Yahalom, 2024-07-22 This book follows the origins of the Keduṣṣa a sequence of poems that leads up to the epitome of Jewish prayer the Keduṣṣa or Sanctus It tracks back the earliest forms of prayer in late antiquity and by doing so defines the main characteristics of this genre both from the standpoint of Rhetoric and poetics This genre draws from Midrash and Mysticism adjacent literary forms that influence liturgical poetry How has such an enigmatic and complex liturgical genre survived the twists and turns of history and is recited to this day for over 1500 years The answer to this question pertains to both form and content When analyzing form we address rhyme alphabetical acrostics and different poetic forms Those all have a specific rhetorical function in determining the structure of the poem pushing it forward and musically aligning the different segments The form cannot be detached from narratology referencing early midrash and mysticism In addition the emotional approach of the private prayer can express one s existential pain as part of an oppressed community We can follow the composition of the prayer book for each community over the ages through the first millennium starting with Geniza fragments to the European prayer books Finally these poems use of sophisticated etymology correlation by sound leads to innovative Medieval interpretation of the Torah It seems that the combination of a public recitation simulating a divine choir the musicality of the text and emotional depth all contributed to this eternal poetic genre to penetrate cross cutting traditions of prayer throughout the ages **The Anthology in Jewish Literature** David Stern, 2004-10-07 The anthology is a

ubiquitous presence in Jewish literature arguably its oldest literary genre going back to the Bible itself and including nearly all the canonical texts of Judaism the Mishnah the Talmud classical midrash and the prayerbook In the Middle Ages the anthology became the primary medium in Jewish culture for recording stories poems and interpretations of classical texts In modernity the genre is transformed into a decisive instrument for cultural retrieval and re creation especially in works of the Zionist project and in modern Yiddish and Hebrew literature No less importantly the anthology has played an indispensable role in the creation of significant fields of research in Jewish studies including Hebrew poetry folklore and popular culture This volume is the first book to bring together scholarly and critical essays that investigate the anthological character of these works and what might be called the anthological habit in Jewish literary culture the tendency and proclivity for gathering together discrete sometimes conflicting traditions and stories and preserving them side by side as though there were no difference conflict or ambiguity between them Indeed The Anthology in Jewish Literature is the first book to

recognize this habit and genre as one of the formative categories in Jewish literature and to investigate its manifold roles The seventeen essays each of which focuses on a specific literary work many of them the great classics of Jewish tradition consider such questions as What are the many types of anthologies How have anthologists editors even printers of anthologies been creative shapers of Jewish tradition and culture What can we learn from their editorial practices How have politics gender and class figured into the making of anthologies What determinative role has the anthology played in creating the Jewish canon How has the anthology served especially in the modern period to create and recreate Jewish culture This landmark volume will interest educated laypersons as well as scholars in all areas of Jewish literature and culture as well as students of world literature and cultural studies

Characterization in Midrash and Medieval Jewish Bible Commentaries Sivan Nir, 2024-12-13 Sivan Nir meticulously examines the reimaginings of the biblical figures Balaam Jeremiah and Esther in a wide range of Jewish texts from second century rabbinic sources to medieval Jewish biblical commentaries Nir s unique approach analyzes the continuity or lack thereof that emerges when characterization is viewed in relation to and in contrast with its cross cultural context including the contemporary conventions found in Hellenistic rhetoric and novels Byzantine Christian literature Islamic adab and Mu tazila literature and more Such an approach reveals a transition from typological depictions to richer more lifelike portrayals a transformation shaped by rival notions of literature and history Nir translates the sources into accessible English for students and scholars of not only Jewish exegesis but also those in Christian theology Islamic studies and world literature
