Ken E. Shaw

The Gulf Energy And Global Security Political And Economic Issues:

The Gulf, Energy, and Global Security Charles F. Doran, 1991 That cheap gasoline is here to stay has been a belief shared by many in the United States Europe and Japan But it is not the conclusion drawn by the authors of this study On the contrary they are unanimous in their judgment that by the year 2000 the West is likely to be far more dependent than it is now on imported oil from the Gulf a region in which the eruption of conflict as evidenced by Iraq s recent aggression against Kuwait is likely to send energy prices spiraling *The Politics and Security of the Gulf* Jeffrey R. Macris, 2010-01-21 Since the 19th century the Gulf region has been an area of intense interest having been influenced first by the British and more recently by the Americans This book charts the changing security and political priorities of these two powers and how they have shaped the region Adopting a narrative approach the author provides background history on British involvement from the 19th century and a detailed analysis of the years after the Second World War when oil supply became more critical He covers the growth of US influence and the British withdrawal and follows more recent changes as the US built up its military presence following Desert Storm and the invasion of Iraq Looking at the three enduring missions fulfilled by the British maintaining interstate order protecting the free flow of commerce which later included petroleum and keeping out other Great Powers the book demonstrates how these had by 1991 been assumed almost entirely by the American leaders A comprehensive and thorough look at the history of the Gulf and the contemporary issues affecting the region this will be essential reading for students of Middle East history military history and diplomatic history Visit the author s website at www.thepoliticsandsecurityofthegulf.com **Gulf Security in the Twenty-First Century** David E. Long, Christian Koch, 1998-08-27 The connection between regional instability and the preservation of global security is nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s resurgent military threat choices and constraints confronting US Middle East policy and Europe s inability to identify and pursue a united policy to safeguard its economic interests in the area These topics are further illuminated with an analysis of Russia s historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security Similarly the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states To round out the book s topical coverage several contributors shed light on the region s unfettered dependence on foreign labor growing demographic

pressures associated social and economic transformations and challenges to responsive public policy **Gulf Security in the Twenty-First Century** Prof. Jamal Sanad Al-Suwaidi,2014 The connection between regional instability and the preservation of global security is nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s resurgent military threat choices and constraints confronting US Middle East policy and Europe s inability to identify and pursue a united policy to safeguard its economic interests in the area These topics are further illuminated with an analysis of Russia s historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security Similarly the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states To round out the book s topical coverage several contributors shed light on the region s unfettered dependence on foreign labor growing demographic pressures associated social and economic transformations and challenges to responsive public policy **Ibss: Political Science: 1991** British Library of Political and Economic Science,1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences The A to Z of the Gulf Arab States Malcolm C. Peck,2010-04-12 The A to Z of the Gulf Arab States comes at a time when the world s attention is riveted on the Middle East The small states covered in this volume Bahrain Kuwait Oman Qatar and the United Arab Emirates UAE possess about 20 percent of the world s total oil reserves Beyond the strategic and economic importance conferred upon them by their vast oil reserves the Gulf Arab states are worthy of attention for the inherent interest of their history and culture No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations The A to Z of the Gulf Arab States is a paperback reprint of the Historical Dictionary of the Gulf Arab States This edition covers the history of the five countries through a chronology broken down by country a list of acronyms and abbreviations an introductory essay a bibliography and several hundred cross referenced dictionary entries on important persons places and events of each country Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world **Historical Dictionary of the Gulf Arab States** Malcolm C. Peck,2007-12-20 The second

edition of the Historical Dictionary of the Gulf Arab States comes at a time when the world's attention is riveted on the Middle East. The small states covered in this volume Bahrain, Kuwait, Oman, Qatar, and the United Arab Emirates (UAE) possess about 20 percent of the world's total oil reserves. Beyond the strategic and economic importance conferred upon them by their vast oil reserves, the Gulf Arab states are worthy of attention for the inherent interest of their history and culture. No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states. Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon which was virtually unknown previously except through rare references in the records of other civilizations. This expanded second edition covers the history of the five countries through a chronology broken down by country, a list of acronyms and abbreviations, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries on important persons, places, and events of each country. Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world.

Higher Education in the Gulf Ken E. Shaw, 1997 This book will be of value to those in the West and in the Middle East with an interest in the contemporary state of the higher educational system in the region and in comparative education in general. It concentrates on the Gulf but the problems of control, development, curriculum, and purpose in higher education are general throughout the Middle East. Its contributors are mainly academics working in universities in the Gulf region. Higher Education in the Gulf stresses the need for engagement with the problems of the Gulf States as developing countries and the roles which practical, locally based research can play in promoting balanced, self-reliant development. For too long work in the West relating to the Gulf has concentrated on oil, military, and political issues, and this book looks beyond these to the neglected areas of social, cultural, and human capital aspects of modernisation. It is deliberately intended to suggest and promote research.

Handbook of War Studies II Manus I. Midlarsky, 2000 Essays reflecting the most recent theoretically and empirically oriented research on international warfare.

