Jacobson,1999-09-01 America s racial odyssey is the subject of this remarkable work of historical imagination Matthew Frye Jacobson argues that race resides not in nature but in the contingencies of politics and culture In ever changing racial categories we glimpse the competing theories of history and collective destiny by which power has been organized and contested in the United States Capturing the excitement of the new field of whiteness studies and linking it to traditional historical inquiry Jacobson shows that in this nation of immigrants race has been at the core of civic assimilation ethnic minorities in becoming American were re racialized to become Caucasian *Austria 1867-1955* John W. Boyer,2022-09-15 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began

in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914-1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance

Patterns in the Dark Lindsay Buroker, 2014-12-14 Everyone knows dragons have been extinct for over a thousand years Everyone is wrong At least one dragon remains and military scientists from the Cofah Empire are experimenting with its blood using the magical substance to power deadly new weapons that could be used to bring the world to its knees That's a concern for Zirkander Cas and the rest of the Iskandians but all Tolemek wants is to find his missing sister The last time he saw her their father had locked her in an asylum because of a mental illness with no cure Now the military has taken her What use the
