The Burgundian Code Of Constitutions Or Law Of Gundobad:

The Burgundian Code, 2010-11-24 Gives the reader a portrayal of the social institutions of a Germanic people far richer and more exhaustive than any other available source from the Foreword by Edward Peters From the bloody clashes of the third and fourth centuries there emerged a society that was neither Roman nor Burgundian but a compound of both The Burgundian Code offers historians and anthropologists alike illuminating insights into a crucial period of contact between a developed and a tribal society

The Early Medieval World Michael Frassetto, 2013-03-14 This book examines a pivotal period in ancient human history the fall of the Roman Empire and the birth of a new European civilization in the early Middle Ages The Early Medieval World From the Fall of Rome to the Time of Charlemagne addresses the social and material culture of this critical period in the evolution of Western society covering the social political cultural and religious history of the Mediterranean world and northern Europe The two volume set explains how invading and migrating barbarian tribes spurred by raiding Huns from the steppes of Central Asia contributed to the fall of the Western Roman Empire and documents how the blending of Greco Roman Germanic and Christian cultures birthed a new civilization in Western Europe creating the Christian Church and the modern nation state A Z entries discuss political transformation changing religious practices in daily life sculpture and the arts material culture and social structure and provide biographies of important men and women in the transitional period of late antiquity The work will be extremely helpful to students learning about the factors that contributed to the decline of the Roman Empire an important and common topic in world history curricula

Islam and its Past Carol Bakhos, Michael Cook, 2017-06-03 Islam and its Past J hiliyya Late Antiquity and the Qur an brings together scholars from various disciplines and fields to consider Islamic revelation with particular focus on the Qur an The collection provides a wide ranging survey of the development and current state of Qur anic studies in the Western academy It shows how interest in the field has recently grown how the ways in which it is cultivated have changed how it has ramified and how difficult it now is for any one scholar to keep abreast of it Chapters explore the milieu in which the Meccan component of the Qur an made its appearance The general question is what we can say about that milieu by combining a careful reading of the relevant parts of the Qur an with what we know about the religious trends of Late Antiquity in Arabia and elsewhere More specifically the issue is what we can learn in this way about the manner in which the polytheists of the Qur an related to the Jewish and Christian traditions were they Godfearers in the sense familiar from the study of ancient Judaism It looks at the Qur an as a text of Late Antiquity not just considering those features of it that could be seen as normal in that context but also identifying what is innovative about it against the Late Antique background Here the focus is on the believers rather than the polytheists The volume also engages in different ways with notions of monotheism in pre Islamic Arabia This collection provides a broad survey of what has been happening in the field and concrete illustrations of some of the more innovative lines of research that have recently been pursued

Visions of Community in the Post-Roman World Walter

Pohl, Clemens Gantner, Richard Payne, 2016-03-03 This volume looks at visions of community in a comparative perspective from Late Antiquity to the dawning of the age of crusades It addresses the question of why and how distinctive new political cultures developed after the disintegration of the Roman World and to what degree their differences had already emerged in the first post Roman centuries The Latin West Orthodox Byzantium and its Slavic periphery and the Islamic world each retained different parts of the Graeco Roman heritage while introducing new elements For instance ethnicity became a legitimizing element of rulership in the West remained a structural element of the imperial periphery in Byzantium and contributed to the inner dynamic of Islamic states without becoming a resource of political integration Similarly the political role of religion also differed between the emerging post Roman worlds It is surprising that little systematic research has been done in these fields so far The 32 contributions to the volume explore this new line of research and look at different aspects of the process with leading western Medievalists Byzantinists and Islamicists covering a wide range of pertinent topics At a closer look some of the apparent differences between the West and the Islamic world seem less distinctive and the inner variety of all post Roman societies becomes more marked At the same time new variations in the discourse of community and the practice of power emerge Anybody interested in the development of the post Roman Mediterranean but also in the relationship between the Islamic World and the West will gain new insights from these studies on the political role of ethnicity and religion in the post Roman Mediterranean

The Civilian Legacy of the Roman Army, 2024-06-24 The Roman army represented an important social and organizational reference model for the Romano Barbarian societies which progressively replaced the Western Empire in the transition from Late Antiquity to Early Middle Ages The great flexibility of the decision making and organizational solutions used by the Roman army allowed the new lords to readapt them and thus maintain power in early medieval Europe for a long time From a perspective ranging from political social and economic history to law anthropology and linguistic this book demonstrates how interesting and fruitful the investigation of this specific cultural imprint can be in order to gain a better understanding of the origins of the civilization that arose after the fall of the Roman world Contributors are Francesco Borri Fabio Botta Francesco Castagnino Stefan Esders Carla Falluomin Stefano Gasparri Wolfgang Haubrichs Soazick Kerneis Luca Loschiavo Valerio Marotta Esperanza Osaba Walter Pohl Jean Pierre Poly Pierfrancesco Porena Iolanda Ruggiero Andrea Trisciuglio Andrea A Verardi and Ian Wood

Rapture of Canaan Sheri Reynolds, 1997-04-08 At the Church of Fire and Brimstone and Gods Almighty Baptizing Wind Grandpa Herman makes the rules for everyone and everyone obeys or else Try as she might Ninah hasn't succeeded in resisting temptation her prayer partner James and finds herself pregnant She fears the wrath of Grandpa Herman the congregation and of God Himself But the events that follow show Ninah that Gods ways are more mysterious than even Grandpa Herman understands

Paden,2016-11-11 During the twelfth and thirteenth centuries southern France witnessed first a burgeoning then a decline in the poetry of women troubadours trobairitz These women stood both within and outside the troubadour tradition so their work is interesting for social and literary historical reasons as well as for its aesthetic merit Many of their twenty eight surviving poems are love songs in which the trobairitz expresses her desire with a freshness that places her in startling contrast with the speechless unresponsive lady depicted in the poetry of male troubadours The Voice of the Trobairitz includes eleven original studies by leading scholars in America and Europe Approaching the trobairitz from varying perspectives the authors ask such questions as which poems are properly attributed to the women Which poetic forms and techniques did they employ Is there a distinctive feminine rhetoric in the poems and do they attempt to mold the role offered them by the troubadours or do they subside into passivity Paden s introduction describes the historical context of the trobairitz and he includes a checklist of the poems a meticulous bibliography and an index The Voice of the Trobairitz will be a valuable resource for all medieval scholars and students and for those interested in women s history **The Japanese**

Susan Mosher Stuard,2016-11-11 What was the status of women in the Middle Ages How have women fared in the hands of historians And what is the current state of research about women in the Middle Ages Susan Mosher Stuard addresses these questions in a collection of essays that delve in to the history and historiography of women in medieval England France Italy and Germany Contributors include Barbara Hanawalt Diane Owen Hughes Suzanne Wemple Denise Kaiser and Martha Howell One of the most interesting observations made in Women in Medieval History and Historiography is the way in which

the history of women in each country has followed a distinct course that is in rhythm with other concerns of national historical writing Women in Medieval History and Historiography will interest historians scholars of women s studies and medievalists
