Roland Cook,2009-08 More than any other major religion ideology or philosophy Christianity associates sex and especially sexual desire with sin and evil People may be able to avoid earthly punishment for their sexual indiscretions but they can not escape God s judgment an afterlife of eternal pain and suffering in hell Religious sanctions of this sort are supposed to be in opposition to man s sinful nature restraining his dangerous sexuality However punishing others for sex is actually part of man s nature In nature sex is highly competitive Dominant males fight and threaten as they try to control sexual access to fertile females Human males behave similarly Rather than being in opposition to human nature religion actually reinforces

man's animal instinct to control the sexual behavior of others. This explains why religion inspired sexual restrictions and punishments are so popular among men. Of course religion claims that it's really all about morality. Without strict religious control over sexual behavior, human passions would lead to the destruction of society. God has given us His law in order to protect us from ourselves. Religion, it is often said, is what is good for society. But if this is so, why is it that those societies where religious belief is strongest and which have the harshest penalties for breaking the sexual code are also the societies that tend to be the least orderly and the most corrupt, brutal and violent? Religion is taken very seriously in many of the Islamic societies of the Middle East and the strictest sexual code is adhered to. Yet these societies are characterized not by prosperity and social order but by poverty, violence and oppression. Meanwhile the most sexually liberal societies, especially those of Western Europe, are the freest and the most democratic, prosperous and orderly. If strict sexual morality is not really good for society, why do religious conservatives everywhere continue to clamor for it? And why do people so willingly accept religion that tells them their sexuality is sinful and shameful? The truth is that most of the time people act on their own selfish feelings and desires, not on what is good for society as a whole. The desire to limit and control the sexual behavior of others is felt by women as well as men. Powerful feelings such as sexual jealousy inspire aggressive behavior. Strict anti-sex religious morality allows people to act aggressively on these feelings in a socially acceptable way. Thus it's not really about doing what is good for society; it's all about individual desires. This is best explained from an evolutionary perspective, which is exactly what this book does.

before **Food Aversion Learning** N. Milgram, 2013-11-11 During the past 10 years the study of learned aversions to foods has become one of the most popular areas of research in animal psychology Learned aversions to foods are typically produced in the laboratory by first allowing an animal to eat or drink some distinctively novel substance and then making the animal ill in some way most frequently by either giving it an injection of some illness producing drug such as lithium chloride or by exposing it to a toxic dose of radiation When an animal that has been treated in this way is subsequently given another opportunity to ingest the same or a similar substance one usually observes that it will either totally avoid ingesting the substance or that it will consume less of it than a control animal that was not made ill after previously consuming the same substance This form of learning has attracted the interest of many researchers because there are two apparently striking differences in the acquisition of food aversions and the acquisition of other types of associative learning *Best Hikes with Kids* Laure Latham, 2011-07-28 [CLICK HERE](#) to download two sample hikes from Best Hikes with Kids San Francisco Features more than 100 kid friendly trails A comprehensive guide for families hiking in the Bay Area In this colorful guidebook to the best family trails in the entire Bay Area including Sonoma and Santa Cruz counties author Laure Latham developed her list of hikes not just through personal experience but also by interviewing local parent groups to hear what families really want when they hike with kids Beyond detailed trail descriptions Best Hikes with Kids San Francisco Bay Area features Info on junior ranger kid recognition programs Guidebook section on environmental awareness for kids Trail safety and how to easily identify poison oak and poison hemlock Stroller friendly and dog friendly hikes Trails near campgrounds playgrounds or quality picnic areas Best hikes accessible via Bay Area public transit Best hikes with nearby farms or nature museums [Canine and Feline Behavior for Veterinary Technicians and Nurses](#) Debbie Martin, Julie K. in Learning English Iii , Snake, Rolling in Hot Bud Jones, 2000 Snake Rolling in Hot is a historical novel about a squadron of Marine Corps helicopter pilots and their crews. It is a true accounting about flying and fighting in Vietnam as well as the training of aircrews before they were sent to Southeast Asia. The combat operations take place in I Corps in Vietnam and from the decks of navy carriers in the South China Sea. The story also takes a look at some of the wild R R escapades Marines experienced in Hong Kong, Bangkok, the Philippines, and other hot spots around the world. There is also a provocative look at the political scene in the U S during the war in Vietnam and how it affected several of the characters in the book in ways they never thought possible when the war began. With dialog that snaps with electricity and realism, Snake Rolling in Hot takes the reader into the cockpits of Marine choppers during action-packed missions flown against the Viet Cong and North Vietnamese Army. After reading this book, no one will ever feel the same about helicopters and their crews again.
