The Master:

The Master's Tools Michael McCarthy, 2025-01-07 Finance serves the rich and powerful We need to democratize it Why is democracy so broken and how might it be fixed In *The Master's Tools* award winning author Michael A McCarthy argues the answer can be found in the flows of credit and investment bound up with finance capital Today finance guides and constrains our politics but there is no reason why this must be so In this groundbreaking work McCarthy develops a political and social theory of institutional transformation rooted in the interconnectedness of finance and democracy Inspired by ancient Athens where small groups chosen by lottery were used to ensure democratic participation he shows how democracy and working class power can be strengthened by introducing new forms of financial governance focusing on the inclusion of historically excluded groups His proposals for democratic financial institutions point the way to imbuing finance with a socio environmental purpose and the funding of a just green transition social housing and other necessary public goods And these financial institutions might be the first step toward a whole new kind of economy *Cheering Words for the Master's*

Elizabeth I's Court Theatre W. R. Streitberger, 2016-02-26 *The Masters of the Revels and Elizabeth I's Court Theatre* places the Revels Office and Elizabeth I's court theatre in a pre modern patronage and gift exchange driven world of centralized power in which hospitality liberality and conspicuous display were fundamental aspects of social life W R Streitberger reconsiders the relationship between the biographies of the Masters and the conduct of their duties rethinking the organization and development of the Office re examining its productions and exploring its impact on the development of the commercial theatre The nascent capitalist economy that developed alongside and interpenetrated the gift driven system that was in place during Elizabeth's reign became the vehicle through which the Revels Office along with the commercial theatre was transformed Beginning in the early 1570s and stretching over a period of twenty years this change was brought about by a small group of influential Privy Councillors When this project began in the early 1570s the Queen's revels were principally in house productions devised by the Master of the Revels and funded by the Crown When the project was completed in the late 1590s the Revels Office had been made responsible for plays only and put on a budget so small that it was incapable of producing them That job was left to the companies performing at court Between 1594 and 1600 the revels consisted almost entirely of plays brought in by professional companies in the commercial theatres in London These companies were patronized by the queen's relatives and friends and their theatres were protected by the Privy Council Between 1594 and 1600 for example all the plays in the revels were supplied by the Admiral's and Chamberlain's Players which included writers such as Shakespeare and legendary actors such as Edward Alleyn Richard Burbage and Will Kempe

The queen's revels essentially became a commercial enterprise paid for by the ordinary Londoners who came to see these companies perform in selected London theatres which were protected by the Council The Ship-master's Assistant and Owner's Manual David Steel,1803 **Masters Liens on Certain U.S. Vessels** United States. Sasaki The notes nearly six hundred in all are almost entirely based on primary sources and thus retain their value despite the nearly forty years since their preparation They provide a rich context for Linji s teachings supplying a wealth of information on Tang colloquial expressions Buddhist thought and Zen history much of which is unavailable anywhere else in English This revised edition of the Record of Linji is certain to be of great value to Buddhist scholars Zen practitioners and readers interested in Asian Buddhism
