## **The Merrill Studies In The Octopus:**

*The Merrill Studies in The Octopus* Richard Allan Davison,1969      **Working the Garden** William Conlogue,2003-01-14  
In 1860 farmers accounted for 60 percent of the American workforce in 1910 30 5 percent by 1994 there were too few to warrant a separate census category The changes wrought by the decline of family farming and the rise of industrial agribusiness typically have been viewed through historical economic and political lenses But as William Conlogue demonstrates some of the most vital and incisive debates on the subject have occurred in a site that is perhaps less obvious literature Conlogue refutes the critical tendency to treat farm centered texts as pastorals arguing that such an approach overlooks the diverse ways these works explore human relationships to the land His readings of works by Willa Cather Ruth Comfort Mitchell John Steinbeck Luis Valdez Ernest Gaines Jane Smiley Wendell Berry and others reveal that through agricultural narratives authors have addressed such wide ranging subjects as the impact of technology on people and land changing gender roles environmental destruction and the exploitation of migrant workers In short Conlogue offers fresh perspectives on how writers confront issues whose site is the farm but whose impact reaches every corner of American society      **Gardenland** Jennifer Wren Atkinson,2018-08-01 In exploring the hidden landscape of desire in American gardens Gardenland examines literary fiction horticultural publications and environmental writing including works by Charles Dudley Warner Henry David Thoreau Willa Cather Jamaica Kincaid John McPhee and Leslie Marmon Silko      *Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States* F. H. Hinsley,Francis Harry Hinsley,1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War      American Novel Explication, 1969-1980 ,2000 Covers criticism of American novels found in journals and books published between the years 1991 and 1995      Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1972      **Magill's Bibliography of Literary Criticism: Longus to Sexton** Stephen L. Hanson,Patricia King Hanson,1979      Fighting Words Ira Wells,2013-06-25 An entirely new understanding of what literary naturalism is and why it matters Ira Wells countering the standard narrative of literary naturalism s much touted concern with environmental and philosophical determinism draws attention to the

polemical essence of the genre and demonstrates how literary naturalists engaged instead with explosive political and cultural issues that remain fervently debated today Naturalist writers Wells argues in *Fighting Words* are united less by a coherent philosophy than by an attitude a posture of aggressive controversy which happens to cluster loosely around particular social issues To an extent not yet appreciated literary naturalists took controversial and frequently contrarian positions on a wide range of literary political and social issues Frank Norris for instance famously declared the innate inferiority of female novelists and frequently wrote about literature in tones suggestive of racial warfare Theodore Dreiser once advocated with deadly earnestness a program of state run infanticide for disabled or unwanted children Richard Wright praised the Stalin Hitler agreement of 1939 as a great step toward peace While many of their arguments were irascible attention seeking and self consciously inflammatory the combative spirit that fueled these outbursts remains central to the canonical texts of the movement Wells considers Frank Norris's *The Octopus* in light of the emerging discourses of environmentalism and ecological despoliation and examines the issue of abortion in Theodore Dreiser's *An American Tragedy* A chapter on Richard Wright's *Native Son* takes issue with traditional humanistic readings of its protagonist by analyzing the disturbing relationship between terrorism and lynching as a crime and punishment that resists formal incorporation into the law By highlighting the contentious rhetoric that infuses the canonical texts of literary naturalism *Fighting Words* opens up a wide ranging and interdisciplinary interrogation of racial sexual and environmental polemics in American culture Eli and the Octopus Matt Garcia, 2023-04-18 The poignant rise and fall of an idealistic immigrant who as CEO of a major conglomerate tried to change the way America did business before he himself was swallowed up by corporate corruption At 8 a m on February 3 1975 Eli Black leapt to his death from the 44th floor of Manhattan's Pan Am building The immigrant turned CEO of United Brands formerly United Fruit now Chiquita Black seemed an embodiment of the American dream United Brands was transformed under his leadership from the octopus a nickname that captured the corrupt power the company had held over Latin American governments to the most socially conscious company in the hemisphere according to a well placed commentator How did it all go wrong Eli and the Octopus traces the rise and fall of an enigmatic business leader and his influence on the nascent project of corporate social responsibility Born Menashe Elihu Blachowitz in Lublin Poland Black arrived in New York at the age of three and became a rabbi before entering the business world Driven by the moral tenets of his faith he charted a new course in industries known for poor treatment of workers partnering with labor leaders like Cesar Chavez to improve conditions But risky investments economic recession and a costly wave of natural disasters led Black away from the path of reform and toward corrupt backroom dealing Now two decades after Google's embrace of Don't be evil as its unofficial motto debates about ethical capitalism are more heated than ever Matt Garcia presents an unvarnished portrait of Black's complicated legacy Exploring the limits of corporate social responsibility on American life *Eli and the Octopus* offers pointed lessons for those who hope to do good while doing business **A**
