

Logical Positivism: Metaphysics is Meaningless

A. J. Ayer
(1910-89)

- Statements are meaningful only if they are analytic (tautologies, true/false by definition) or empirical (based on experience)
 - **Objection: this principle is neither, so it is meaningless**
- Because metaphysical, aesthetic, theological and ethical statements are neither tautologies nor statements of fact, they are meaningless (or express only a feeling or emotion, not some truth)
 - **Objection: we really don't believe this**
