The Cage A Parable:

The Cage Michael Weston, 1986-01-01 **LONG JOKES AND PARABLE'S** CLEM KADIDDLE-HOPPER, 2011-05-23 I was born into a large family of six many years ago at a very young age when butter If you could afford it was wrapped in paper margarine didn't exist groceries came from the shop in bulk wrapped by the shopkeeper in brown paper butchers paper or tissue paper which were later cut into squares and placed on a nail in the outside dunny Plastic supermarket bags were unheard of in fact supermarkets were unheard of I can remember the sides of bacon hanging from a hook on the ceiling and the shopkeeper used a long stick with a hook on the end to get them down to cut the bacon off in a slicing machine Clem was born before television faxes polio shots penicillin frozen foods photocopiers plastic contact lenses fibre optic cable and the pill Before credit cards split atoms Radar laser beams and ball point pens Before dishwashers pantyhose clothes dryers micro wave ovens electric blankets air conditioners play stations Nintendo x boxes no video at all and definitely no 100 channels on cable TV and before man walked on the moon We got married first and then we lived together We made do with what we had and we were the last generation who were naive enough to think you needed a wife to have a baby How quaint can you be In our time closets were for clothes not coming out of Bunnies were small rabbits not big girls And lemons were pieces of fruit not dud cars Designer Jeans were scheming girls named Jean and having a meaningful relationship meant getting along with your cousins Fast food was what you ate during Lent And outer space was the back of the outdoor dunny Before Day care Centres group therapy and suntan parlours Well before we heard of FM radio Tape decks VCR's electronic typewriters Heart transplants word processors personal computers mobile phones yoghurt and guys wearing earrings Time sharing meant togetherness We always had plenty of friends We went out side and found them We played cricket football chases and some time it really hurt We fell out of trees fell over got cut broke bones chipped teeth and best of all there were no lawsuits from any of our accidents simply because it was our own stupid fault and nobody was to blame but us A chip was a piece of wood Hardware meant hammers and nails and software wasn't even a word Grass was mown coke was a cold drink and pot was something you cooked in Rock music was a grandma's lullaby and aids were helpers in the headmaster's office Way back in those early days we were lucky to survive Our baby cribs were covered in brightly coloured in lead based paint There were no childproof lids on medicine bottles doors or cabinet's and when we rode our bikes we had no helmets to wear not to mention the risks we took when hitchhiking When we were children we rode in cars without seat belts or air bags Riding in the back of an old Ute on a warm day was always a special treat In those days we drank water from the garden hose and not from a bottle We ate cakes bread and butter and drank cordial with sugar in it but we were very seldom over weight because we were always outside running around and playing We shared cordial with all our friends from the same bottle and nobody actually died from this We would spend hours and hours making Billy carts out of any old scraps we managed to find around the place then race down the hill only to find that we did not have any brakes to stop After running into the scrub a

few times we managed to overcome that problem. We would leave home in the early hours of the morning and play all day as long as we were home when the streetlights came on. No body really knew where we were all day. There were no such things as electronic calculators that fitted inside your pocket; they did addition on their fingers. To subtract, they had some of their fingers amputated. Wouldn't it be nice to be back there again? My family was so poor, my mother

Thrilling Tom the Dancing Bug Stories Ruben Bolling, 2004. Cartoonist Ruben Bolling's oddball strip Tom the Dancing Bug makes waves on a weekly basis. Recognized the past two years by the Association of Alternative Newsweeklies AAN as Best Cartoon, Tom the Dancing Bug is consistently funny, pointed without being dogmatic, and takes on subjects that no one else does. An oasis of keen intelligence in the comics page according to the 2003 AAN judges. Here are just a couple headlines from the quirky strip's News of the Times: o Computer Loses to Human Candy Land Champion. Despite progress made in developing a computer program that can defeat a human chess champion, computer scientists confess that they have been unable to launch a significant challenge to human supremacy in the game of Candy Land. o Scientists Discover Media Has Quantum Effect on Reality. A team of physicists discovers that an electron is in an uncertain state until the media report on it. For example, once an electron was measured and reported upon by Mary Hart on the Celebrity Corner segment of Entertainment Tonight, it instantly assumed its nature as a particle. Tom the Dancing Bug's client list is diverse, representing the breadth of contemporary journalism: alternative newspapers such as Dallas Observer and the Village Voice; prestigious daily newspapers including the Washington Post and the Los Angeles Times; Salon.com, an acclaimed online magazine; and the New Yorker magazine.

Story Logic and the Craft of Fiction Catherine Brady, 2010-09-15. This book illuminates how technique serves story logic, the particular way fiction makes meaning. Writers raid the cupboard of theory looking for what works, and generic rules don't account for the rich variety of strategies they employ. For writers who are past the beginner stage, Brady offers a closer look at craft fundamentals, including plot, characterization, patterns of imagery, and style. The lively, lucid discussion draws on vivid examples from classic and contemporary fiction, ranging from George Eliot and William Faulkner to Haruki Murakami and Toni Morrison. Because it supplies the analytical tools needed to read as a writer, this text will enrich the reader's approach to any work of fiction, energizing discussion in a workshop or craft course.

Buddhism and Tales of the Supernatural in Early Medieval China Zhenjun Zhang, 2014-08-21. This book demonstrates the historical changes in early medieval China as seen in the tales of the supernatural: thematic transformation from traditional demonic retribution to Karmic retribution, from indigenous Chinese netherworld to Buddhist concepts of hell, and from the traditional Chinese savior to a new savior, Buddha. It also examines Buddhist imagery and the flourish of new motifs in the fantastic dreamworld and their relationship with Buddhism. This study relates the *Youming lu* to the development of popular Chinese Buddhist beliefs, attempting to single out ideas that differ from the beliefs found in Buddhist scriptures as well as miraculous tales written especially to promote Buddhism.