Crude Awakenings Steve A. Yetiv, 2010-12-15 The real story of global oil over the past twenty-five years is not about the spillover effects of Palestinians fighting Israelis or terrorist attacks on U.S. forces in Saudi Arabia and Yemen or Iraq's stormy relationship with Kuwait. It is not even about periodic small and large-scale U.S. attacks on Iraq. Rather, the real story is about longer-term developments that have changed the international relations of the Middle East, politics at the global level, and world oil markets. These developments have increased oil stability. From the Introduction: Thirty years after OPEC shattered world markets for oil, the Western world remains profoundly dependent on foreign, particularly Middle Eastern, sources of petroleum. U.S. political rhetoric is suffused with claims about the vulnerability caused by this dependence. Hence many political analysts assume that a search for stability of petroleum supplies is an important element of contemporary American foreign policy. Steve A. Yetiv argues that common assumptions about oil markets are wrong. Although prices remain volatile, Yetiv's account portrays a world market in petroleum products far more benign and predictable than

the one to which we are accustomed In *Crude Awakenings* he identifies and analyzes real and potential threats to the global energy supply including wars revolutions coups dangerous alliances oil embargoes Islamic radicalism and transnational terrorism However he also shows how some of these threats have been mitigated and how global oil security has been reinforced

The Encyclopedia of War, 5 Volume Set Gordon Martel, 2012-01-17 This ground breaking 5 volume reference is a comprehensive print and electronic resource covering the history of warfare from ancient times to the present day across the entire globe Arranged in A Z format the Encyclopedia provides an overview of the most important events people and terms associated with warfare from the Punic Wars to the Mongol conquest of China and the War on Terror from the Ottoman Sultan Suleiman the Magnificent to the Soviet Military Commander Georgi Konstantinovich Zhukov and from the crossbow to chemical warfare Individual entries range from 1 000 to 6 000 words with the longer essay style contributions giving a detailed analysis of key developments and ideas Drawing on an experienced and internationally diverse editorial board the Encyclopedia is the first to offer readers at all levels an extensive reference work based on the best and most recent scholarly research The online platform further provides interactive cross referencing links and powerful searching and browsing capabilities within the work and across Wiley Blackwell s comprehensive online reference collection Learn more at www.encyclopediaofwar.com Selected by Choice as a 2013 Outstanding Academic Title Recipient of a 2012 PROSE Award honorable mention

Energy Joseph Russell Rudolph, 1995 A road map for the novice researcher contemplating the broad field affected by and concerned with energy

Professional Journal of the United States Army, 1991

Review of Current Military Literature, 1991

Arab Regional Organizations, 1992-01-01 Over the past four decades the Arab nations have exercised an enormous political and economic influence on world events Much of that impact has been exerted not through the direct actions of individual governments but collectively or indirectly through pan Arab organizations economic associations such as OPEC or through international agencies including the United Nations and the International Monetary Fund Arab Regional Organizations is a fully annotated bibliographic guide to the functions infrastructures and effectiveness of Arab organizational activity The organizations covered in this volume have grown in importance in lockstep with developments in the Middle East This is particularly so in the areas of economics and energy where there has been the establishment of national control over the oil industry and a consequent economic boom Institutions such as the Gulf Cooperation Council have also become vital to the continued political stability of the member states and to the strategic importance of the region as illustrated by the Iran Iraq war and the Persian Gulf War The book also takes note of the special economic importance of organizations such as the Kuwait Saudi and Abu Dhabi Funds These perform a major role among developing nations because of their project aid and technical assistance programs Arab Regional Organizations covers a variety of subjects but concentrates on economics energy politics and development subjects A lengthy introductory section is designed to provide readers with the background of each organization and to direct them to other sources of information A

supplementary section deals with the effects of the Iraqi invasion of Kuwait and the Gulf War Researchers librarians economists political scientists and Middle East specialists will find this volume an invaluable guide to the literature of the region The new Europe : challenges for U.S. policy ,1991 *The Kingdom of Saudi Arabia* David E Long,Sebastian Maisel,2010-09-26 This second edition has been thoroughly revised and updated and includes new chapters on tradition and modernity and on Islam and society It features extensive analysis of the substantial political economic and social changes that have taken place in the past ten years including 9 11 the U S war on terror the Saudi war on terror oil pricing and technological advancements *US-Kuwaiti Relations, 1961-1992* Chookiat Panaspornprasit,2004-08-02 After being granted full independence in 1961 Kuwait began its tumultuous relationship with the US This book sets out to investigate this alliance within the frameworks of a small state and influence and in particular under the US presidents Carter Reagan and Bush The political diplomatic and military aspects are examined which have both stalled and enhanced the bilateral relationship at different times and events The relationship between the two countries has not always been a straightforward one Kuwait overshadowed by its bigger neighbour Saudi Arabia was regarded as a derivative interest by the US and its role within the region more often than not underestimated Shedding new light on this key political alliance the book details how this uneasy relationship evolved while Kuwait maintained its independent foreign policy which contradicted US national interest Illuminating and informative it is essential reading for anyone with an interest in Middle East politics and international relations *The Palgrave Encyclopedia of Global Security Studies* ,2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world Quarterly Review of Military Literature ,1992
