The Medieval Medea:

The Medieval Medea Ruth Morse, 1996 Wide ranging study of the myth of Medea concentrating on but not exclusively confined to its medieval incarnation

Descartes's Fictions Emma Gilby, 2019-03-15 Descartes's Fictions traces common movements in early modern philosophy and literary method Emma Gilby reassesses the significance of Descartes's writing by bringing his philosophical output into contact with the literary treatises exempla and debates of his age She argues that humanist theorizing about poetics represents a vital intellectual context for Descartes's work She offers readings of the controversies to which this poetic theory gives rise with particular reference to the genre of tragicomedy questions of verisimilitude or plausibility and the figures of Guez de Balzac and Pierre Corneille Drawing on what Descartes says about and to his many contemporaries and correspondents embedded in the early modern republic of letters this volume shows that poetics provides a repository of themes and images to which he returns repeatedly fortune method error providence passion and imagination for instance Like the poets and theorists of his age Descartes is also drawn to the forms of attention that people may bring to his work This interest finds expression in the mature Cartesian metaphysics of the Meditations as well as later in the moral philosophy of his correspondence with Elisabeth of Bohemia or the Passions of the Soul This volume thus bridges the gap between Cartesian criticism and late humanist literary culture in France

The Woman and the Dragon in Premodern Art Sharon Khalifa-Gueta, 2025-10-01 The motif of the woman and the dragon has been prevalent in Western art since antiquity yet has hitherto remained understudied and artworks featuring this motif in Western Mediterranean cultures have been examined primarily in relation to the topos of the male dragon slayer This book analyzes artistic images of women and dragons over an extensive period from Classical Greece and Rome with forays to Egypt and Mesopotamia to the early modern period in Western Europe The unique methodology employed in the study of this motif reveals its sacred core as well as its relationship to rituals of fertility and oracular knowledge to the liminal realm between life and death and to the symbolism of Great Mother goddesses At the same time the images explored throughout expose stereotypes and biases against women in unusual positions of power which were embedded in the motif and persisted in Western European art

Unbinding Medea Heike Bartel, 2017-07-05 Medea simply to mention her name conjures up echoes and cross connections from Antiquity to the present The vengeful wife the murderess of her own children the frail suicidal heroine the archetypal Bad Mother the smitten maiden the barbarian the sorceress the abused victim the case study for a pathology For more than two thousand years she has arrested the eye in paintings reverberated in opera called to us from the stage She demands the most interdisciplinary of study from ancient art to contemporary law and medicine she is no more to be bound by any single field of study than by any single take on her character The contributors to this wide ranging volume are Brian Arkins Angela J Burns Anthony Bushell Richard Buxton Peter A Campbell Margherita Carucci Daniela Cavallaro Robert Cowan Hilary Emmett Edith Hall Laurence D Hurst Ekaterini Kepetzi Ivar Kvistad Catherine Leglu Yixu Lue Edward Phillips

Elizabeth Prettejohn Paula Straile Costa John Thorburn Isabelle Torrance Terence Stephenson and Amy Wygant **The Book of Gladness / Le Livre de Leesce** Jehan Le Fèvre, 2013-10-24 The Book of Gladness ca 1380 contains one of the most powerful original and influential pro feminine voices of the late Middle Ages In a spirited riposte to the misogynist tradition Le Fèvre with the help of Gladness his lady persona boldly reinterprets the Bible while questioning ancient authorities in the light of true experience especially his own Despite its foundational importance this work has never been translated into English The present prose translation is lively and accessible yet thoroughly grounded in scholarship An Introduction explains the textual challenges hindering the full recognition of this classic up to now and elucidates its contribution to the medieval debate on the nature and status of women and marriage Also included is the first ever English translation and discussion of a newly discovered scribal interpolation on Christine de Pizan in a manuscript of Jehan Le Fèvre's Lamentations The bibliography provides the first complete list of manuscripts containing the French Lamentations and Le Livre de Leesce

The Recovery of Beauty: Arts, Culture, Medicine Corinne Saunders, David Fuller, 2015-08-22 An interdisciplinary collection of essays exploring the complex and conflicted topic of beauty in cultural arts and medicine looking back through the long cultural history of beauty and asking whether it is possible to recover beauty Medea's Long Shadow in Postcolonial Contexts Ana Filipa Prata, Rodrigo Verano, 2024-06-10 This interdisciplinary volume explores the ancient Greek myth of Medea and its global analogues found in other mythic and folk tales of deadly exiled women such as those of La Malinche and La Llorona examining the connections between these figures and their depictions from antiquity to modernity The book considers the figure of the foreign woman her exile fratricide and infanticide in its ancient Greek form and in global postcolonial receptions in a range of media including drama film novels and the visual arts The chapters illuminate the contradictions of considering the classical Medea as a central reference point for analysis of other female figures from peripheral territories while simultaneously acknowledging the insights that such comparisons can yield Emphasizing the ways in which Medea's seditious nature enables the establishment of an extensive and heterogeneous intertextual network with other mythic characters who represent a similarly disruptive role in their specific local historical and cultural contexts the book argues for a comparative analysis that is equally attentive to myths and folk tales from all regions These essays by scholars of classics comparative and world literatures and postcolonial studies represent a plurality of perspectives from different academic contexts in Africa Latin America North America and Europe and examine how different cultures have depicted women foreigners crime and abjection The foundations of Greek myth and subsequently of the classical tradition itself are interrogated from a postcolonial perspective In tracing the portrayals of Medea and other mythic women through the overlapping features of different female characters and plots and intertwining local cultural and literary materials with broader debates this volume challenges Eurocentric narratives of power and cultural domination and works to decentralize the discussion of Medea from the exclusive domain of classical studies Medea's Long Shadow in Postcolonial Contexts will be
