from students of politics or policy anywhere across the globe The framework presented and the cases included in these pages provide a glimpse of the workings of a complex democracy describing a range of actors responding creatively to the dynamics of social political and economic change It is fascinating to see how policy functions and social values appear to be more important to these processes than the formal structures of the government in which they are placed Beryl A Radin Professor of Public Administration and Policy State University of New York at Albany Migration, Class and Transnational Identities Val Colic-Peisker, 2010-10-01 Val Colic Peisker harnesses concepts and theories from sociology anthropology and political science to compare the vastly different experiences of two Croatian immigrant cohorts in the city of Perth Western Australia The populations explored represent an earlier group of working class migrants arriving from communist Yugoslavia from the 1950s to 1970s and a later group of urban professionals arriving in the 1980s and 1990s as independent or skills based migrants This latter group integrated into professional ranks but also used their Australian experience as a stepping stone in becoming part of a highly mobile global professional middle class Employing a refined theoretical analysis this rich ethnography challenges the domination of the ethnic perspective in migration studies and the idea of ethnic community itself It emphasizes the importance of class focusing on the intersection of class ethnicity and gender in the process of migration migrant incorporation and transnationalism In theorizing the connection of the two migrant cohorts with their native Croatia the study introduces concepts of ethnic and cosmopolitan transnationalism as two distinctive experiences mediated by class

**Images Of Japanese Society Hb** Ross Mouer,Yoshio Sugimoto,2013-10-28 The popular image of Japanese society is a stereoetypical one that of a people characterised by a coherent set of thought and behaviour patterns applying to all Japanese and transcending time Ross Mouer and Yoshio Sugimoto found this image quite incongruous during their research for this book in Japan They ask whether this stereoetype of the Japanese is not only generated by foreigners but by the Japanese themselves This is likely to be a controversial book as it does not contribute to the continuing mythologising of Japan and the Japanese The book examines contemporary images of Japanese society by surveying an extensive sample of popular and academic literature on Japan After tracing the development of holistic theories about the Japanese commonly referred to as the group model attention is focused on the evaluation of that image Empirical evidence contrary to this model is discussed and methodological lacunae are cited A sociology of Japanology is also presented In pursuit of other visions of Japanese society the authors argue that certain aspects of Japanese behaviour can be explained by considering Japanese society as the exact inverse of the portayal provided by the group model The authors also present a multi dimensional model of social stratification arguing that much of the variation in Japanese behaviour can be understood within the framework as having universal equivalence *An Interdisciplinary Approach to Early Childhood Education and Care* Susanne Garvis,Matthew Manning,2017-02-03 *An Interdisciplinary Approach to Early Childhood Education and Care* explores early childhood education and care in Australia from a variety of perspectives highlighting the complexity of working within the field and the need for a truly interdisciplinary approach It argues that only a holistic understanding of each perspective will allow a clear future for early childhood education within Australia and that all government parties should provide better outcomes around policy and provision to ensure the support and development of the sector Chapters offer insights into how children and families are positioned in educational reform by examining current government policy as well as individual and collective initiatives Key paradigms considered include positivist behavioural developmental economic sociocultural and postmodern

models Garvis and Manning identify challenges to the field and propose improvements needed to develop an interdisciplinary approach to help close the disadvantage gap on educational outcomes With recommendations aimed at stakeholders within different disciplines it is hoped that this book will encourage significant improvements to early childhood education and care within Australia Providing important insights into the landscape of early childhood education and care this book will promote new ways of thinking of policy and provision development for the future As such it will be of interest to researchers academics and postgraduate students in the fields of early years education education policy and politics and sociology of education as well as those studying childcare alongside economics criminology and sociology     David Williamson David Williamson,1988     **Creating White Australia** Jane Carey,Claire McLisky,2009-11-16 The adoption of White Australia as government policy in 1901 demonstrates that whiteness was crucial to the ways in which the new nation of Australia was constituted And yet historians have largely overlooked whiteness in their studies of Australia s racial past Creating White Australia takes a fresh approach to the question of race in Australian history It demonstrates that Australia s racial foundations can only be understood by recognising whiteness too as race Including contributions from some of the leading as well as emerging scholars in Australian history it breaks new ground by arguing that whiteness was central to the racial ideologies that created the Australian nation This book pursues the foundations of white Australia across diverse locales It also situates the development of Australian whiteness within broader imperial and global influences As the recent apology to the Stolen Generations the Northern Territory Intervention and controversies over asylum seekers reveal the legacies of these histories are still very much with us today     **On the Home Front** Kate Darian-Smith,2009-04-01 What really happened on the Australian home front during the Second World War For the people of Melbourne these were years of social dislocation and increased government interference in all aspects of daily life On the Home Front is the story of their work leisure relationships and their fears for by 1942 the city was pitted with air raid trenches and in the half light of the brownout Melburnians awaited a Japanese invasion As women left the home to replace men in factories and offices the traditional roles of mothers and wives were challenged The presence of thousands of American soldiers in Melbourne raised new questions about Australian nationalism and identity and the carnival spirit of many on the home front created anxiety about the issues of drunkenness gambling and sexuality Kate Darian Smith s classic and evocative study of Melbourne in wartime draws upon the memories of men and women who lived through those turbulent years when society grappled with the tensions between a restrictive government and new opportunities for social and sexual freedoms     **Remapping Gender in the New Global Order** Marjorie Griffin-Cohen,Janine Brodie,2007-06-11 This book analyses changes in gender relations as a result of globalization in countries on the semi periphery of power Semi periphery refers to those nations which are not drivers of change globally but have enough economic and political security to have some power in determining their own responses to global forces Individual countries obviously face challenges that are to some extent unique although the prescriptions for

economic and social restructuring are based on a common competitive logic Remapping Gender in the New Global Order draws on examples from four countries on the semi periphery of power but still located in the top category of the UNDP's Human Development Index At one end is Norway one of the world's richest and most developed welfare states and at the other is Mexico a country that is considerably poorer and more susceptible to the power of the United States and international agencies Australia and Canada the other two semi peripheral countries examined are in the middle Also included are comparisons with the epicentre of the core base of power the United States The individual chapters focus on the effect on specific groups of people including males and indigenous groups the mechanisms people use to both cope with dramatic social changes and the strategies and alliances that are used to affect the course of changes It covers topics that range from implications of labour migration on care regimes to globalism's effect on masculinity and the male breadwinner model

**Unequal Chances** Anthony Francis Heath, Sin Yi Cheung, 2007-10-25 The first major cross national study of ethnic minority disadvantage in the labour market Standard analyses using the most authoritative datasets enable the reader to make precise comparisons The study reveals that most groups of non European ancestry continue to experience substantial ethnic penalties in the second and later generations
