So Reason Can Rule Reflections On Law And Politics:

So Reason Can Rule Scott Milross Buchanan,1982 From Violence to Peace Alex Deagon,2017-08-24 This book contributes to the literature on jurisprudence and theology by arguing for the role of a theoretically robust Christian theology in a legal community dominated by secular and liberal ideology It is not a doctrinal or empirical analysis but a theoretical exposition of the way in which modern law has contingently drifted from its theological origins As a result the legal system and the ideal of individual and communal relationship it envisages is characterised by antagonism and alienation or more broadly violence The book contends that the way to restore a legal community of peace is to return to a Christian theology which is informed by Trinitarian thinking or the notion of unity in diversity and reunites faith with reason Returning reason to its ground in being allows peaceful persuasion by the revelation of God s perfect being through the Trinity and Incarnation which models and enables the peaceful coexistence of difference through self sacrificing love This in turn produces the law of love to love your neighbour as yourself Since love does no wrong to a neighbour a legal community operating by the law of love can fulfil the obligations of law by going beyond merely what is required by law and love individuals as part of a community Archival Theory, Records, and the Public Trevor Liverton,Society of American Archivists,2003 Now in paperback Liverton considers the nature of public records from an archival perspective analyzing concepts rather than the daily realities with which public records archivists deal However his carefully reasoned conclusions provide a strong foundation on which principled rather than ad hoc decisions can be made and so will be of interest to teachers students and practitioners of archival science The author presents a general or theoretical view of public records as documents made or received and preserved by the sovereign or its agents in the conduct of governance This analysis is illustrated by a variety of examples including a discussion of freedom of information *The Chairman: John J McCloy & The Making of the American Establishment* Kai Bird,2017-01-10 Exhaustively researched and remarkably evenhanded The New York Times Absorbing the definitive life story Kirkus Reviews A fascinating study Los Angeles Times In *The Chairman* the authoritative biography of John J McCloy Pulitzer Prize winning author Kai Bird chronicles the life of the man labeled the most influential private citizen in America Against the backgrounds of World War II the Cold War the construction of Pax Americana the Cuban missile crisis the Kennedy assassination and Vietnam Bird shows us McCloy s astonishing rise from self described chore boy to chairman of the Establishment His powerful circle shaped the postwar globe But McCloy stood out among them as a towering figure of achievement as a Wall Street lawyer who earned the confidence of captains of industry and presidents as Henry Stimson s right hand man at the War Department as president of the World Bank and chairman of the Chase financial empire and as presidential adviser Bird captures every facet of this self made man We see McCloy s commercial acumen as the most in demand lawyer of Wall Street his dictatorial will as high commissioner of occupied Germany and his stoic loyalty as adviser to Presidents FDR Truman Eisenhower Kennedy Johnson Carter Ford and Reagan Bird brilliantly explores how McCloy came

to epitomize the American Establishment and the values of a generation that led the United States through bitter war and unparalleled prosperity

Liberalism Marcus G. Raskin, 2004 Contrary to those who believe that liberalism has descended into the dustbins of history renowned political activist and social critic Marcus G Raskin argues that there is no escape from liberalism Against the empty headed and mean spirited conservative onslaught of recent times Raskin asserts and ably demonstrates how the liberal purpose is tied to human liberation and inclusivity for all people For liberalism to succeed in a new century it must reckon with its past mistakes especially its reluctance to be bold It must also embrace the inextricably interwoven character of morality and politics To this end Raskin seeks no less than a new intellectual and spiritual covenant in the university the political economy and foreign policy He shows how this is possible through a radical rethinking of America's role in the world including war avoidance and economic restructuring He probes the tensions and limits as well as the promise of community family and technology He helps us to recognize the potential of a new multiculturalism within American society and the important role that knowledge workers and specialists will play as change agents in a changed world

Liberalism: The Genius of American Ideals traces Raskin's remarkable journey of the last 50 years through social and political action as well as thought It is a book for people in motion who realize the importance of humane ideas in relation to action aware that it is not only that peace should be given a chance but that our best instincts must also be engaged through the reconstruction of our institutions In the face of a new distinctly uncompassionate brand of conservatism that has shuttered the doors to the very real world of struggle alienation and pain Liberalism is intended to hold out a candle in the window of this dark time

