The Calms Of Capricorn A Play:

The Calms of Capricorn Eugene O'Neill, 1982 Story of the westward movement of the Melody Harford family from Massachusetts to California a journey which takes them by clipper ship around the Horn **The Calms of Capricorn** Eugene O'Neill, 1981 **The Calms of Capricorn** Eugene O'Neill, 1981 **Eugene O'Neill's Last Plays** Doris Alexander, 2005 This study draws on research concerning the lives of Eugene O'Neill his family and his circle It corrects and expands the biographical record on him and distinguishes the man and his life from the creations that were inspired by and drew on that life Included are his attempted suicide his tuberculosis and his relationship with his parents The Theatre of Eugene O'Neill Kurt Eisen, 2017-11-16 Named a Choice Outstanding Academic Title of the Year 2018 The Theatre of Eugene O'Neill offers a new comprehensive overview of O'Neill's career and plays in the context of the American theatre Organised thematically it considers his modernist intervention in the theatre offers readers detailed analysis of the plays and assesses the recent resurgence in his reputation and new approaches to staging his work It includes a study of all his major plays The Emperor Jones The Hairy Ape The Iceman Cometh Long Day's Journey Into Night A Moon for the Misbegotten and Desire Under the Elms besides numerous other full length and one act dramas Eugene O'Neill is generally credited with inventing modern American drama in a time of cultural ferment and lively artistic and intellectual change Yet O'Neill's theatrical instincts were always shaped by American stage traditions that were inextricable from his sense of himself and his own national culture This study shows that his theatrical modernism represents not so much a break from these traditions as a reinvention of their scope and significance in the context of international stage modernism offering an image of national culture and character that opens new possibilities for the stage while remaining rooted in its past Kurt Eisen traces O'Neill's modernism throughout the dramatist's work his attempts to break from the themes plots and moral conventions of the traditional melodramatic theatre his experiments in stagecraft and theme and their connection to traditional theatre and his European modernist contemporaries the turn toward direct and indirect self representation and his critique of the family and of American pipe dreams and the allure of success The volume additionally features four contributed essays providing further critical perspectives on O'Neill's work alongside a chronology of the writer's life and times **Finding the Way to 'Long Day's Journey Into Night'** William Davies King, 2024-09-03 Eugene O'Neill wrote his most enduring and important plays after he won international acclaim as the first and only American playwright to receive the Nobel Prize in Literature in 1936 In the midst of the Great Depression with his health failing and spirits sunk he and his third wife former actress Carlotta Monterey moved to California to escape the materialism and commercialism of a declining West and they built a new home called Tao House A reasonably good translation of tao is the way and in this house which was largely the creation of Carlotta he found the way to his most famous play Long Day's Journey Into Night As an unusually explicit autobiographical drama this play returns to 1912 the outset of O'Neill's writing career when he confronted tragedy in his family story and found a way to

dramatize his mother father brother and himself in a way that has resonated with audiences since its publication and production in 1956 But this book argues that the play originates as much in the moment of its creation 1939 1941 in the family relationships the historical circumstances and the fact that this work would represent a moment of closure of his great career Key to this heroic story of creation is the intervention of his wife Carlotta whose diaries enable a day to day observation of how the play was written She was the driving force behind the design of Tao House and she managed the rhythms and patterns of life within its architecture It was her masterpiece just as Long Day s Journey was his This book develops a close reading of their house and marriage and also uses many of O Neill s previous plays to illuminate the breakthrough of Long Day s Journey This book is the most granular and at the same time the most far reaching inquiry into how this quintessential play was written and almost not written and how it came into the world Magnum Opus Zander Brietzke,2021-04-20 An original and provocative analysis of Eugene O Neill s unfinished cycle play project From 1935 to 1939 Eugene O Neill worked on a series of plays that would trace the history of an American family through several generations He completed just two of the proposed eleven plays A Touch of the Poet and More Stately Mansions which Zander Brietzke argues represent the core of the entire cycle Combining archival research literary analysis and theatrical imagination Magnum Opus invites an audience to see this unusual and exciting epic as a historical drama of our time

Eugene O'Neill Harold Bloom,2007 A collection of essays about the works of Eugene O Neill **Contour in Time** Travis Bogard,1988 Professor Bogard traces the progress of O Neills art from crude one act plays to the monumental tragedies of his later years all in relation to the playwrights tortured personal history The book illuminates not only the plays but also the literary aesthetic and historical influences on the playwright s development **Eugene O'Neill and the Emergence of American Drama** ,2021-11-15
