

A black and white photograph of an elderly woman, likely of Middle Eastern descent, wearing a dark headscarf. She is resting her head on her right hand, with her fingers interlaced. Her face is wrinkled, and she has a somber expression. The background is blurred, showing what appears to be a doorway or a window.

## **The Hidden History Of Zionism:**

**The Hidden History of Zionism** Ralph Schoenman, 1988 A forceful challenge to the conventional understanding of Zionism and the state of Israel The author concludes by articulating his own formula for a just society in the future a democratic and secular Palestine where rights flow from citizenship rather than ethnic or religious identity *The Hidden History of Zionism* Ralph Schoenman, 1988

**The Hidden History of the Balfour Declaration** Sahar Huneidi, 2019-06-27 Contained on a single page the Balfour Declaration was sent by Arthur Balfour the British Foreign Secretary to Lord Rothschild a leader of the British Jewish community in November 1917 It read in part His Majesty s Government view with favour the establishment in Palestine of a national home for the Jewish people This brief missive was to be critical in determining the history of the Middle East from the creation of the state of Israel in 1948 to the present day And yet despite its importance the true origins of the Declaration remain obscure The Declaration Sahar Huneidi observes was a work of carefully crafted ambiguity It was this deliberate openness that allowed the British government years later to reshape its meaning and even the history of its drafting to support specific foreign policy ends This process Huneidi argues was facilitated by a subsequent document a little known handwritten memo by the Under Secretary of the Colonial Office William Ormsby Gore recounting from memory discussions surrounding the Declaration s drafting Employing careful detective work and a rich knowledge of the subject matter Huneidi reveals how faced with a paucity of official records Ormsby Gore s account became the basis for a decision on Palestine that had devastating consequences for the stability of the region This concise eloquent book provides a vivid case study of the rewriting and repurposing of history and compellingly recontextualizes the ongoing struggles of Israel Palestine Sahar Huneidi has a BA in Political Science from the American University of Beirut and a Ph D from the University of Manchester where her thesis formed the basis of her subsequent published work on Herbert Samuel She has contributed numerous articles to academic journals and has edited studies on Israel Palestine She has also received diploma certificates in art history from Christie s Education She is the director of East West Publishing and lives mainly in London

**Palestine** Sumaya Awad, Brian Bean, 2020-12-01 This essay collection presents a compelling and insightful analysis of the Palestinian freedom movement from a socialist perspective In Palestine A Socialist Introduction contributors examine a number of key aspects in the Palestinian struggle for liberation These essays contextualize the situation in today s polarized world and offer a socialist perspective on how full liberation can be won Through an internationalist anti imperialist lens this book explores the links between the struggle for freedom in the United States and that in Palestine and beyond Contributors examine both the historical and contemporary trajectory of the Palestine solidarity movement in order to glean lessons for today s organizers They argue that in order to achieve justice in Palestine the movement must take up the question of socialism regionally and internationally Contributors include Jihad Abusalim Shireen Akram Boshar Omar Barghouti Nada Elia Toufic Haddad Remi Kanazi Annie Levin Mostafa Omar Khury

Petersen Smith and Daphna Thier      **Queer Sinister Things: The Hidden History of Iran** Tomas B. Phillips, 2011-02-16  
Phillips delivers a refreshingly honest and deeply compelling narrative of the history of modern Iran With the feel of a great historical novel Philips pierces through the ideological biases which have shaped our understanding of the Middle East Cold War and the Iranian people On every page we witness the complexity of governing a developing nation torn internally by the demands of liberal constitutional republicans radical Socialists and radical Islamists and externally between the opposing powers of East and West In *Queer Sinister Things* Phillips by passes the version of events dominant in today s academic and media circles relying instead on the stories provided by those who documented developments in and about Iran as they happened This living history highly recommended for students educators journalists policy makers and lovers of history everywhere will forever change your understanding of this ancient land and its people      *By the Gift and Power of God* Leo

Kappa, 2018-06-12 Although Christian academics such as Dr Stephen Webb Margaret Barker and Richard Mouw classify the Latter Day Saints as Christian most ordinary believing Christians remain unaware of just how very Christ centered the LDS Church is and what a strong position the church holds scripturally and theologically Many Christians today have never had the opportunity to consider the numerous Bible prophecies fulfilled by the Book of Mormon the prophet Joseph Smith the historic Christian apostasy and the prophecies of Gods great and marvelous latter day work which is a new dispensation to set things rightnamely the restoration we announce to the world Christians everywhere must be informed about what God has done for them in these times and why it was necessary as we all prepare for the glorious return of our Lord Jesus with a vast host of angels to judge the earth      **Antisemitism and the American Far Left** Stephen H. Norwood, 2013-08-19

