Techniques may include exaggerations of news events, scandal mongering, or sensationalism. By extension, the term yellow journalism is used today as a pejorative to decry any journalism that treats news in an unprofessional or unethical fashion. In 1919, Upton Sinclair published *The Brass Check*, a muckraking exposé of American journalism that publicized the issue of yellow journalism and the limitations of the free press in the United States. Four years after publication of *The Brass Check*, the first code of ethics for journalists was created. Upton Sinclair (1878–1968) was an American author who wrote books in many genres but in all of them advocating for the moral ethics, better life style for the working people, and social justice. Writing during the Progressive Era, Sinclair describes the world of industrialized America from both the working man's point of view and the industrialist. He has also won the Pulitzer Prize for Fiction in 1943. **The Brass Check A Study Of American Journalism** Sinclair Upton, 2023-05 *The Brass Check A Study of American Journalism* is a non-fiction book written by Sinclair Upton. The book is a scathing critique of American journalism in the early 20th century. Upton argues that the American press is controlled by the wealthy and powerful who use it to maintain their dominance and suppress dissent. The book's title refers to the brass tokens used by streetcar conductors to ensure passengers had paid their fares. Upton uses this metaphor to argue that the American press is a tool used by the wealthy to ensure that the public remains docile and compliant. Upton examines various aspects of American journalism, including the way news is gathered and reported, the role of advertising, and the relationship between the press and the government. He argues that the press is not objective but is instead driven by profit and the interests of its owners. Moreover, *The Brass Check* is a powerful indictment of the American press and remains relevant today as a critique of media ownership.

The Brass Check Upton Sinclair, 2018-12-18

Turning his muckraking talents to journalism itself, Upton Sinclair exposes a variety of the news media's ingrained biases and its agenda-serving corruption. In his famous book *The Jungle*, Upton Sinclair became famous for exposing filthy and inhumane conditions in the American meat packing industry at the turn of the 20th century. Following these revelations, new laws were made protecting factory workers and the conditions they labored in. Sinclair afterwards became a figure for condemnation; his personal life was scrutinized and made the subject of spurious gossip and rumor, the cause being that the vast majority of newspaper corporations opposed his pro-worker, pro-regulation views. The title of this book alludes to a common practice in brothels: those frequenting these establishments would buy brass checks to hand to the woman of their choice. Sinclair draws a parallel between such customers and the proprietors of the media, who delegate the promotion of their political, financial, and social agendas to journalists willing to propagate such ideas. Drawing on experiences of his own and of others, Sinclair presents here a convincing litany of claims backed by evidence against a mass media corrupted by narrow special interests and their funds. He proposes several solutions, namely a law that corrections be given equal prominence to lies and the unionization of reporters. Though *The Brass Check* was widely and wrongly condemned for inaccuracy in the years following its publication, in 1919 it is today considered a prescient account of close relations between powerful corporations and the mass media.
