*The Management of Living Beings*

or *Emo-management* Delphine Van Hoorebeke, 2018-08-01 This book is based on the author's research carried out over the last ten years in terms of emotional management. It establishes the intervention of emotions at all levels of management, the latter definition management being the art of the possible, the art of guiding, managing, handling, motivating, even resolving and arranging. Emotion is a subject studied particularly in management in English speaking countries and has become a topic of growing interest in organizational behavior. Emotion is in this book considered based on its etymological origin, *ex movere* put into action by the external factors. The objective is to demonstrate a new vision of responsible management and to confront the current challenges in motion. In this way, the latter tends to take into consideration the living, i.e. the psychobiological, neurological and sociological aspects of people in business. Unnatural Leadership David L. Dotlich, Peter C. Cairo, 2002-01-24 Written by David Dotlich and Peter Cairo, two of the country's top executive coaches and educators. *Unnatural Leadership* debunks the common notion of the natural leader as a flawless figure. The book describes the truth about being a real leader in a business environment turned upside down by e-commerce, diversity, security concerns, globalization and matrix structures. Drawing on personal experience working with successful leaders in top tier companies throughout the world, Dotlich and Cairo identify a style of leadership used by those who succeed in complicated business and people situations, a style that maximizes a leader's strengths and acknowledges weaknesses. Fifth Generation Management Charles M. Savage, 1996 This revised edition of *Fifth Generation Management* helps executives out of the rigid mindsets of the Industrial Era into the vibrant and invigorating possibilities of co-creation in the Knowledge Era. Divided into two parts, the first completely rewritten section narrates *Five Days that Changed the Enterprise*, a case study of senior executives who are forced out of their cozy little empires into a new network organization of their own design. The second part discusses the process of co-creating through virtual enterprising, dynamic teaming and knowledge networking. Included is essential new information on fractal enterprises, holonic management systems, agile enterprises and hypertext organizations. Charles Savage is president of Knowledge Era Enterprises Inc. and was formerly in the consultant division of Digital Equipment Corporation. He presents Master Classes on dynamic teaming and virtual enterprising and has written extensively on the knowledge era. His company's logo is a key with the phrase *Unlocking the Future*. Charles Savage assists companies around the world to achieve that goal. Over 40,000 copies of previous edition sold world wide. Previous edition was awarded Book of the Year by Tom Peters. Covers lessons learned over the last five years since *Fifth Generation Management* was first published. Ciulla, 2014-09-09 Top academic scholars ponder the question of ethics as it pertains to all aspects of leadership in business government and nonprofit organizations If leaders were defined by their influence on history Hitler would be on par with Gandhi Lincoln and Mother Theresa Yet most of us believe that our superiors have a responsibility to exercise power with a purpose far greater than any political agenda and a motive more noble than personal gain This thought provoking collection of essays explores the ethical challenges that leaders face in their relationships with followers the choices they make and the ways in which they influence others Joanne Ciulla and her contributors examine the traits and characteristics of top tier leaders She questions the