Stephen H Norwood has written the first systematic study of the American far left s role in both propagating and combating antisemitism This book covers Communists from 1920 onward Trotskyists the New Left and its black nationalist allies and the contemporary remnants of the New Left Professor Norwood analyzes the deficiencies of the American far left s explanations of Nazism and the Holocaust He explores far left approaches to militant Islam from condemnation of its fierce antisemitism in the 1930s to recent apologies for jihad Norwood discusses the far left s use of long standing theological and economic antisemitic stereotypes that the far right also embraced The study analyzes the far left s antipathy to Jewish culture as well as its occasional efforts to promote it He considers how early Marxist and Bolshevik paradigms continued to shape American far left views of Jewish identity Zionism Israel and antisemitism      Partitioning Palestine John Strawson, 2010-04-09 Law lies at the roots of the Palestinian Israeli conflict Jews sought a national home by Public Law while Palestinians reject the project as illegal Britain the League of Nations and the United Nations all mobilised international law to justify their interventions After the 1967 war Israel organised an occupation with excessive legalism that most of the world viewed in fact as illegal *Partitioning Palestine* focuses on three key moments in the Palestinian Israeli conflict the League of Nations Mandate the United Nations partition plan and the Oslo agreements None of these documents are neutral but rather encode a variety of

meanings The book traces the way in which these legal narratives have both shaped national identity and sharpened the conflict In this pioneering text John Strawson argues that a committed attachment to the belief in legal justice has hampered the search for a settlement Law far from offering conflict resolution has reinforced the trenches from which Palestinians and Israelis confront one another      *Yes, I Am Your Brother* Nuri Madina, 2016-07-20 Muslims and African Americans are the two most misunderstood groups in America today yet both groups have been a part of American life from its beginning Today it is the African American that most represents the aspirations of both groups They are a new people a people who have overcome a history of oppression yet retained the good human character that is the saving grace of humanity But we first have to acknowledge that we all have one Creator share one common origin and are part of one brotherhood of man It is this people the African American Muslim that represents those ideals and who presents a model for humanity going forward

*The Democracy That Never Was* Gary Teeple, 2025-02-28 Liberal democracy is usually treated as an independent variable as possessing the absolutes of democratic rule Its variable forms changing principles and practice and conscious destruction by its own advocates in particular the United States however suggest that it is not what it appears to be This book argues that it is a dependent variable the political form required by the changing configurations of national capital and their countervailing forces The forms of liberal democracy have always shifted in concert with the mode of production as their premise The absolutes of liberal democracy the author contends have never been anything but the abstracted principles of the marketplace Their nature has now become especially visible for what they have been because the premise as national capital development has changed leaving liberal democracy as a form without its original content and its present content out of keeping with a national jurisdiction As a political form it persists but its role has been transformed from the regulation of national capital accumulation to the enforcer of the demands of global configurations of capital It is a role that its citizens implicitly understand as revealed in widespread political cynicism decreasing electoral participation and declining legitimacy that require ever greater measures of deceit from political leaders and increased means of coercive social control including militarized police forces and pervasive electronic surveillance There can be no going back to the stage of national politics because the neoliberal content of liberal democratic policies represents the necessities of global capital And it is the contradictions of global capital that define the character of early 21st century political conflict      **The Hidden History of 9/11** Paul Zarembka, 2011-01-04 How much insider trading occurred in the days leading up to 9 11 How compromised is the evidence against alleged hijackers Why were there no military interceptions To what extent does the testimony of more than five hundred firefighters differ from official reports of what happened at the World Trade Center buildings that day How inseparably connected are Western covert operations to al Qaeda How is Islamophobia used to sustain US imperialism What was the 9 11 Commission With contributions from Nafeez Mosaddeq Ahmed Four Arrows David Ray Griffin Jay Kolar David MacGregor Diana Ralph Kevin Ryan and Bryan Sacks this path breaking work examines 9 11 and its background showing

