The Cancer Odyssey Margaret Brennan Bermel, MBA, 2011-03-10 Chemotherapy is the greatest fraud ever perpetrated upon the American public This statement must reach the public consciousness The Big Pharma FDA complex must be exposed as a cartel colluding not on curing cancer but on generating profits Does chemotherapy work Maybe sometimes with some specific cancers But very often it does not work The best weapon used in the war on cancer traces its genesis to mustard gas The cancer may die but the collateral damage is the patient s life Approximately 600 000 Americans die each year ostensibly from cancer but are they actually dying from treatment A very provocative question Bill Henderson interviews Margaret Bermel about her new book called The Cancer Odyssey Bill says I really enjoyed your book If everyone would read it BEFORE they get the cancer diagnosis and go into fear orbit the millions of unnecessary cancer deaths would end Here is a direct link where you can listen to it or download it plain mp3 audio file http://webtalkradio.net/s/bill_henderson/task_search/How_to_Live_Cancer_Free/The_Cancer_Odyssey_by_Margaret_Bermel

No More Cancer Gary Null, 2014-07-29 One word strikes more fear into a person s mind than any other CANCER The physical mental emotional and financial toll that comes with a cancer diagnosis is immense and affects not only cancer patients but also families and entire communities This year alone approximately 600 000 Americans will lose their lives to cancer and the forecast shows no signs of improving Recent estimates tell us that 41 percent of all Americans will be diagnosed with cancer during their lifetimes and 21 percent of the population will lose their lives to this devastating disease Cancer has evolved into a national crisis that touches each and every one of us The vast majority of individuals who lose the battle against cancer are treated with the standard orthodox therapy These people may never have questioned their oncologists believing that they were in the best possible hands with their physicians advanced education knowledge of latest treatments and all the tools of modern research at their disposal In

this groundbreaking book Gary Null debunks the commonly accepted belief that drugs and chemotherapy are the only cures for cancer and explores the alternative treatments that most mainstream doctors will never discuss with their patients Dr Null asserts that there are foods and supplements that boost the body's immune system and can actually prevent and reverse cancer Did you know that eating lemons and melons can help balance your body's pH which will help prevent and treat cancer You knew that fiber is important for a healthy diet but did you know that it lowers the risk of breast colorectal uterine and prostate cancers Have you heard of maitake mushrooms which kill cancer cells by enhancing the activity of T helper cells In addition to diet Dr Null discusses important supplements and herbs and cutting edge therapies you may never have heard of With twenty five cancer fighting recipes and testimonials from individuals who have found health through Dr Null's methods this book could save your life

Mammoth Books presents Political Conspiracies and Mind Control Jon E. Lewis, 2012-07-26 Everyone loves a good conspiracy From the Jonestown massacre and the Philadelphia experiment to Nazi gold and the moon landing there are umpteen conspiracy theories that even the least sceptical of us can recall and discuss at length Entire libraries have been furnished and internet forums filled with this cultural phenomenon in which complex threads are weaved together to explain

McKinney,2008-06 *Conspiracy Encyclopedia* Thom Burnett,2006 Conspiracies are everywhere they are the lifeblood of politics business and our daily lives this truly international and all embracing encyclopedia explains the details of the world s major popular conspiracies listing them chronologically under subject matter and cross referencing them continually because so many conspiracy theories interact on some level Conspiracies are often international in their sweep and their impact the brutal stabbing of Julius Caesar the conspiracy which has defined political assassinations ever since plunged the Roman Empire into civil war which then engulfed much of the known western world More recently the Cambridge spies Philby Blunt MacLean and Burgess helped Russia throughout WWII and then re defined the Cold War afterwards Philby s defection casting a 30 year shadow over CIA Anglo American relations though conspiracies define our everyday lives there is no body of serious academic research to understand their role nature or defining characteristics Most historians prefer to adhere to the cock up theory of history in which everything happens by accident or incompetence Although this view is favoured by academics and historians it is rejected by a large part of the general public who prefer the evidence of their own lives However they consume their media what they see is a mesh of conspiracies that define the texture of their everyday lives often for the worst Most people believe that there is a grain of truth in most theories about conspiracies this book is for them
