Jennifer Komar link the development of retailing in the late nineteenth century to the interior design practice and Arts and Crafts production of John Bradstreet Thomas O Sullivan provides a study of Robert Koehler one of the region s most respected painters while he reviews the work of over two dozen of the state s other painters working at the time The special communal nature of Minnesota s artistic life is emphasized in Marcia Anderson s contribution Her study of the Handicraft Guild of Minneapolis presents years of archival research on the Guild which she presents in the context of the international Arts and Crafts movement Mark Hammons provides the first monograph ever published on the architectural partnership of Purcell and Elmslie the most commissioned architects of the Prairie School after Frank Lloyd Wright Hammons analyzes the team centered working process of the firm and relates their creative process and formal vocabulary to the contemporary metaphysical discourse that was the foundation of their architectural philosophy Louise Lincoln and Paulette Molin study the nature of relationships between whites and the Chippewa and Dakota Indians in their discussion of native material culture Lincoln and Molin decode a complex nuanced cultural interchange embodying both traditional and assimilationist trends Their essay is the first in depth examination of the range of American Indian art from this region one that considers both objects crafted for native use and those produced for the tourist market

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Builder ,1847 **Costume, Makeup, and Hair** Adrienne L. McLean,2016-10-07 Movie buffs and film scholars alike often overlook the importance of makeup artists hair stylists and costumers With precious few but notable exceptions creative workers in these fields have received little public recognition even when their artistry goes on to inspire worldwide fashion trends From the acclaimed Behind the Silver Screen series Costume Makeup and Hair charts the development of these three crafts in the American film industry from the 1890s to the present Each chapter examines a different era in film history revealing how the arts of cinematic costume makeup and hair have continually adapted to new conditions making the transitions from stage to screen from monochrome to color and from analog to digital Together the book s contributors give us a remarkable glimpse into how these crafts foster creative collaboration and improvisation often fashioning striking looks and ingenious effects out of limited materials Costume Makeup and Hair not only considers these crafts in relation to a wide range of film genres from sci fi spectacles to period dramas but also examines the role they have played in the larger marketplace for fashion and beauty products Drawing on rare archival materials and lavish color illustrations this volume provides readers with both a groundbreaking history of film industry labor and an appreciation of cinematic costume makeup and hairstyling as distinct art forms

Childhood by Design Megan Brandow-Faller,2018-04-19 Informed by the analytical practices of the interdisciplinary material turn and social historical studies of childhood *Childhood By Design* Toys and the Material Culture of Childhood offers new approaches to the material world of childhood and design culture for children This volume situates toys and design culture for children within broader narratives on history art design and the decorative arts where toy design has traditionally been viewed as an

aberration from more serious pursuits The essays included treat toys not merely as unproblematic reflections of socio cultural constructions of childhood but consider how design culture actively shaped commodified and materialized shifting discursive constellations surrounding childhood and children Focusing on the new array of material objects designed in response to the modern invention of childhood what we might refer to as objects for a childhood by design Childhood by Design explores dynamic tensions between theory and practice discursive constructions and lived experience as embodied in the material culture of childhood Contributions from and between a variety of disciplinary perspectives including history art history material cultural studies decorative arts design history and childhood studies are represented critically linking historical discourses of childhood with close study of material objects and design culture Chronologically the volume spans the 18th century which witnessed the invention of the toy as an educational plaything and a proliferation of new material artifacts designed expressly for children s use through the 19th century expansion of factory based methods of toy production facilitating accuracy in miniaturization and a new vocabulary of design objects coinciding with the recognition of childhood innocence and physical separation within the household towards the intersection of early 20th century child centered pedagogy and modernist approaches to nursery and furniture design through the changing consumption and sales practices of the postwar period marketing directly to children through television film and other digital media and into the present where the line between the material culture of childhood and adulthood is increasingly blurred The Publishers Weekly ,1993