how much remains unknown and where further investigation and debate is needed *Hidden Histories* Basem L. Ra'ad, 2010-06-04 For thousands of years Palestine and the Eastern Mediterranean have been subject to constant colonial interference which has disenfranchised the indigenous population from their own history Basem L Ra ad uncovers this history and begins the process of reconnecting it with its rightful owners Orientalist ideologies colonial projects and Zionist cultural takeovers have contributed profoundly to the revisionism of Palestine s history Drawing upon research in archaeology linguistics and history Ra ad dispels many of the myths relating to religions languages peoples and sites What emerges from this recovery is the presence of native people a forgotten submerged and subaltern who stubbornly endure from ancient Canaan to contemporary Palestine Demanding that we unlearn whitewashed colonial histories *Hidden History* is a process of recovery de colonization revision and inclusivity *Traces of Racial Exception* Ronit Lentin, 2018-08-09 Positioning race front and centre this book theorizes that political violence in the form of a socio political process that differentiates between human and less than human populations is used by the state of Israel in racializing and ruling the citizens of occupied Palestine Lentin argues that Israel s rule over Palestine is an example of Agamben s state of exception Goldberg s racial state and Wolfe s settler colony the Israeli racial settler colony employs its laws to rule besieged Palestine while excluding itself and its Jewish citizen colonists from legal instruments and governmental technologies Governing through emergency legislation and through practices of exception emergency necessity and security Israel positions itself outside domestic and international law Deconstructing Agamben s Eurocentric theoretical position Lentin shows that it occludes colonialism settler colonialism and anti colonialism and fails to specifically foreground race instead she combines the work of Wolfe who proposes race as a trace of settler colonialism and Weheliye who argues that Agamben s western centric understanding of exception fail to speak from explicitly racialized and gendered standpoints Employing existing media activist and academic accounts of racialization this book deliberately breaks from white Western theorizations of biopolitics exception and bare life and instead foregrounds race and gender in analysing settler colonial conditions in Israel *Histories of the Hidden God* April D DeConick, Grant Adamson, 2016-04-08 In Western religious traditions God is conventionally conceived as a humanlike creator lawgiver and king a being both accessible and actively present in history Yet there is a concurrent and strong tradition of a God who actively hides The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible a God who is both immanent and transcendent present and absent Western Gnostic esoteric and mystical thinking capitalizes on the hidden and hiding God He becomes the hallmark of the mystics Gnostics sages and artists who attempt to make accessible to humans the God who is secreted away *Histories of the Hidden God* explores this tradition from antiquity to today The essays focus on three essential themes the concealment of the hidden God the human quest for the hidden God and revelations of the hidden God **Understanding Israel/Palestine** Eve Spangler, 2019-05-15 The Israeli Palestinian conflict is the longest on going hot and cold war in the 20th and 21st

century In this book the author argues that human rights standards are the key to a just and sustainable solution and that tragically no one has ever made serious use of them in trying to end the conflict The reader will have a comprehensive view of the conflict its relationship to surrounding world events and its similarities to and differences from other conflicts especially those embedded in American race relations

**The Modern Middle East** Emory C. Bogle, 1996 Examines the tumultuous history of the Middle East from 1800 to 1958 It integrates developments all over the region into a comprehensible narrative that enables readers to see the connection between significant historical events and the effects particular developments had upon one another It covers such areas as the Ottoman Empire the Russo Turkish War of 1877 the British occupation of Egypt Lebanon s religious diversity the beginning of the Turkish Nationalist Movement Palestine cultural unity under Islam Arab nationalism Iraq s rejection of Western affiliation Saudi Arabia s new wealth and prominence and the Ottoman Empire For Middle Eastern historians

**Three Perspectives: Jewish, Christian, and Muslim** Steven H. Propp, 2009-12-30 Youre Jewish arent you This blunt question is the way that college freshman Richard Cohn is introduced to an outspoken fellow student named Dov Epstein who calls himself a Messianic Jew and believes that God has a special purpose for the Jewish people in these Last Days Raised by secular Jewish parents Richard is completely oblivious to his own Jewish background until this ongoing dialogue forces him to confront his own heritage The two young men vigorously argue with each other over the interpretation of the Hebrew Bible particularly its reputed predictions of a Messiah Christian doctrines such as the Trinity and most significantly about the identity and significance of Jesus of Nazareth The rigorous process of self examination this initiates leads Richard to embrace his Jewish identity even as he vehemently denies the same for Dov The two ultimately become fast friends but as they progress from an academic environment to the professional world they are challenged by racist statements made by prominent national figures anti Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself Circumstances in life connect them with a young Iranian migr named Jahangir Khatami whose Muslim beliefs conflict strongly with their own Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities While they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11 2001 Join a diverse cast of characters some of whom appeared in the authors earlier book *Beyond Heaven and Earth* in a probing exploration that may help you reconsider just what it means to be Jewish Christian or Muslim in the modern world

Middle East Report , 1989 *The Publishers Weekly* , 1925

Levinas, Ethics, and the Israeli-Palestinian Conflict Norman K. Swazo, 2025-05-30 This book engages with the philosophical thought of French Jewish philosopher Emmanuel Levinas It studies some of his Talmudic readings and his concern for a Jewish universal ethics It does so in relation to the protracted Israeli Palestinian conflict and the moral imperatives that apply to the conduct of the State of Israel and the Israeli Defense Forces IDF vis a vis the

Palestinian people The book not only looks at what Levinas understands about the moral universality of the Talmud but also applies this understanding to the assessment of the IDF military operations ongoing in Gaza since October 7 2023 In this way the author makes a distinction between the moral teaching of rabbinic Judaism to which Levinas appeals for its universality on the one hand and the ideology of political Zionism on the other hand to which Levinas subscribed hence moral critique of the latter required in view of this moral teaching A unique contribution this book will be indispensable to scholars and researchers of European philosophy Jewish ethics religious studies Talmudic studies and contemporary moral philosophy as well as those interested in the Israeli Palestinian conflict