Plato and Modern Law Richard O. Brooks, 2017-07-05 This audacious collection of modern writings on Plato and the Law argues that Plato's work offers insights for resolving modern jurisprudential problems Plato's dialogues in this modern interpretation reveal that knowledge of the functions of law based upon intelligible principles can be reformulated for relevance to our age Leading interpreters of Plato Vlastos Hall Strauss Weinrib Annas and Morrow are included in the collection The editor supplies an insightful introduction and extensive bibliography to the collection

Michigan Law Review, 1982 *Kirkus Reviews*, 1982 Adult books are categorized by genre i.e. fiction mystery science fiction nonfiction Along with bibliographic information the expected date of publication and the names of literary agents for individual titles are provided Starred reviews serve several functions In the adult section they mark potential bestsellers major promotions book club selections and just very good books in the children's section they denote books of very high quality The unsigned reviews manage to be discerning and sometimes quite critical

Legal Symbolism Jiří Přibáň, 2016-04-22 Jiří Přibáň's book contributes to the field of systems theory of law in the context of European legal and political integration and constitution making It puts recent European legislative efforts and policies especially the EU enlargement process in the context of legal theory and philosophy Furthermore the author shows that the system of positive law has a symbolic meaning reflecting how it also contributes to the semantics of political identity democratic power and

moral values as well as the complex relations between law politics and morality

Political Representation in the Later Middle Ages Hwa-Yong Lee, 2008 This book explores the theory of political representation as articulated by the fourteenth century Italian thinker Marsilius It combines historical research on Marsilius with an analysis of the contemporary theory of representative democracy Modern theorization of political representation identifies the relation between the represented and the representative as a central theme In order to assess how a representative system can reasonably be expected to operate for the benefit of the whole people political representation must be understood through a comprehensive conception of the political process as a whole To this end Marsilius provides us with a perspective from which to examine the philosophical foundations of political representation and to reconsider the nature and significance of political representation that is an understanding of political representation in terms of the transfer of power This book suggests that in modern democratic societies where the people effectively cease to be a political agent and their formal authority becomes increasingly notional Marsilius conception of political representation which rejects the depoliticisation and deauthorisation of ordinary citizens has much to offer It can in principle offer a coherent alternative approach to building political representation as an effective scheme of public action for all

The Oxford Handbook of Political Obligation , 2025-09-28 The Oxford Handbook of Political Obligation offers an authoritative up to date overview of research in this field In recent decades scholars have developed strong criticisms of the traditional reasons given to explain political obligations At present skepticism about the possibility of a convincing account may well be the dominant position in the literature These philosophical developments run alongside changed political and social circumstances In recent years Western political systems have come under suspicion with citizens led to question traditional reasons why they should obey them Additional factors renewing interest in political obligation include the emergence of new democracies in Eastern Europe occasioned by the fall of the Soviet Union and unrest in many American cities especially over issues of racial justice This Handbook has two main foci contemporary philosophical debates about political obligation and responses to political social circumstances that raise questions about requirements to obey the law Traditional theories of obligation are addressed in a series of essays by well known authorities while additional essays canvass new approaches including the possibility of legitimate states without moral requirements to obey them and skeptical conclusions from important theorists Responses to political and social circumstances include civil disobedience and more radical approaches In addition political obligations are addressed as they bear on emerging democracies and unjust and authoritarian regimes

Cyclopædia of Political Science, Political Economy, and of the Political History of the United States John Joseph Lalor, 1886

Political, Economic and Legal Effects of Artificial Intelligence Georgios I. Zekos, 2022-03-07 This book presents a comprehensive analysis of the alterations and problems caused by new technologies in all fields of politics It further examines the impact of artificial intelligence AI on the nexus between politics economics and law The book raises and answers several important questions What is the role of AI in politics Are people prepared for the challenges presented by

technical developments How will AI affect future politics and human society How can politics and law deal with AI s disruptive technologies What impact will AI and technology have on law How can efficient cooperation between human beings and AI be shaped Can artificial intelligence automate public decision making Topics discussed in the book include but are not limited to digital governance public administration digital economy corruption democracy and voting legal singularity separation of power constitutional rights GDPR in politics AI personhood digital politics cyberspace sovereignty cyberspace transactions and human rights This book is a must read for scholars and students of political science law and economics as well as policy makers and practitioners interested in a better understanding of political legal and economic aspects and issues of AI
