The Burden Of Proof:

The Burdens of Proof Dale A. Nance, 2016-03-11 Adjudicative tribunals in both criminal and non criminal cases rely on the concept of the burden of proof to resolve uncertainty about facts Perhaps surprisingly this concept remains clouded and deeply controversial Written by an internationally renowned scholar this book explores contemporary thinking on the evidential requirements that are critical for all practical decision making including adjudication Although the idea that evidence must favor one side over the other to a specified degree such as beyond reasonable doubt is familiar less well understood is an idea associated with the work of John Maynard Keynes namely that there are requirements on the total amount of evidence considered to decide the case The author expertly explores this distinct Keynesian concept and its implications Hypothetical examples and litigated cases are included to assist understanding of the ideas developed Implications include an expanded conception of the burden of producing evidence and how it should be administered

The Burden of Proof in Comparative and International Human Rights Law Juliane Kokott, 2023-12-28 This book explores how courts decide or ought to decide in situations of uncertainty A Court must always decide the case before it even if the relevant facts remain unclear The question then arises which party benefits and which party is burdened by that uncertainty In these cases the Court must apply the rules on the burden of proof or more precisely the burden of persuasion Their importance for the individual claimant is obvious The comparison of two domestic systems one based on common law and the other a traditional code based legal order with regard to the issue of burden of proof helps to clarify the terminology and lays the ground for dealing with the burden of proof in international human rights law Without knowing what can be understood by the term burden of proof under domestic law international lawyers with different domestic law backgrounds are in danger of misunderstanding each other This may lead to obscuring the problems connected with court decisions involving uncertainty The study also deals with uncertainties with regard to legislative general in contrast to adjudicative individual facts and with uncertainties in the framework of predictions in contrast to uncertainties relating to historic facts It attempts to prepare the ground for dealing more consciously and more consistently with problems of uncertainty in international human rights law International courts due to their geographical and cultural distance from the case usually have less access to the underlying facts Nevertheless in order to protect human rights effectively international courts and tribunals cannot always restrict themselves to reviewing the law but may also have to decide on the facts Thus issues relating to decision making on the basis of uncertain facts including the burden of persuasion are even more important in international than in domestic human rights law
