Baugh,Jonathon E. Ericson,2013-03-14 In this unique volume archaeologists examine the changing economic structure of trade in North America over a period of 6 000 years Organized by geographical and chronological divisions each chapter focuses on trade in one of nine regions from the Archaic through the late prehistoric period Each contribution explores neighboring areas to illustrate the complexity of North American exchange By charting the economic structure of these regions archaeologists economic anthropologists and economic geographers gain greater insight into the dynamics of North American trade and exchange on a continental wide basis **Water Resources Development by the U.S. Army Corps of Engineers in Idaho** ,1993 **U.S. Geological Survey Professional Paper** ,1924 The Pleistocene of the Western Region of North America and Its Vertebrated Animals Oliver Perry Hay,1927 *Library of Congress Subject Headings* Library of Congress,2010 **Status and Trends of the Nation's Biological Resources** ,1998

Return to the River Richard N. Williams,2005-11-21 Return to the River will describe a new ecosystem based approach to the restoration of salmon and steelhead populations in the Columbia River once one of the most productive river basins for anadromous salmonids on the west coast of North America The approach of this work has broad applicability to all recovery efforts throughout the northern hemisphere and general applicability to fisheries and aquatic restoration efforts throughout the world The Pacific Northwest is now embroiled in a major public policy debate over the management and restoration of Pacific salmon The outcome of the debate has the potential to affect major segments of the region's economy river

transportation hydroelectric production irrigated agriculture urban growth commercial and sport fisheries etc This debate centered as it is on the salmon in all the rivers has created a huge demand for information The book will be a powerful addition to that debate A 15 year collaboration by a diverse group of scientists working on the management and recovery of salmon steelhead trout and wildlife populations in the Pacific Northwest Includes over 200 figures with four color throughout the book Discusses complex issues such as habitat degradation juvenile survival through the hydrosystem the role of artificial production and harvest reform
