A crit. ed. of Brit. Museum loan ms. 35 Henry Lawes, 1968 **The Henry Lawes Autograph Song Manuscript** Henry Lawes, Joan Strait Applegate, 1966 The Guitar in Stuart England Christopher Page, 2017-11-16

This is the first history of the guitar during the reign of the Stuarts a time of great political and social upheaval in England In this engaging and original volume Christopher Page gathers a rich array of portraits literary works and other previously unpublished archival materials in order to create a comprehensive picture of the guitar from its early appearances in Jacobean records through its heyday at the Restoration court in Whitehall to its decline in the first decades of the eighteenth century The book explores the passion of Charles II himself for the guitar and that of Samuel Pepys who commissioned the largest repertoire of guitar accompanied song to survive from baroque Europe Written in Page s characteristically approachable style this volume will appeal to general readers as well as to music historians and guitar specialists **The Complete Poetry of Robert Herrick** Robert Herrick, 2013-10 Volume II breaks new ground by printing the fifty nine surviving manuscript poems by which Herrick was known for most of his life This volume provides the scores and notes on the nature of performance of all of his songs for which contemporary settings survive **The Circulation of Poetry in Manuscript in Early Modern England** Arthur F. Marotti, 2021-05-26 This study examines the transmission and compilation of poetic texts through manuscripts from the late Elizabethan era through the mid seventeenth century paying attention to the distinctive material social and literary features of these documents The study has two main focuses the first the particular social environments in which texts were compiled and second the presence within this system of a large body of usually anonymous rare or unique poems Manuscripts from aristocratic academic and urban professional environments are examined in separate chapters that highlight particular collections Two chapters consider the social networking within the university and London that facilitated the transmission within these environments and between them Although the topic is addressed throughout the study the place of rare or unique poems in manuscript collections is at the center of the final three chapters The book as a whole argues that scholars need to pay more attention to the social life of texts in the period and to little known or unknown rare or unique poems that represent a field of writing broader than that defined in a literary history based mainly on the products of print culture **English Manuscript Studies, 1100-1700** Peter Beal, Jeremy

Griffiths,1993-01-01 Encompassing the study of manuscripts produced in the British Isles between the Conquest and the end of the seventeenth century this series provides a forum for the interdisciplinary investigation of both medieval and Renaissance manuscripts

John Milton's Aristocratic Entertainments Cedric C. Brown,1985-09-05 This book is a comprehensive account of Milton s two aristocratic entertainments Arcades and Comus in the context of their original occasions and in the light of Milton s developing sense of vocation as a poet in the earlier part of his career The book is especially original in the amount of socio historical information it offers about the relationship between the independent and pastorly poet and his aristocratic patrons and about the degree to which Milton was prepared to work within the constraints and decorum of the Caroline masque and country house entertainment A particular feature of the book is the analysis of changes in the texts of the two entertainments from the earliest version in the Trinity College manuscript through to the first printings considering Milton s changing manner of
