATO in 2004 and the EU in 2007 This third edition of Historical Dictionary of Bulgaria covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Bulgaria The regional travel guide for Veliko Tarnovo (Bulgaria) ,2025-09-24 Armies of the Steppe Nomads, 376-1227 Gabriele Esposito,2024-12-30 Gabriele Esposito presents an overview of the history organization and equipment of the military forces deployed by the nomadic peoples of the Eurasian steppes during the period from the appearance of the Huns in Eastern Europe to the death of Genghis Khan Each chapter is devoted to a different group that played a prominent military role during Antiquity and the Middle Ages Starting with the Huns of Attila whose migration was one of the key factors behind the fall of the Roman Empire he moves on to the Avars who established a large state in Eastern Europe that contested with Charlemagne s Frankish Empire Chapter three covers the Magyars who

terrorized most of Europe during the tenth century before creating the Kingdom of Hungary Next are the Bulgars who became the worst enemies of the Byzantine Empire in the Balkans but also created a flourishing state in the Volga region of Russia The Khazars and the Alans share a chapter as do the Pechenegs and Cumans Kipchaks while the Turks merit a dedicated chapter Last but not least are the Mongols who are traced from the unification of their tribes to the death of the great Genghis Khan By describing the military organization weapons and tactics of these nomadic peoples the author shows how they dominated the battlefields of the world for almost 1 000 years thanks to their superior capabilities He also discusses how they interacted with other civilizations and how the latter learned a lot from them especially militarily Without the existence of the warlike nomadic peoples of the Eurasian steppes the history of the world would have been very different

Containing Balkan Nationalism Denis Vovchenko, 2016-07-18 Containing Balkan Nationalism focuses on the Bulgarian movement for recognition of the independent status of their national church from the Ecumenical Patriarchate of Constantinople with the effect of tearing apart mixed Greek Bulgarian Serbian Orthodox communities Vovchenko shows how conversely Russian policymakers intellectuals and prelates worked together with the Ottoman government Balkan and other diplomats and rival churches to contain and defuse ethnic conflict among Ottoman Christians through the promotion of traditional supraethnic religious institutions and identities
