Engster, 2007-04-26 The Heart of Justice proposes a new framework of political justice based upon the practice of caring Integrating the insights of earlier care theorists with the concerns of traditional justice theorists Engster forges a new synthesis between care and justice and further argues that the institutional and policy commitments of care theory must be recognized as central to any adequate theory of justice Engster begins by offering a practice based account of caring and a theory of obligation that explains why individuals should care for others He then systematically demonstrates the implications of this account of caring for domestic politics economics international relations and culture In each of these areas he reviews the contributions of earlier care theorists and then extends their arguments to provide a more complete description of the institutions and policies of a caring society Care ethics is further put in dialogue with diverse cultural and religious traditions and used to address the challenges of multicultural justice cultural relativism and international human rights More fully than other works on care theory this book provides an over arching account of the institutions and policies of a caring society The Heart of Justice provides the first full account of a theory of justice based upon care ethics and should be of interest to anyone interested in thinking about the nature of our moral obligations and the institutions of a just society

of Time Sabina Knight,2020-03-23 By examining how narrative strategies reinforce or contest deterministic paradigms this work describes modern Chinese fiction s unique contribution to ethical and literary debates over the possibility for meaningful moral action How does Chinese fiction express the desire for freedom as well as fears of attendant responsibilities and abuses How does it depict struggles for and against freedom How do the texts allow for or deny the possibility of freedom and agency By analyzing discourses of agency and fatalism and the ethical import of narrative structures the author explores how representations of determinism and moral responsibility changed over the twentieth century She links these changes to representations of time and to enduring commitments to human heartedness and social

justice Although Chinese fiction may contain some of the most disconsolate pages in the twentieth century's long literature of disenchantment it also bespeaks Knight argues a passion for freedom and moral responsibility Responding to ongoing conflicts between the claims of modernity and the resources of past traditions these stories and novels are often dominated by challenges to human agency Yet read with sensitivity to traditional Chinese conceptions of moral experience their testimony to both the promises of freedom and the failure of such promises opens new perspectives on moral agency

The Heart of the Constitution Gerard N. Magliocca, 2018 This is the untold story of the most celebrated part of the Constitution Until the twentieth century few Americans called the first ten constitutional amendments drafted by James Madison in 1789 and ratified by the states in 1791 the Bill of Rights Even more surprising when people finally started doing so between the Spanish American War and World War II the Bill of Rights was usually invoked to justify increasing

rather than restricting the authority of the federal government President Franklin D Roosevelt played a key role in that development first by using the Bill of Rights to justify the expansion of national regulation under the New Deal and then by transforming the Bill of Rights into a patriotic rallying cry against Nazi Germany It was only after the Cold War began that the Bill of Rights took on its modern form as the most powerful symbol of the limits on government power These are just some of the revelations about the Bill of Rights in Gerard Magliocca's *The Heart of the Constitution* For example we are accustomed to seeing the Bill of Rights at the end of the Constitution but Madison wanted to put them in the middle of the document Why was his plan rejected and what impact did that have on constitutional law Today we also venerate the first ten amendments as the Bill of Rights but many Supreme Court opinions say that only the first eight or first nine amendments Why was that and why did that change The Bill of Rights that emerges from Magliocca's fresh historical examination is a living text that means something different for each generation and reflects the great ideas of the Constitution individual freedom democracy states rights judicial review and national power in time of crisis

Stewart, 2009-11-24 From Pulitzer Prize winner James B Stewart comes the extraordinary story of American hero Rick Rescorla Morgan Stanley security director and a veteran of Vietnam and the British colonial wars in Rhodesia who lost his life on September 11 When Rick Rescorla got home from Vietnam he tried to put combat and death behind him but he never could entirely From the day he joined the British Army to fight a colonial war in Rhodesia where he met American Special Forces officer Dan Hill who would become his best friend to the day he fell in love with Susan everything in his remarkable life was preparing him for an act of generosity that would transcend all that went before Heart of a Soldier is a story of bravery under fire of loyalty to one's comrades of the miracle of finding happiness late in life Everything about Rick's life came together on September 11 In charge of security for Morgan Stanley he successfully got all its 2 700 men and women out of the south tower of the World Trade Center Then thinking perhaps of soldiers he'd held as they died as well as the woman he loved he went back one last time to search for stragglers Heart of a Soldier is a story that inspires offers hope and helps heal even the deepest wounds *At the Heart of Work and Family* Anita Iltis Garey, Karen V. Hansen, 2011-02-01 At the Heart of Work and Family presents original research on work and family by

scholars who engage and build on the conceptual framework developed by well known sociologist Arlie Russell Hochschild. These concepts such as the second shift, the economy of gratitude, emotion work, feeling rules, gender strategies, and the time bind are basic to sociology and have shaped both popular discussions and academic study. The common thread in these essays covering the gender division of housework, childcare, networks, families in the global economy, and children of consumers is the incorporation of emotion, feelings, and meaning into the study of working families. These examinations like Hochschild's own work connect micro level interaction to larger social and economic forces and illustrate the continued relevance of linking economic relations to emotional ones for understanding contemporary work family life. *Reverence for the Heart of the Child* Leander S. Harding, 2011-04-01. Are children little angels or little devils or are they like their parents a little of each? Must they go through a definite moment of conversion or can they grow up always knowing themselves to be Christian? How do theological ideas about human nature, sin, and salvation affect how parents see and treat children? Starting with Horace Bushnell's classic 19th century study *Christian Nurture*, Leander Harding brings the discussion up to date with the help of insights from contemporary psychoanalytic thought and Family Systems Theory. Included are practical suggestions for parents and parishes.
